Afin de répondre aux besoins d'une pratique clinique aussi large et variée que possible, six chapitres traitent des situations cliniques particulières : la reprise de traitement, les extractions, les agnathies d'incisives latérales, les traitements prothétiques, la contention et enfin l'aspect multidisciplinaire. Ouvrage de référence pour les orthodontistes et pour les chirurgiens désireux d'élargir leurs connaissances, ce livre est conçu pour être un support global de l'amélioration de nos savoir-faire ainsi qu'un guide dans nos choix thérapeutiques. Son originalité est de montrer que l'orthodontie linguale peut s'utiliser avec une remarquable efficacité de 12-77 ans voire au-delà. *Lire*

Les Images, Voir Les Textes Louise Maurer, Roger Hillman, 2006. The essays in this volume are situated in French and Australian contexts and focus on texts linking language and visual images. There is an emerging debate in universities concerning the interpretation of images whether in the field of aesthetics, politics or technology. The contributors focus on images ranging from photography to maps, films, paintings and computer games. In addition, they consider relations between genders and nations as understood in particular historical or semiological contexts. Geographic and disciplinary boundaries are consciously transgressed and blurred so that a new interdisciplinary dialogue between written texts and visual arts emerges. Ce recueil d'essais situés dans le contexte d'échanges franco-australiens a pour objet les liens entre images et langage sur le plan du discours. L'interprétation du visuel fait l'objet d'un débat mergeant dans les universités que ce soit dans le domaine de l'esthétique, du politique ou de la technologie. Les contributions analysent des images allant de la photographie aux jeux multimédia en passant par les cartes, le cinéma et la peinture. Par ailleurs, elles interrogent les relations tant au niveau de l'individu que des nations dans des contextes historiques et sémiologiques spécifiques. Les contributeurs traversent les frontières disciplinaires et géographiques de façon à susciter un nouveau dialogue interdisciplinaire entre textes et arts visuels. *Pamphlets on Wine*, 1853
