King, Helen Taylor, 1996 The contemporary American South is a region of economic expansion political sophistication and particularly cultural ferment Its literature is well known and celebrated But what of the popular cultural forms of expression that have done so much to reflect the curious tensions between the traditional South white dominated rural religious and contemporary multicultural forms and discourses This collection offers a wealth of exciting new perspectives on cultural studies in general and of the particular forms of popular Southern culture from rock and roll to Cajun music to the impact on the South of tourism and the questions of genre and race in contemporary film making *The American Civil War* Peter J. Parish, 2020-12-06 Originally published in 1975 this assessment of the American Civil War is a broad treatment of the war as a major historical event set in the context of a detailed picture of two governments economies and societies at war It discusses many controversial topics the uncertainty and hesitation that surrounded the origins of the war for example its economic impact the Radicals and their relationship with Lincoln and reconstruction as a wartime issue It offers acute analysis of Lincoln's political skills and an evaluation of emancipation and Lincoln's approach to it the problems and performance of the opposition during the war international reactions an assessment of some of the leading generals like McClellan and Lee and the impact of the war on both Southern and Northern society The Great Revival John B. Boles, 2021-12-14 Drawing upon the religious writings of southern evangelicals John Boles asserts that the extraordinary crowds and miraculous transformations that distinguished the South's First Great Awakening were not simply instances of

emotional excess but the expression of widespread and complex attitudes toward God. Converted southerners were starkly individualistic, interested more in gaining personal salvation in a hopelessly evil world than in improving society. As Boles shows in this landmark study, the effect of the Revival was to throw over the region a conservative cast that remains dominant in contemporary southern thought and life. *The New Encyclopedia of Southern Culture* Harvey H. Jackson III, Charles Reagan Wilson, 2014-02-01. What southerners do, where they go, and what they expect to accomplish in their spare time: their leisure reveals much about their cultural values, class, and racial similarities and differences and historical perspectives. This volume of *The New Encyclopedia of Southern Culture* offers an authoritative and readable reference to the culture of sports and recreation in the American South, surveying the various activities in which southerners engage in their nonwork hours as well as attitudes surrounding those activities. Seventy-four thematic essays explore activities from the familiar porch sitting and fairs to the essential football and stock car racing to the unusual pool checkers and a sport called fireballing. In seventy-seven topical entries, contributors profile major sites associated with recreational activities such as Dollywood drive-ins and the Appalachian Trail and prominent sports figures including Althea Gibson, Michael Jordan, Mia Hamm, and Hank Aaron. Taken together, the entries provide an engaging look at the ways southerners relax, pass time, celebrate, let loose, and have fun. *The New Negro* Alain Locke, 2021-01-13. Widely regarded as the key text of the Harlem Renaissance, this landmark anthology of fiction, poetry, essays, drama, music, and illustration includes contributions by Langston Hughes, Zora Neale Hurston, Claude McKay, James Weldon Johnson, and other luminaries. **The Wiley Blackwell Anthology of African American Literature, Volume 2** Gene Andrew Jarrett, 2014-01-28. The Wiley Blackwell Anthology of African American Literature is a comprehensive collection of poems, short stories, novellas, novels, plays, autobiographies, and essays authored by African Americans from the eighteenth century until the present. Working at Play Cindy Sondik Aron, 2001. This text chronicles the history of vacationing in America since the early 19th century. It is concerned with how, when, and why vacationing came to be part of life, charting this social and cultural institution as it grew from the custom of a small elite into a mass phenomenon. **Imperatives, Behaviors, and Identities** Jack P. Sender, Arkebe Oqubay, 2020 This book challenges conventional wisdoms about economic performance and possible policies for economic development in African countries Its starting point is the striking variation in African economic performance Unevenness and inequalities form a central fact of African economic experiences The authors highlight not only differences between countries but also variations within countries differences often organized around distinctions of gender class and ethnic identity For example neo natal mortality and school dropout have been reduced particularly for some classes of women in some areas of Africa Horticultural and agribusiness exports have grown far more rapidly in some countries than in others These variations and many others point to opportunities for changing performance reducing inequalities learning from other policy experiences and escaping the ties of structure and the legacies of a colonial past The book rejects teleological illusions and Eurocentric prejudice but it does pay close attention to the results of policy in more industrialized parts of the world Seeing the contradictions of capitalism for what they are fundamental and enduring may help policy officials protect themselves against the misleading idea that development can be expected to be a smooth linear process or that it would be were certain impediments suddenly removed The authors criticize a wide range of orthodox and heterodox economists especially for their cavalier attitude to evidence Drawing on their own decades of research and policy experience they combine careful use of available evidence from a range of African countries with political economy insights mainly derived from Kalecki Kaldor and Hirschman to make the policy case for specific types of public sector investment **Divergent**

Paths : How Culture and Institutions Have Shaped North American Growth Marc Egnal Professor of History York University, 1996-06-11 Why are some countries without an apparent abundance of natural resources such as Japan economic

success stories while other languish in the doldrums of slow growth In this comprehensive look at North American economic history Marc Egnal argues that culture and institutions play an integral role in determining economic outcome He focuses his examination on the eight colonies of the North five colonies of the South which together made up the original thirteen states and French Canada Using census data diaries travelers accounts and current scholarship Egnal systematically explores how institutions such as slavery in the South and the seigneurial system in French Canada and cultural arenas such as religion literacy entrepreneurial spirit and intellectual activity influenced development He seeks to answer why three societies with similar standards of living in 1750 became so dissimilar in development By the mid nineteenth century the northern states had surged ahead in growth and this gap continued to widen into the twentieth century Egnal argues that culture and institutions allowed this growth in the North not resources or government policies Both the South and French Canada stressed hierarchy and social order more than the drive for wealth Rarely have such parallels been drawn between these two societies Complete numerous helpful appendices figures tables and maps *Divergent Paths* is a rich source of unique perspectives on economic development with strong implications for emerging societies **Making America** Luther S. Luedtke, 1992 In this richly interdisciplinary work twenty eight of the nation s leading critics and scholars offer a comprehensive exploration of American society and culture Each outstanding in his or her own field the contributors address America from a diversit **Neither Black Nor White** Carl N. Degler, 1986 Carl Degler s 1971 Pulitzer Prize winning study of comparative slavery in Brazil and the United States is reissued in the Wisconsin paperback edition making it accessible for all students of American and Latin American history and sociology Until Degler s groundbreaking work scholars were puzzled by the differing courses of slavery and race relations in the two countries Brazil never developed a system of rigid segregation such as appeared in the United States and blacks in Brazil were able to gain economically and retain far more of their African culture Rejecting the theory of Gilberto Freyre and Frank Tannenbaum that Brazilian slavery was more humane Degler instead points to a combination of demographic economic and cultural factors as the real reason for the differences In the early 1970s when studies in social history were beginning to blossom on the North American scene Carl Degler s prize winning contribution was a thoughtful provocative essay in comparative history Its thoughtfulness has not diminished with the years Indeed it is as topical today as when it was first published The Brazilian experience with rapid industrialization and its attempt to restore democratic government indicates that the issues which Degler treated in the early 1970s are more pertinent than ever today Franklin W Knight Department of History Johns Hopkins University
