Lifeline Isis:

Private Education Geoffrey Walford, 2005-11-24 Private schools are central to the reproduction of social inequality. For example, whilst in the UK providing only about seven per cent of the school population, about half of the undergraduates at Oxford and Cambridge still come from the private sector. Private schools have long been associated with privilege and elitism. While this traditional elitist aspect to the private sector is still central, the private school sector is actually far more diverse than is usually acknowledged. It now includes many small schools and faith-based schools that may not offer the traditional advantages of the private sector but which provide a particular environment deemed desirable by parents. In spite of their educational and social importance, there has been very little academic research and writing on private schools. The proposed book will be the culmination of Professor Walford's research into private schools over the past twenty years. **Global Jihad** Glenn E Robinson, 2020-11-10 A tour de force on the evolution of jihadism, essential reading. Mehran Kamrava, author of *Inside the Arab State*. Most violent jihadi movements in the twentieth century focused on removing corrupt repressive secular regimes throughout the Muslim world. But following the 1979 Soviet invasion of Afghanistan, a new form of jihadism emerged, global jihad, turning to the international arena as the primary locus of ideology and action. With this book, Glenn E Robinson develops a compelling and provocative argument about this violent political movement's evolution. *Global Jihad* tells the story of four distinct jihadi waves, each with its own program for achieving a global end, whether a Jihadi International to liberate Muslim lands from foreign occupation, al-Qaeda's call to drive the United States out of the Muslim world, ISIS using jihadi cool to recruit followers, or leaderless efforts of stochastic terror to keep the dream alive. Robinson connects the rise of global jihad to other movements of rage, such as the Nazi Brownshirts, White supremacists, Khmer Rouge, and Boko Haram. Ultimately, he shows that while global jihad has posed a low strategic threat, it has instigated an outsized reaction from the United States and other Western nations. A remarkably comprehensive account. *Foreign Affairs* Mankind Pamela D. Toler, 2012-10-30 A companion book to the History Channel series *The History of Mankind*, which covers the worldwide history of human beings. **Wholly Different** Nonie Darwish, 2017-02-21 Western countries are ignorant of true Islamic values, says Nonie Darwish. Darwish is an Egyptian American former Muslim human rights activist who is frustrated with mainstream America's talk of tolerance and assimilation. In *Wholly Different*, Darwish sets non-Muslims straight about tenets of Islam that are incompatible with free society. For the first time, Darwish tells the whole story of her personal break with Islam, starting with the brutal physical violence and rigid class system she witnessed and culminating with the spine-tingling visit she received from President Nasser after her father, fedayeen commander Mustafa Hayez, was assassinated by Israeli Defense Forces. She lays out the seventh-century values of Islam that religious extremists are so intent on protecting through global warfare, values that set Islam apart from the other Abrahamic religions. **Get Money Girls** Rachael Reed, 2024-07-04 In the gritty streets of the inner-city ghetto, the Reed sisters, Isis, Bria, Asia, and Nikki, are fighting for their lives and their family.

Raised by a single mother in a world where every day is a struggle these four women are bound by blood loyalty and the unbreakable will to survive But when their mother suffers a devastating stroke the sisters are thrust into a desperate battle against time money and the law

An Uncertain Ally David L. Phillips, 2017-05-23 Under the rule of Recep Tayyip Erdogan Turkey has descended into a dictatorship promotes the Islamist agenda abuses human rights limits freedom of expression in the press and wages war against the Kurds While Turkey has historically been important geopolitically it has become an outlier in Europe and an uncertain ally of the United States An Uncertain Ally is a straightforward indictment of Erdogan Drawing on inside sources in his Justice and Development Party AKP and the police the book reveals corruption and money laundering schemes that benefitted Erdogan his cronies and family members Erdogan has polarized Turkish society and created conditions that led to the coup attempt of July 2016 He has also deepened divisions by accusing Fethullah Gulen an Islamic teacher in Pennsylvania of establishing a parallel state and masterminding the coup attempt Erdogan has seized on the failed coup to justify a witch hunt arresting thousands and ordering the wholesale dismissal of alleged coup sympathizers Rather than foster reconciliation he pursued vendettas and turned Turkey into a gulag An Uncertain Ally exposes Turkey's ties to jihadists in Syria and the Islamic State questioning its suitability as a NATO member Under Erdogan Turkey faces a dark future that poses a danger to the region and internationally

International Law and the War with Islamic State Saeed Bagheri, 2021-07-15 Armed non state actors ANSAs often have economic aims that international law needs to respond to This book looks at the aim of Islamic State to create an effective government with an economically independent regime which

focused on key oilfields in Syria and Iraq Having addressed Islamic State s quest for energy resources in Iraq and Syria the book explores the lawfulness of the war with Islamic State from a variety of legal aspects It has been attempted to make inroads into the most controversial aspects of contradictions in the application of jus ad bellum and jus in bello particularly when discussing the use of extraterritorial armed force against ANSAs and the obligation to protect civilian objects including the natural environment The question is whether the targeting of energy resources should be regarded as a violation of the laws of armed conflict even though the war with Islamic State being classified as a non international armed conflict Ambitious in scope the study argues that legal theory and state practice are still problematic as to how and under what conditions states can justify resorting to military force in foreign territory and to what extent they can target natural resources as being part of state property Furthermore it goes on to examine the differences between international and non international armed conflicts to establish whether there is any difference in the targeting of energy resources as part of the war sustaining capabilities of either party Through an examination of the Islamic State case the book offers a comprehensive study to close the gaps in jus in bello by contextualising the questions of civilian protection victimisation and state responsibility by evaluating the US s war sustaining theory as a justification for the destruction of a territorial state s natural resources that are occupied by ANSAs

Books Out Loud ,2004 *Time and the Image* Carolyn Bailey Gill,2000 This fascinating and innovative study explores the lives of people living in early modern Ireland through the books and printed ephemera which they bought borrowed or stole from others While the importance of books and printing in influencing the outlook of early modern people is well known recent years have seen significant changes in our understanding of how writing and print shaped lives and was in turn shaped by those who appropriated the written word The author finds that a set of revolutions took place which transformed the lives of the Irish in unexpected ways and that the rise of writing and the spread of print were central to an understanding of those changes which have previously only been understood to have been the result of conquest and colonisation This is a book which will be read not only by those interested in the Irish past but by all those who are concerned with the impact of communications media on social change
