

A photograph of a dirt road winding through a forest. The trees on either side have autumn foliage in shades of orange, yellow, and brown. The road leads towards a bright light at the end of the path, creating a strong perspective. The overall mood is contemplative and serene.

Staritsa Donald A. Guglielmi,2017-12-07 The present book is the first work to highlight Catherine Doherty s vocation to spiritual motherhood Drawing upon primary archival sources the author traces Catherine s development as a staritsa or spiritual mother in the Russian Eastern tradition Of particular interest are the chapters dealing with Catherine s exercise of spiritual motherhood for priests and laity alike Previously unpublished letters of spiritual direction between Catherine and her major spiritual directors offer the reader a privileged glimpse into the soul of this servant of God and her spiritual children as she grows in her vocation as staritsa For example in one striking letter Catherine describes how she guided a disillusioned young priest who was struggling with a drinking problem and temptations involving young women and was bordering on despair With clenched teeth I sailed into him first gently almost caressingly calling him back to Christ he once loved then more sternly then quietly He left full of thanks and some hope

Soul & Form György Lukács, 2010. György Lukács was a Hungarian Marxist philosopher, writer and literary critic who shaped mainstream European Communist thought. *Soul and Form* was his first book, published in 1910, and it established his reputation treating questions of linguistic expressivity and literary style in the works of Plato, Kierkegaard, Novalis, Schlegel and others. By isolating the formal techniques these thinkers developed, Lukács laid the groundwork for his later work in Marxist aesthetics, a field that introduced the historical and political implications of text. For this centennial edition, John T. Sanders and Katie Terezakis add a dialogue entitled *On Poverty of Spirit*, which Lukács wrote at the time of *Soul and Form*, and an introduction by Judith Butler which compares Lukács's key claims to his later work and subsequent movements in literary theory and criticism. In an afterword, Terezakis continues to trace the Lukácsian system within his writing and other fields. These essays explore problems of alienation and isolation and the curative quality of aesthetic form, which communicates both individuality and a shared human condition. They investigate the elements that give rise to form, the history that form implies, and the historicity that form embodies. Taken together, they showcase the breakdown in modern times of an objective aesthetics and the rise of a new art born from lived experience.

Liberalism in Dark Times Joshua L. Cherniss, 2023-02-21. Today liberals face a predicament: how to defend liberal principles when adherence to them seems to constitute a fatal disadvantage against unprincipled opponents. The challenge is not new. In the early years of the twentieth century, liberalism was attacked by critics on both the right and especially the left for being hypocritical, naive, irresponsible and impotent. It couldn't, for example, address the acute inequality of imperial rule, racial segregation and socio-economic poverty. These issues of social justice, it was claimed, required a politics marked by an uncompromising commitment to ultimate ends and an unrelenting use of power. Faced with such sentiments and the practical successes of anti-liberal ideologies—i.e. Fascism, Nazism and Communism—liberals felt pressure to silence their scruples and doubts and embrace the confidence, ruthlessness and intransigence exhibited by their opponents. But doing so seemed tantamount to abandoning liberal hopes for and commitments to human freedom and all they valued in the first place. In *Liberalism in Dark Times*, Cherniss tells the story of the liberal response to this challenge in the twentieth century. Through a close study of five leading intellectuals engaged in these debates—Max Weber, Raymond Aron, Albert Camus,

Reinhold Niebuhr and Isaiah Berlin Cherniss reconstructs a distinctive neglected strand of liberal thought This strand defines and defends liberalism as a political ethos a complex of dispositions temperament and sensibility and style which include skepticism openness to experience and careful discriminating judgment that shape how individuals make choices meet challenges understand and pursue possibilities and conduct themselves toward others in the course of political struggle In reconstructing the history of what he calls a tempered liberalism and formulating it as a distinctive political perspective Cherniss offers an alternative to the prevalent ways of thinking about both liberalism s history and the intellectual resources available to it today
