Irregular Armed Forces And Their Role In Politics And State Formation:

Irregular Armed Forces and their Role in Politics and State Formation Diane E. Davis, Anthony W.

Pereira, 2003-01-13 Existing models of state formation are derived primarily from early Western European experience and are misleading when applied to nation states struggling to consolidate their dominion in the present period In this volume scholars suggest that the Western European model of armies waging war on behalf of sovereign states does not hold universally The importance of irregular armed forces militias guerrillas paramilitaries mercenaries bandits vigilantes police and so on has been seriously neglected in the literature on this subject The case studies in this book suggest among other things that the creation of the nation state as a secure political entity rests as much on irregular as regular armed forces For most of the developing world the state's legitimacy has been difficult to achieve constantly eroding or challenged by irregular armed forces within a country's borders No account of modern state formation can be considered complete without attending to irregular forces

Governance in Conflict Blanka Bellak, Jaba Devdariani, Benedikt Harzl, Lara Spieker, 2017 This edited volume provides new insight into the interplay between governance and conflict The articles in this volume deal with this problematic dimension from a variety of perspectives covering different actors and topics as well as a vast array of geographical locations and entities that include both states and de facto or unrecognized states such as Transnistria Scholars and practitioners have contributed to this work to bridge the gap between academia and practice The volume blends scholarly research with examples of practical application to approach the conundrums of governance in and during conflict in a comprehensive way

Paramilitarism Uğur Ümit Üngör, 2020-07-03 From the deserts of Sudan to the jungles of Colombia and from the streets of Belfast to the mountains of Kurdistan paramilitaries have appeared in violent conflicts in very different settings Paramilitaries are generally depicted as irregular armed organizations that carry out acts of violence against civilians on behalf of a state In doing so they undermine the state's monopoly of legitimate violence while at the same time creating a breeding ground for criminal activities Why do governments with functioning police forces and armies use paramilitary groups This study tackles this question through the prism of the interpenetration of paramilitaries and the state The author interprets paramilitarism as the ability of the state to successfully outsource mass political violence against civilians that transforms and traumatizes societies It analyses how paramilitarism can be understood in global context and how paramilitarism is connected to transformations of warfare and state society relations By comparing a broad range of cases it looks at how paramilitarism has made a profound impact in a large number of countries that were different but nevertheless shared a history of pro government militia activity A thorough understanding of paramilitarism can clarify the direction and intensity of violence in wartime and peacetime The volume examines the issues of international involvement institutional support organized crime party politics and personal ties

Contention and Trust in Cities and States Michael Hanagan, Chris Tilly, 2011-04-15 The catalyst for this book is the fact that noted sociologist Charles Tilly upon his death in

2008 left one completed chapter of an unfinished manuscript entitled Cities States and Trust Networks examining the relationships between cities and nation states over the sweep of history and in particular the role of trust networks in mediating this relationship Though this was the catalyst the book serves a broader purpose to survey recent frontier work on cities nation states and the relations between the two in historical and contemporary perspective Essays in the book will address four main themes city state relations trust networks and commitment democracy and inequality and the importance of historical legacies in shaping state structures practices and capacities They will be global in scope with research on the United States Latin America Europe Asia and Africa a number of the pieces will be comparative They will also be interdisciplinary including works of geography history political science sociology urban planning The book addresses several confluent needs of readers One is to simply update themes addressed in earlier edited work such as Bringing the State Back In 1985 A second is to bring together current thinking about cities on the one hand and nation states on the other literatures that are often segregated from each other A third is to perform those two purposes in a way that is global in scope and combines both historical and current analyses to pull together insights from the full range of human experience Violence and Crime in Latin America Gema Santamaría, David Carey, 2017-02-21 According to media reports Latin America is one of the most violent regions in the world a distinction it held throughout the twentieth century The authors of Violence and Crime in Latin America contend that perceptions and representations of violence and crime directly impact such behaviors creating profound consequences for the political and social fabric of Latin American nations Written by distinguished scholars of Latin American history sociology anthropology and political science the essays in this volume range from Mexico and Argentina to Colombia and Brazil in the twentieth and twenty first centuries addressing such issues as extralegal violence in Mexico the myth of indigenous criminality in Guatemala and governments selective blindness to violent crime in Brazil and Jamaica The authors in this collection examine not only the social construction and political visibility of violence and crime in Latin America but the justifications for them as well Analytically and historically these essays show how Latin American citizens have sanctioned criminal and violent practices and incorporated them into social relations everyday practices and institutional settings At the same time the authors explore the power struggles that inform distinctions between illegitimate versus legitimate violence Violence and Crime in Latin America makes a substantive contribution to understanding a key problem facing Latin America today In its historical depth and ethnographic reach this original and thought provoking volume enhances our understanding of crime and violence throughout the Western Hemisphere *The Frailty of Authority* Lorenzo Kamel, 2017-03-31 Governance failures combined with 21st century social economic environmental and demographic conditions have all contributed to paving the way for the rise of highly heterogeneous non state and quasi state actors in the Middle East Has the state then been irremediably undermined or will the current transition lead to the emergence of new state entities How can the crumbling of states and the redrawing of borders be

