The Laws of scientific hand reading William George Benham,1900 The Laws of Scientific Hand Reading. A Practical Treatise on the Art Commonly Called Palmistry, by William G. Benham... William G. Benham,1901 **The Laws of Scientific Hand Reading** William George Benham,1900 **The Laws of Scientific Hand Reading** William G. Benham,1993-02 1900 a practical treatise on the art commonly called palmistry with 800 illustrations from life Some of the Contents Basis of Our Work Plan of Creation Mount Types Life Current General Attributes of the Lines Pose **The Laws of Scientific Hand Reading, Etc. [With an Appendix.]** William G. Benham,1949 **The Laws of Scientific Hand Reading** William George Benham,1949 *The Benham Book of Palmistry* William G. Benham,1988 Explains how to analyze the human hand describes what the hand reveals about character and discusses the nails fingers and thumbs **Laws of Scientific Hand Reading** ,1901 LAWS OF SCIENTIFIC HAND READING WILLIAM GEORGE. BENHAM,2018 **The Laws of Scientific Hand Reading, Etc** William George BENHAM,1935 Your Destiny and Scientific Hand Analysis Yaschpaule,1996 This book is designed to convince the healthy and scientific minded sceptic that hand analysis is a science worthy of serious consideration The laws of scientific hand analysis are presented here in a very simple manner and are amply illustrated by diagrams This book is also intended for those who do not have the faintest concept of what hand analysis or astrology is all about so that no previous knowledge is required for its understanding At the same time the subject of hand analysis has been comprehensively emphasized As such this book will be of interest to professional astrologers In many Eastern countries leading astrologers have a good knowledge of hand analysis Where the horoscope does not give clear guidance on a particular aspect they consult the palms in order to obtain clarification The ideas put forward in this book are based on the Indian Western and Egyptian schools of hand analysis although the Indian system has been used the most The scientific rationale behind the wearing of particular gems in order to ward off evil planetary influences is also succinctly described Above all this is meant to be an eminently straightforward and practical work The sceptic has only to study his own palms to be pleasantly surprised at how accurately hand analysis reveals his own particular case The Laws of Scientific Hand Reading ... with ... Illustrations, Etc Sir William Gurney Benham,1958 **The Benham Book of Palmistry, Revised** William G. Benham,2006 The book that for more than a century has been the standard reference for reading the hand now in a completely reformatted edition Palmistry is one of the ancient arts practiced in Egypt India Greece and Rome and prized as a sacred and peculiar gift Its practitioners were highly respected philosophers oracles and priests Yet by the 17th century it had become a lost art kept alive almost solely in gypsy camps And by the end of the 19th century it was seen as little more than quackery a small step up or down from fortune telling and alchemy When it was originally published as The Laws of Scientific Hand Reading Benham s book immediately transformed the image of palm reading from a huckster s trick to a practice with a firm scientific basis It quickly became an essential reference work for anyone serious about palm reading The

Essential Edition brings Benham's original text back in print. It also updates many of the graphics which have become obscured through numerous printings. Benham's words remain as viable today as they were 100 years ago as they form the foundation of modern palmistry. **Palm Reading for Beginners** Richard Webster, 2012-07-08 Palm reading is a lot easier than you may think. No cards, no coins, no charts of the planets, just a hand and the knowledge in this book. Whether your interest is serious or casual, *Palm Reading for Beginners* will open a world of insight into yourself, your friends, your family, and your future. Announce in any gathering that you read palms and you will be flocked by people thrilled to show you their hands. When you have finished *Palm Reading for Beginners*, you will be able to look at anyone's palm, including your own, and confidently and effectively tell them about their personality, love life, hidden talents, career options, prosperity, and health.

The Art and Science of Hand Reading Ellen Goldberg, Dorian Bergen, 2016-02-06 A comprehensive guide to the inner psychology revealed by the hand. Details how to interpret the entire hand, the shape of the palm and fingers, mounts, lines, fingerprints, flexibility, nails, and skin texture. Reveals the personality archetypes, strengths, and weaknesses connected with each of the seven mounts and how the rest of the hand modifies these traits. Explains how lines change and the decisive influence of the person's own mind in healing defects found on the lines. Palmistry is a science and a universal language. The hand tells a story about your talents, relationships, health, and how you feel about yourself. It reveals periods of ease or challenge in your life and it speaks about your weaknesses and the traits you need to develop. As you change, so do your hands, reflecting the progress you have made. In this comprehensive guide to hand reading based on Ellen Goldberg's 40 years of teaching palmistry and the Western Mystery tradition, the authors make the powerful insights of the hand accessible in an inviting and user-friendly manner. The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual. The mount archetypes reveal the lifestyle, love, sex, and marriage preferences, the best career choices, and the unique strengths and weaknesses for each person. The book also examines other factors that enhance the qualities revealed by the mount types, including the flexibility of the hand, texture of the skin, and the shapes of the fingers, fingertips, and nails. The meaning of each major and minor line is described in detail, as well as the influence the person's own mind has in healing defects and obstacles found on their lines. The authors also provide accurate timing guides for each line, making it possible to locate specific events and to see how your lines change over time. Presenting the hand as a guide to self-fulfillment, *The Art and Science of Hand Reading* incorporates correspondences to other mystical sciences such as astrology, Kabbalah, the Hermetic teachings, and archetypal psychology. It also includes practical examples and more than 600 illustrations to show how to integrate the meanings of each part of the hand to form a complete picture of your inner psychology and your ever-changing destiny.
