European Influence Ortega Álvarez Ortega,2010 This book is devoted to the study of the Europeanization of Spanish administrative law and its scope results therefore from the intersection of two basic notions On the one hand Europeanization is understood here as a top down process of innovation suffered by national law as an outcome of the structural principles which govern the relations between European and national systems On the other hand the book focuses on some of the most important institutions of Spanish general administrative law in order to give a wide and comprehensive insight into the transformations of the system thus going beyond the description of the transformations experienced by the regulation of concrete sectors of administrative action Specifically the main topics discussed include regulation of administrative procedure case law on the right to good administration public procurement law public services regulation interim measures in judicial review and the evolution of administrative sanctions *Dawn Raids Under Challenge* Helene

Andersson,2024-06-13 The 2nd edition of this book provides an updated comprehensive analysis of the European Commission's dawn raid practices from a due process perspective Examining the obligations imposed by the Charter and the ECHR and the response of the Luxembourg and Strasbourg Courts the book shows that whereas the Strasbourg Court manages to strike a balance between efficiency concerns and fundamental rights the approach of the EU Courts is not equally balanced The dawn raid is a powerful tool on which the European Commission relies heavily in its antitrust investigations In 2022 the Commission carried out dawn raids in private homes for the first time in many years and it has declared its intent to make greater use of the power to inspect private premises Furthermore the European Commission is expanding its dawn raid practices into new areas of law Both the Digital Markets Act and the Foreign Subsidies Regulation empower the Commission to carry out dawn raids and to impose heavy fines on anyone failing to cooperate Ensuring adequate procedural safeguards is

therefore more important than ever The book provides an essential and timely examination of this important subject and is of great practical interest to companies practitioners and enforcers It is also of theoretical interest offering stimulating reflections on the effectiveness and legitimacy of the Commission s enforcement powers **The Statute of the**