reconciled with the exacerbation of traditional inter state competition including through proxy wars How can a new potential regional order be framed and imagined This volume provides a historical background and policy answers to these and a number of other related questions analysing developments in the region from the standpoint of the interplay between disintegration and polarization

The Unfinished History of the Iran-Iraq War Annie Tracy Samuel,2021-10-21 The Islamic Revolutionary Guard Corps IRGC founded after the Iranian revolution in 1979 is one of the most powerful and prominent but least understood organizations in Iran In this book Annie Tracy Samuel presents an innovative and compelling history of this organization and by using the Iran Iraq War as a focal point analyzes the links between war and revolution Tracy Samuel provides an internal view of the IRGC by examining how the Revolutionary Guards have recorded and assessed the history of the war in the massive volume of Persian language publications produced by the organization s top members and units This not only enhances our comprehension of the IRGC s roles and power in contemporary Iran but also demonstrates how the history of the Iran Iraq War has immense bearing on the Islamic Republic s present and future In doing so the book reveals how analyzing Iran s history provides the critical tools for understanding its actions today

Embattled Glory Neil J. Diamant,2010-01-16 This groundbreaking book examines the treatment of veterans of the People s Liberation Army and military families as an illuminating window into Chinese patriotism citizenship and legitimacy Using a wealth of recently declassified archival documents and employing a wide comparative perspective Neil J Diamant presents the first large scale study of these groups in comparison to similar populations in other parts of Asia and in the West He offers an unprecedented look at the everyday interactions among veterans military families state officials and ordinary citizens as they attempted to secure urban residence jobs spouses medical care and respect Often celebrated by the government for their glorious and patriotic service veterans and military families were the beneficiaries of many policies such as affirmative action in hiring and access to political power But the author asks if veteran and military families were heroic why did many of them compare their situation to donkeys slaughtered after grinding the wheat and tossed away dirty socks And what explains the thousands of suicides among veterans rampant discrimination and ongoing protests against the government By comparing veterans in China to their counterparts in the United States the Soviet Union Israel and elsewhere this book provides important answers to the larger question of what circumstances lead to better or worse treatment of veterans and what this treatment tells us about patriotism legitimacy and respect for military service

Building a Multiethnic Military in Post-Yugoslav Bosnia and Herzegovina Elliot Short,2022-02-24 On 1 January 2006 soldiers from across Bosnia and Herzegovina gathered to mark the official formation of a unified army and yet little over a decade before these men had been each other s adversaries during the vicious conflict which left the Balkan state divided and impoverished Building a Multi Ethnic Military in Post Yugoslav Bosnia and Herzegovina offers the first analysis of the armed forces during times of peace building in Bosnia and Herzegovina This sophisticated study assesses Yugoslav efforts to build a multi ethnic

military during the socialist period charts the developments of the armies that fought in the war and offers a detailed account of the post war international initiatives that led to the creation of the Armed Forces of Bosnia and Herzegovina At this point the military became the largest multi ethnic institution in the country and was regarded as a model for the rest of Bosnian society to follow As such as Elliot Short adroitly contends this multi ethnic army became the most significant act in stabilising the country since the end of the Bosnian War Drawing upon a wealth of primary sources including interviews with leading diplomats and archival documents made available in English for the first time this book explores the social and political role of the Bosnian military and in doing so provides fresh insight into the Yugoslav Wars statehood and national identity and peace building in modern European history

