Stewart, 1994 **Golden Spike Rail Feasibility Study**, 1994 *The Golden Spike* Don Nardo, 2015 Chronicles the historic meeting of two railroad lines in 1869 that linked the U S transcontinental railroad and Andrew J Russell s famous photograph of the event **Opening the Iron Trail** Edwin Legrand Sabin, 1919 [God's Hand on America](#) Michael Medved, 2019 In *The American Miracle* Divine Providence in the Rise of the Republic Michael Medved uncovered a pattern of extraordinary and improbable turns in the young nation s ascent to power Now in the anticipated second volume the nation s epic tale enters the modern era As the civil war comes to an end and reconstruction begins the Union is narrowly saved from total demise But contempt still runs hot through the battered nation and the future of the United States is still at stake In *This Favored Land* Medved reveals the instruments of fate that took the bedraggled country from its lowest point to her dominant role on the world stage today Following the paths of American heroes and the little known figures who played indispensable roles in the unfolding of the nation s freakishly fortunate destiny *This Favored Land* proves that the founding fathers were right God has always been and continues to be at work in shaping the fate of the nation **Nothing Like It In the World** Stephen E. Ambrose, 2001-11-06 The story of the men who build the transcontinental railroad in the 1860 s **Stephen E. Ambrose Opening of the West E-Book Boxed Set** Stephen E. Ambrose, 2013-06-25 This ebook box set includes *Undaunted Courage* and *Nothing Like It in the World* by Stephen E Ambrose focusing on the ingenuity and the hardships that shaped the American West *Undaunted Courage* This 1 New York Times bestseller gives a sweeping account of the most momentous expedition in American history Ambrose follows the Lewis and Clark Expedition from Thomas Jefferson s hope of finding a waterway to the Pacific through the heart stopping moments of the actual trip to Lewis s lonely demise on the Natchez Trace Along the way Ambrose shows us the American West as Lewis saw it wild awesome and pristinely beautiful *Nothing Like It in the World* A riveting account of an unprecedented feat of engineering vision and courage this is the story of the men who built the transcontinental railroad The US government pitted two companies the Union Pacific and the Central Pacific Railroads against each other in a race for funding encouraging speed over caution and their race brilliantly comes to life in Ambrose s telling of the investors who risked their businesses and money the enlightened politicians who understood its importance the engineers and surveyors who risked and sometimes lost their lives and the Irish and Chinese immigrants the defeated Confederate soldiers and all the laborers who did the backbreaking and dangerous work on the tracks **The Filth of Progress** Ryan Dearing, 2015-10-30 In America s historical imagination toil and triumph against nature and overwhelming odds characterizes such achievements as the Erie Canal and the transcontinental railroad Triumph transformed canal and railroad entrepreneurs into visionaries whose work brought the nation bountiful riches and did the Lord s bidding Celebrated for their spirit and perseverance in

building the nation's infrastructure they found respect for looking to tomorrow and creating a future. For generations most indexes of American history supported and reinforced this narrative of progress. Yet if this is the historical memory it is conveniently stunted. What of those whose bodies strained and broke under the load of such glories? What of those men beyond the din and fanfare who only appear in old photographs with faces blurred and indistinguishable? In their lives and deaths in the mud, muck, and mountains is another history of American achievement. These barely visible and forgotten ordinary men, unskilled immigrants from Ireland and China, Mormons and native-born American workingmen rank as well as the creators of national growth and progress. Their experiences and voices, along with those of the privileged and well connected, are the subjects of this study. I examine the rise of Western canals and railroads to national prominence through the menial labor of countless men largely hidden from view because they left virtually no paper trail who strung together livelihoods at the economic fringes of society. This book examines the contest for control of American progress and history as distilled from the competing narratives of canal and railroad construction workers and those fortunate enough to avoid this fate.
