## Le Futurisme:

Handbook of International Futurism Günter Berghaus, 2018-12-17 The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement initiated by F T Marinetti in 1909 exercised a particularly noteworthy influence The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty eight countries While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia it treats Futurism as an international multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth century avant garde Hundreds of artists who in some phase in their career absorbed Futurist ideas and stylistic devices are presented in the context of their national traditions their international connections and the media in which they were predominantly active The handbook acts as a kind of multi disciplinary geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact International Futurism in Arts and Literature Günter

Berghaus, 2012-10-25 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world *Expressionism as an International Literary Phenomenon* Ulrich Weisstein, 1973-01-01 Ulrich Weisstein s collection of 21 essays offers a comparative study of Expressionism as a Modernist movement whose dynamic core lay in Germany and Austria Hungary but which transformed artistic practices in other European countries The focus Weisstein argues must be strictly and sharply aimed at a specific body of works and opinions a relatively dense core surrounded by a less clearly defined fringe zone indigenous to the German speaking countries The volume spans an Expressionist period extending from roughly 1910 to 1925 Weisstein himself contributes two introductory chapters on problems of definition and a thoughtful analysis of English Vorticism An ample context is set by comparative essays concerned with international movements such as Futurism that had an impact on German Expressionist drama prose and poetry together with essays on the adaptation of Expressionist forms in countries such as Poland Russia Hungary South Slavic nations and the United States These essays call attention to representative authors and artists as well as to periodicals and artistic circles Reviewers have praised not only the presentation of literary links and interaction among national cultures but especially the most rewarding interdisciplinary essays on Dada and on Expressionist painting music and film Futurism and Politics Günter Berghaus, 1996 On futurism and fascism in Italy

**The Dawn of Political Nihilism** Professor David Ohana, 2008-12-04 In the turbulent period between 1870 and 1930 the contours on modernity were taking shape especially the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and

totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche's philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian Futurists led by Filippo Tommaso Marinetti and Ernst Jünger were all well known intellectual and cultural figures Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism a revolt against the rationalistic and universalistic pretensions of the Enlightenment an affirmation of the dynamism of modern life and the replacement of the traditional Judeo Christian values of good and evil by other dualities such as authenticity and decadence Concurrently there took place affirmation of the technological era the creation of a new man and a violent order and the birth of a new political style in place of traditional world views When channelled into the political sphere these aesthetic nihilist ideas paved the way for the rise of totalitarianism

**2018** Günter Berghaus, Domenico Pietropaolo, Beatrice Sica, 2018-04-09 The eighth volume of the International Yearbook of Futurism Studies is again an open issue and presents in its first section new research into the international impact of Futurism on artists and artistic movements in France Great Britain Hungary and Sweden This is followed by a study that investigates a variety of Futurist inspired developments in architecture and an essay that demonstrates that the Futurist

heritage was far from forgotten after the Second World War These papers show how a wealth of connections linked Futurism with Archigram Metabolism Archizoom and Deconstructivism as well as the Nuclear Art movement Spatialism Environmental Art Neon Art Kinetic Art and many other trends of the 1960s and 70s The second section focuses on Futurism and Science and contains a number of papers that were first presented at the fifth bi annual conference of the European Network for Avant Garde and Modernism Studies EAM held on 1 3 June 2016 in Rennes They investigate the impact of science on Futurist aesthetics and the Futurist quest for a new perception and rational understanding of the world as well as the movement's connection with the esoteric domain especially in the field of theosophy the Hermetic tradition Gnostic mysticism and a whole phalanx of Spiritualist beliefs The Archive section offers a survey of collections and archives in Northern Italy that are concerned with Futurist ceramics and a report on the Fondazione Primo Conti in Fiesole established in April 1980 as a museum library and archive devoted to the documentation of the international avant garde and to Italian Futurism in particular A review section dedicated to exhibitions conferences and publications is followed by an annual bibliography of international Futurism studies exhibition catalogues special issues of periodicals and new editions

Ilnytskyj, Gabriella Elina Imposti, Christina Lodder, 2019-12-16 The ninth volume of the International Yearbook of Futurism Studies is dedicated to Russian Futurism and gathers ten studies that investigate the impact of F T Marinetti's visit to Russia in 1914 the neglected region of the Russian Far East the artist and writers Velimir Khlebnikov Vasily Kamensky Maria Siniakova and Vladimir Mayakovsky the artistic media of advertising graphic arts cinema and artists books

