## Irresponsible Age:

**Forensic Anthropology and Medicine** Aurore Schmitt, 2007-11-09 Recent political religious ethnic and racial conflicts as well as mass disasters have significantly helped to bring to light the almost unknown discipline of forensic anthropology. This science has become particularly useful to forensic pathologists because it aids in solving various puzzles such as identifying victims and documenting crimes. On topics such as mass disasters and crimes against humanity, teamwork between forensic pathologists and forensic anthropologists has significantly increased over the few last years. This relationship has also improved the study of routine cases in local medicolegal institutes. When human remains are badly decomposed, partially skeletonized and/or burned, it is particularly useful for the forensic pathologist to be assisted by a forensic anthropologist. It is not a one-way situation when the forensic anthropologist deals with skeletonized bodies that have some kind of soft tissue; the advice of a forensic pathologist would be welcome. Forensic anthropology is a subspecialty field of physical anthropology. Most of the background on skeletal biology was gathered on the basis of skeletal remains from past populations. Physical anthropologists then developed an indisputable knowledge; however, one must keep in mind that looking for a missing person or checking an assumed identity is quite a different matter. Pieces of information needed by forensic anthropologists require a higher level of reliability and accuracy than those granted in a general archaeological context. To achieve a positive identification, findings have to match with evidence, particularly when genetic identification is not possible. *The Journal of Delinquency*, 1921. **Granville Barker on Theatre** Harley Granville Barker, 2017-09-07 Granville Barker on Theatre brings together some of the most important critical theatrical writings of Harley Granville Barker, a major figure of 20th-century British theatre. Known as a pioneer of the National Theatre and Repertory Movement and remembered mainly for his Prefaces to Shakespeare from the 1900s to his death in the 1940s, Granville Barker commented enthusiastically in newspaper items, introductions to plays, articles, essays, and published lectures on a range of topics: the nature of theatre as an art form and as a social medium, the need for ensemble playing in a repertory system, the relationship between the three chief constituents of theatre: the actor, the playwright, and the audience. Granville Barker on Theatre makes available again these writings in which Barker dissects the state of theatre as he saw it, with coruscating critiques of the commercial system, the long run, and censorship; the vitality of theatre outside Britain; and what he saw as the welcome renaissance of theatre in non-professional groups liberated from the profit motive. These writings show a master practitioner concerned with, above all, promoting a new type of drama, vital not only for its own sake but for the sake of the health of society at large. **A British Anarchist Tradition** Carissa Honeywell, 2011-05-12. *The Quarterly Review*, 1923. **Social Policy** John Baldock, Nick Manning, Sarah Vickerstaff, 2007-03 Designed for use by undergraduates on social policy, social work, and sociology courses and by students on vocational training courses including postgraduate, this textbook covers all the main topics of social policy. **Defences to Crime** John Davison Lawson, 1885.
