, **Biographie Universelle, Ancienne Et Moderne** ,1855 **Les Principes Sociologiques Du Droit Public** Raoul de La Grasserie,1911 **Recueil Des Cours, Collected Courses 1980** ,1983-03-21 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law **Trait? Des Marques De Fabrique Et De La Concurrence D?loyale En Tous Genres** Eug?ne Pouillet,1875 Traité du domaine public, ou de la distinction des biens considérés principalement par rapport au domain public Jean Baptiste Victor Proudhon,1843 The Future of the Public Domain Lucie M. C. R. Guibault,2006-01-01 The presence of a robust public domain is an essential precondition for cultural social and economic development and for a healthy democratic process But the public domain is under pressure as a result of the ongoing march towards an information economy Items of information which in the old economy had little or no economic value such as factual data personal data genetic information and pure ideas have acquired independent economic value in the current information age and consequently become the object of property rights making the information a tradable commodity How and to what extent does the commodification of information affect the free flow of information and the integrity of the public domain Does the freedom of expression and information guaranteed inter alia in the European Convention on Human Rights call for active state intervention to save the public domain What means both legal and practical are available or might be conceived to guarantee and foster a robust public domain These were the main questions that were addressed in a major collaborative research project led by the Institute for Information Law of the University of Amsterdam IViR in co operation with the Tilburg Institute for Law Technology and Society TILT of Tilburg University and funded by ITeR the Dutch National Program for Information Technology and Law Thirteen contributions from academia worldwide make up the present book addressing the future of the public domain from a different angle In addition all authors were invited to reflect upon the notion and role of the public domain in the context of information law and policy Should this concept be limited to that of a negative image of intellectual property protection i e all publicly available information not subject to a property right and therefore freely i e gratis available or should a broader approach be taken e g all information available from public sources at affordable cost Should information policies be aimed at maximizing the public domain or optimizing information flows To what extent are these aims congruent This book takes a broader information law oriented approach towards the question of preserving the public domain in which a wide range of interrelated legal questions converge Issues treated in this book include Economic analysis

of the public domain Fundamental rights analysis of the public domain Impact of the application of technological protection measures and contractual restrictions on the public domain The impact of the expansion of copyright database right and patent rights on the public domain The impact of the commodification of private data government information indigenous knowledge on the public domain The capacity of the Open Source and Creative Commons Movements to preserve the integrity of the public domain The Future of the Public Domain is an important work for all those interested or involved in the regulation of the knowledge economy Legal scholars academic and research institutions corporate counsel lawyers government policymakers and regulators all these and more will benefit enormously from the thoughtful and incisive discussions presented here *Reports of the Supreme Court of Canada* Canada.