Poetry of the Revolution Martin Puchner, 2006 Martin Puchner tells the story of political and artistic upheavals through the political manifestos of the 19th and 20th centuries He argues that the manifesto was the genre through which modern culture articulated its revolutionary ambitions and desires

**Rewriting Texts Remaking Images** Leslie Anne Boldt-Irons, Corrado Federici, Ernesto Virgulti, 2010 The twenty four essays in Rewriting Texts Remaking Images Interdisciplinary Perspectives examine the complex relationships between original creative works and subsequent versions of these originals from both theoretical and pragmatic perspectives The process involves the rereading reinterpretation and rediscovery of literary texts paintings photographs and films as well as the consideration of issues pertaining to adaptation intertextuality transcoding ekphrasis parody translation and revision The interdisciplinary analyses consider works from classical antiquity to the present day in a number of literatures and include such topics as the reuse and resemantization of photographs and iconic images

**Modernism** Astradur Eysteinnsson, Vivian Liska, 2007-10-04 The two volume work Modernism has been awarded the prestigious 2008 MSA Book Prize Modernism has constituted one of the most prominent fields of literary studies for decades While it was perhaps temporarily overshadowed by postmodernism recent years have seen a resurgence of interest in modernism on both sides of the Atlantic These volumes respond to a need for a collective and multifarious view of literary modernism in various genres locations and languages Asking and responding to a wealth of

theoretical aesthetic and historical questions 65 scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures from specific critical issues to broad cross cultural concerns While the chief emphasis of these volumes is on literary modernism literature is seen as entering into diverse cultural and social contexts These range from inter art conjunctions to philosophical environmental urban and political domains including issues of race and space gender and fashion popular culture and trauma science and exile all of which have an urgent bearing on the poetics of modernity *Brilliant Modernism* Nicoletta Asciuto, 2025-01-07 Illuminates how the power of light shaped early twentieth century art culture and poetry In *Brilliant Modernism* Nicoletta Asciuto takes readers on a journey through the electrified streets of the early twentieth century and explores the influence of this illumination on modernist poetry This ambitious and geographically wide ranging account of how poets responded to the changing cityscape is distinctive in its historicist approach and the enormous scope of the materials it examines from Mina Loy s lamps for the modern home to lunar photography As the glow of gas lamps gave way to the piercing beams of the new era poets navigated a world where light dictated social standing gender roles and the very rhythm of life *Brilliant Modernism* is a story of contrasts the starkness of electric light against the softness of the moon the traditional against the modern and the male dominated world against the rising tide of female empowerment Asciuto reworks our understanding of the modernist moment reimagining the influence of figures such as T S Eliot Lola Ridge Gwendolyn B Bennett and Rosa Ros Set against the backdrop of a world on the brink of massive changes this book shines a light on forgotten women poets and artists whose contributions to the modernist movement have long been overshadowed by their male counterparts Through a narrative that is as much about the aesthetics of light as it is about the poets themselves Asciuto illuminates the vibrant and often volatile intersection of technology and culture *D.H. Lawrence's Women in Love* David Ellis, 2006 An international group of scholars demonstrate the power *Women in Love* still has to challenge and stimulate its readers in this collection of recent essays They illustrate the way recent theoretical developments in literary studies can be made relevant to readings of Lawrence *Le Peintre-graveur Illustré (xixe Et Xxe Siècles)* Loys Delteil, 1923 *Tracés* , 2014 Günter Berghaus, 2014-05-21 The International Yearbook of Futurism Studies was founded in 2009 the centenary year of Italian Futurism in order to foster intellectual cooperation between Futurism scholars across countries and academic disciplines The Yearbook does not focus exclusively on Italian Futurism but on the relations between Italian Futurism and other Futurisms worldwide on artistic movements inspired by Futurism and on artists operating in the international sphere with close contacts to Italian or Russian Futurism Volume 4 2014 is an open issue that addresses reactions to Italian Futurism in 16 countries Argentina Armenia Brazil Egypt France Germany Great Britain Greece Holland Hungary Japan Portugal Russia Slovenia Spain USA and in the artistic media of photography theatre and visual poetry *In Defiance of Painting* Christine Poggi, 1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the

development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth century art Collage has traditionally been viewed as a new expression of modernism one allied with modernism's search for purity of means anti illusionism unity and autonomy of form This book the first comprehensive study of collage and its relation to modernism challenges this view Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism She focuses on the ways Cubist collage and the Futurist multimedia work that was inspired by it undermined prevailing notions of material and stylistic unity subverted the role of the frame and pictorial ground and brought the languages of high and low culture into a new relationship of exchange
