

A scenic sunset over a beach. The sky is a vibrant orange and yellow, with the sun low on the horizon. In the foreground, a sandy beach is visible with several people standing near the water's edge. A large wooden boat is partially visible on the right. In the middle ground, a dhow sailboat with a single white sail is on the water. Another smaller boat is visible further out. The overall atmosphere is peaceful and picturesque.

Biogeography and Ecology of Southern Africa Marinus J.A. Werger,A.C. van Bruggen,2012-12-06 Southern Africa is certainly not a naturally bounded area so that there are several possibilities for delineating it and concepts about its extent Wellington discussed the various possibilities for

delineation and suggested that one line stands out more clearly and definitely as a physical boundary than any other namely the South Equatorial Divide the watershed between the Zaïre Cuanza and Rufiji Rivers on the one hand and the Zambezi Cunene and Rovuma Rivers on the other This South Equatorial Divide is indeed a major line of separation for some organisms and is also applicable in a certain geographical sense though it does not possess the slightest significance for many other groups of organisms ecosystems or geographical and physical features of Africa The placing of the northern boundary of southern Africa differs in fact strongly per scientific discipline and is also influenced by practical considerations regarding the possibilities of scientific work as subordinate to certain political realities and historically grown traditions This is illustrated for example in such works as the Flora of Southern Africa where the northern boundary of the area is conceived as the northern and eastern political boundaries of South West Africa South Africa and Swaziland Botswana traditionally included in the area covered by the Flora Zambesiaca thus forms a large wedge in Southern Africa

The Swahili Coast

Christine Nicholls, 2024-08-01 First published in 1971 The Swahili Coast deals with a sixty year period in which Arabs from Oman in Arabia extended their influence over the East African coast from Mogadishu in the north to Cape Delgado in the South This region had a culture and a way of life quite distinct from that of the interior and had always been an area of great maritime activity For hundreds of years Arabs had come down on the monsoon winds to trade there and for two centuries the Portuguese had controlled the region In the course of the period covered by this book the ruler of the Omani Arabs transferred his seat of government from Arabia to Zanzibar This involved him in delicate relationships with the Western powers who developed strategic and commercial interests in the area and in conflicts with the local inhabitants of the East African littoral Based on many original and hitherto unpublished materials this book illuminates the reasons for this extension of Arab influence in the western part of the Indian Ocean and shows the growing involvement of Western powers with the politics of the Sultanate of Zanzibar Attention is also focused on the development of trade on the Swahili coast as well as the reaction of the local populace to Arab and Western pressures This study will be particularly useful for advanced students of African history African Studies and anyone interested in political social and economic development of East Africa

Over the Equator

Yury Vasiliev, 2012-08-20 Philip Efremov an intrepid Russian adventurer from the eighteenth century chronicled his nine year wanderings in a handwritten journal titled Nine Year Pilgrimage and Adventure in Bukhara Persia and India But a part of his journey is missing from the pages of his tome These writings were recently discovered and included in this new book Over the Equator which details Efremov's time spent in Africa Departing from India in October of 1781 Efremov describes his adventure filled travels the culture he experienced to the flora and fauna he observed to the characters he witnessed From Malindi to Zanzibar to Pemba Madagascar and Lesotho and points in between Efremov learns about seasickness becomes a slave discovers treasures and feasts with Indian tribes Over the Equator provides a deeper understanding of the culture and beauty of East and South Africa through the eyes of Philip

Cyclopædia of India and of Eastern and Southern Asia, Commercial, Industrial and Scientific Edward Balfour,1873 **European Powers and South-East Africa** , *Church missionary intelligencer* ,1866 Modes of British Imperial Control of Africa Onek C. Adyanga,2011-05-25 This book examines how Great Britain as a colonial power in Africa organized and exercised control at the international and domestic level to advance British interests in Uganda and beyond While this book is by no means an exhaustive study of the various modes of control that took hold in Uganda since its inception as a territorial state up to the period of juridical independence it is hoped that its historiographical contributions to the post colonial dispensation of Uganda will be threefold First it systematically sheds light on the combined influence of racist ideology class and politics in perpetuating informal imperial control in Uganda Second it demonstrates that consolidating informal imperial control has required externalizing the legitimacy of the Ugandan state This suggests that African leaders not supported by external powers may be externally delegitimized and their position made untenable Third it demonstrates that the informal control imposed upon Africans by external powers by removing incentives for internal legitimacy encouraged violations of human rights as African leaders did not need to obtain the consent of their own people in order to remain in power Furthermore it advances the argument that democracy the rule of law and the protection of human rights can be achieved in Africa if leaders enjoy internal legitimacy derived from the people The various modes of control imposed by former masters over colonial and post colonial states were not meant to protect African but imperial interests