Armed Groups and Contemporary Conflicts Keith Krause,2013-09-13
Armed groups operating beyond the state have become the most important actors in most contemporary wars and violent conflicts from Iraq and Afghanistan to Colombia and Somalia They come in a dizzying array of forms some informally linked to the state and state power others in opposition to the state some pursuing classic political goals others primarily predatory and large scale criminal enterprises All groups however challenge the state s Weberian monopoly of the legitimate use of force yet their origins evolution violent dynamics and relations with state power are poorly understood This interdisciplinary collection includes both conceptual and empirical studies of contemporary armed groups examining cases in Latin America Asia and Africa It brings sociological political economy and ethnographic approaches to bear on larger questions including armed groups and the changing nature of warfare the economic dimensions of their activities and means of engagement with armed actors It both broadens and sharpens our understanding of how force and violence are used in today s contemporary armed conflicts This book was published as a special issue of Contemporary Security Policy

State Building in Putin's Russia Brian D. Taylor,2011-02-21 This book argues that Putin s strategy for rebuilding the state was fundamentally flawed Taylor demonstrates that a disregard for the way state officials behave toward citizens state quality had a negative impact on what the state could do state capacity Focusing on those organizations that control state coercion what Russians call the power ministries Taylor shows that many of the weaknesses of the Russian state that existed under Boris Yeltsin persisted under Putin Drawing on extensive field research and interviews as well as a wide range of comparative data the book reveals the practices and norms that guide the behavior of Russian power ministry officials the so called siloviki especially law enforcement personnel By examining siloviki behavior from the Kremlin down to the street level State Building in Putin s Russia uncovers the who where and how of Russian state building after communism

Warlords, Strongman Governors, and the State in Afghanistan Dipali Mukhopadhyay,2014-02-13 This book argues that Afghani warlords can under certain conditions become effective governors on behalf of the state

NEW STUDIES ON CIVIL-MILITARY RELATIONS AND DEFENSE POLICY IN BRAZIL ED.1 Octavio Amorim Neto,2023-01-04 After one of the longest military regimes in Latin America s history Brazil transitioned to democracy in 1985 It was inevitable that from then on the political power of the

military would decline However the extent to which the country s armed forces would eschew politics was never clear given the vast role it had always played in domestic affairs since the onset of the republic in 1889 *Strategic Alliances* Nella Van Dyke, Holly J. McCammon, International Encyclopedia of Political Science Bertrand Badie, Dirk Berg-Schlosser, Leonardo Morlino, 2011-09-07 Developed in partnership with the International Political Science Association this must have authoritative political science resource in eight volumes provides a definitive picture of all aspects of political life *Violent Non-State Actors* Zdenek Ludvík, 2023-05-15 Violent Non State Actors The Politics of Territorial Governance is an original in depth scholarly explanation of the impact of territorial penetration control and governance on the effectiveness of the activities of violent non state actors VNSA The theoretical framework operates with the assertion that a non linear causal relationship mediated through the capacity for territorial control and governance exists between the effectiveness of objective achievement and territorial penetration Using four case studies Zdenek Ludvík links these interrelated concepts of territorial penetration territorial control and territorial governance into an interrelated sequentially conceptualized causal framework To this end extensive and unique empirical material gathered to examine the activities of VNSA in considerable detail presents a wholly original and comprehensive method of measuring the degree of territorial capability of VNSA Zdenek Ludvík demonstrates that there is no directly proportional relationship between territorial penetration and objective effectiveness since neither territorial penetration nor territorial control alone are sufficient to achieve increased effectiveness He shows that territorial penetration and territorial governance are necessary conditions for objective effectiveness since only when territorial penetration and territorial control are followed by territorial governance at the level of advanced wartime social order can VNSA hope to achieve a higher degree of effectiveness *Militia Order in Afghanistan* Matthew P. Dearing, 2021-07-18 This book offers a new insight into when and why paramilitary groups in Afghanistan engage in protective or predatory behavior against the civilians they purportedly defend In Afghanistan s counterinsurgency environment America leaned on militias to provide order and stabilize communities cut off from weak central government institutions However the lucrative market of protection challenged militia loyalty as many engaged in banditry vendettas and predation This book examines the varying militia experiments in Afghanistan from 2001 to 2020 and their outcomes through three sub national case studies It argues that successful militia experiments in Afghanistan involved inclusion of local orders where communities had well established social structures and accountability mechanisms in place and state patrons relied upon those structures as a restraint against militia behavior Complementary management ensured patrons leaned on communities for strong accountability systems But such environments were far from the norm When patrons ignored community controls militias preyed on civilians as they monopolized the market of protection This book adds to the rich literature on the U S experience in Afghanistan but differs by focusing on the interplay between states communities and militias This book will be of much interest to students of military and strategic studies Asian politics security studies and

