## Layout For A Corpse:

**Layout for a Corpse** Gene Goldsmith, 1952      *Mirrors of Mortality (Routledge Revivals)* Joachim Whaley, 2012-08-06  
First published in 1981 this reissue examines mankind's preoccupation with death and mortality by isolating various societies in different periods of time. The authors examine not only the formal rituals associated with the last rite of passage but also the social attitudes to death and dying which these rituals evidence. The essays establish that different periods do seem to be characterized by different images of death and attitudes to it but the authors wisely avoid trying to impose strict chronological pattern. A pioneering work in the historical study of attitudes to death this reissue should reignite discussion on the significance of death in human history. Christiane Sourvinou Inwood examines attitudes to death as reflected in myth and religious thought in Ancient Greece and relates them to social and economic change. R C Finucane analysis the social significance of the exemplary deaths of kings criminals traitors and saints in medieval Europe. Paul Fritz's essay illustrates the importance of royal burials in early modern Britain while Joachim Whaley examines the social and political significance of funerals in Hamburg between 1500 and 1800. John McManners discusses the work of Philippe Aries and other prominent French scholars on the history of attitudes to death. David Irwin examines the images of death portrayed in European tombs around 1800. C A Bayly analyzes the relationship between death ritual and society in Hindu Northern India while David Cannadine discusses the impact of war on attitudes to death in modern Britain.

Life cannot be man and death cannot be the soul. The one who accompanied the living Shang accompanied the dead walked the path of a slave accompanied by a bereaved slave. Ten years ago the bizarre death of the woman opposite me caused my adoptive father to mistreat me for a whole ten years.
