The Language of Art and Cultural Heritage Ana Pano Alamán,2020-03-04 Communicating art and cultural heritage has become a crucial and challenging task since these sectors together with tourism heritage represent a key economic resource worldwide. Adopting a wide variety of digital humanities approaches and a plurilingual perspective the essays gathered in this book provide an extensive and up to date overview of digital linguistic resources and research methods that will contribute to the design and implementation of such strategies. Cultural and artistic content curators specialised translators in the fields of art architecture tourism and web documentaries researchers in art history and tourism communication and cultural heritage management professionals among others will find this book extremely useful due to its provision of some concrete applications of innovative methods and tools for the study and dissemination of art and heritage knowledge.

Language Et Ses Contexts Pierre-Alexis Mével,Helen Tattam,2010 Inspired by a postgraduate French studies conference University of Nottingham 10 September 2008 this volume explores linguistic form and content in relation to a variety of contexts considering language alongside music images theatre human experience of the world and another language. Each essay asks what it is to understand language in a given context and how in spite of divergent expressive possibilities a linguistic situation interacts with other contexts renegotiating boundaries and redefining understanding. The book lies at the intersection of linguistics and hermeneutics seeking to contextualise philosophical and linguistic discussions of communication across a range of media and to illustrate their intimate relations despite differing strategies or emphases.

Puisant son inspiration dans un colloque de French studies pour doctorants Université de Nottingham 10 septembre 2008 cet ouvrage étudie forme et contenu linguistiques en relation avec différents contextes considérant le langage conjointement avec la musique les images le théâtre l'expérience du monde et un autre langage. Chaque chapitre dissèque la compréhension du langage dans un contexte donné et se demande comment en dépit de possibilités expressives divergentes une situation linguistique interagit avec d'autres contextes redessinant leurs frontières et redéfinissant la compréhension. Ce livre situe l'intersection entre la linguistique et l'herméneutique à pour but de contextualiser les discussions philosophiques et linguistiques sur la communication dans une gamme de médias et de montrer leur relation intime malgré des stratégies ou intentions différentes.

Tessera ,1997 The Power of the Inner Judge Léon Wurmser,2000-03-01 This book describes in detail how to effectively treat severely ill but not psychotic patients by careful psychotherapeutic work on the defenses and the superego Diverging widely from Kernberg s and Kohut s work with the same broad spectrum of patients L on Wurmser demonstrates his flexible and individualized method with clinical material taken directly from actual patient therapist interaction The core of the therapeutic work focuses on trauma forms of defense conflicts within the superego and the related affects of guilt shame depression and resentment Appreciating the complex and individual nature of each case the author uses the familiar concepts of masochism aggression narcissism and repetition compulsion as descriptions not explanations of clinical observations There are no shortcuts a genuine understanding that results in real change for the patient requires an in depth exploration of the material in a nonjudgmental atmosphere Observing that categories while necessary tend to be slowly transformed into words of devaluation Dr Wurmser addresses the implicit and often quite explicit judgmental spirit directed toward severely ill patients and cautions clinicians to avoid falling into the role of a judging authority This is an eloquent accounting of a master therapist s successes and failures valuable especially for offering effective and decisive interventions in treating traditionally untreatable patients Revue Canadienne Des Langues Vivantes ,1976 **Bioactive Components**
