Life To The Limits From Everyday Losses To New Possibilities:

Life to the Limits Remi Parent, 1998 For those who are discouraged or disillusioned who have lost hope trust in life Remi Parent has written a companionable book that helps bring meaning to everyday losses limitations The author points out that we must understand an essential law of existence the yes of our decisions always involves a no a renunciation These renunciations or deaths occur daily we must often say no to one thing in order to say yes to something better Whether these losses are experienced through sickness a failed love rejection a sense of abandonment or ultimate physical death Parent holds forth the example of Jesus his own faith in God as a way to become our true selves indeed to decide to become other than what we have been And that knowledge he writes is the key without which one cannot understand what it is to live In language that is affirming authentic always straightforward *Life to the Limits* is a book that rekindles one's faith that living is meaningful even if it is limited that it requires only what is humanly possible in the moment [Living - Participating -](#)

emerging from the debris of modernist city planning Megacities are arenas for the assertion of national and transnational aspirations as Asia confronts modernity Cities are also sites of speculation not only for those who invest in real estate but also for those who look for housing employment and salvation In its potential and actual mobility the sacred creates social space in which they all can meet Handbook of Religion and the Asian City makes the comparative case that one cannot study the historical patterns of urbanization in Asia without paying attention to the role of religion in urban aspirations