International Relations **Drugs and Democracy in Rio de Janeiro** Enrique Desmond Arias, 2009-11-13 Taking an ethnographic approach to understanding urban violence Enrique Desmond Arias examines the ongoing problems of crime and police corruption that have led to widespread misery and human rights violations in many of Latin America's new democracies Employing participant observation and interview research in three favelas shantytowns in Rio de Janeiro over a nine year period Arias closely considers the social interactions and criminal networks that are at the heart of the challenges to democratic governance in urban Brazil Much of the violence is the result of highly organized politically connected drug dealers feeding off of the global cocaine market Rising crime prompts repressive police tactics and corruption runs deep in state structures The rich move to walled communities and the poor are caught between the criminals and often corrupt officials Arias argues that public policy change is not enough to stop the vicious cycle of crime and corruption The challenge he suggests is to build new social networks committed to controlling violence locally Arias also offers comparative insights that apply this analysis to other cities in Brazil and throughout Latin America

Containing Balkan Nationalism Denis Vovchenko, 2016-07-18 *Containing Balkan Nationalism* focuses on the implications of the Bulgarian national movement that developed in the context of Ottoman modernization and of European imperialism in the Near East The movement aimed to achieve the status of an independent Bulgarian Orthodox church removing ethnic Bulgarians from the jurisdiction of the Patriarchate of Constantinople This independent church status meant legal and cultural autonomy within the Islamic structure of the Ottoman Empire which recognized religious minorities rather than ethnic ones Denis Vovchenko shows how Russian policymakers intellectuals and prelates worked together with the Ottoman government Balkan and other diplomats and rival churches to contain and defuse ethnic conflict among Ottoman Christians through the promotion of supraethnic religious institutions and identities The envisioned arrangements were often inspired by modern visions of a political and cultural union of Orthodox Slavs and Greeks Whether realized or not they demonstrated the strength and flexibility of supranational identities and institutions on the eve of the First World War The book encourages contemporary analysts and policymakers to explore the potential of such traditional loyalties to defuse current ethnic tensions and serve as organic alternatives to generic models of power sharing and federation

Governing Security After War Louis-Alexandre Berg, 2022 This book explores the political dilemmas around security forces in war torn countries Well governed military and police forces are central to sustained peace after civil war and efforts to restructure security forces are major components of peacebuilding and stabilization efforts As international actors have attempted to strengthen oversight and curb abuse however they have run into thorny political obstacles Varied outcomes have raised questions about the value of international assistance for strengthening state institutions

Irregular Armed Forces And Their Role In Politics And State Formation Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Irregular Armed Forces And Their Role In Politics And State Formation PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books

and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Irregular Armed Forces And Their Role In Politics And State Formation PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Irregular Armed Forces And Their Role In Politics And State Formation free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Irregular Armed Forces And Their Role In Politics And State Formation Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Irregular Armed Forces And Their Role In Politics And State Formation is one of the best book in our library for free trial. We provide copy of Irregular Armed Forces And Their Role In Politics And State Formation in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Irregular Armed Forces And Their Role In Politics And State Formation. Where to download Irregular Armed Forces And Their Role In Politics And State Formation online for free? Are you looking for Irregular Armed

Forces And Their Role In Politics And State Formation PDF? This is definitely going to save you time and cash in something you should think about.
