## **Imperfect Fit Advanced Democracy And Human Nature:**

**An Imperfect Fit** Vit Klemes, 2004 The defining characteristic of modern liberal democrats has been their belief that man is fundamentally good and that the goodness of his nature will come to the surface once he is freed from oppression and want and his actions are guided by free choice This belief can now be put to the test in the advanced democracies of the West which have essentially satisfied these conditions thus providing man with an unprecedented opportunity to demonstrate the fundamental goodness of human nature in practice In *An Imperfect Fit* the author offers a picture of its manifestations and it is not too bright It shows their growing divergence from the cherished belief in all three dimensions of democracy liberty equality and fraternity But it also shows a stubborn refusal of democratic establishments to face this reality and their ever greater determination to make the dream come true by forcing the fundamental goodness on man's nature from above by perfecting the system In this the author sees the greatest danger facing democracy today outdemocratizing itself into self destruction Customers from European countries can reduce shipping cost and delivery time by ordering the book from Trafford's UK office by phone 01270 251396 fax 01270 254983 or email info.uk@trafford.com Orders placed online by European customers will automatically go through the UK office

*Reason and Democracy* Thomas A. Spragens, 1990-07-20 Reason and Democracy breaks new ground in providing a plausible philosophical basis for the communitarian view of a healthy democracy as the rational pursuit of common purposes by free and equal citizens Thomas A Spragens Jr argues that the most persistent paradigms of Western political rationality originated in classical philosophy took their modern expression in the philosophies of Kant and Mill and terminated in Max Weber's pairing of purely technical rationality with arbitrary ends Drawing on recent work in the philosophy of science and the philosophy of language combined with appropriate analogies in political thought and action Spragens maintains that it is possible to discern the outlines of a philosophically cogent and morally beneficial concept of rational practice on the part of a political community This possibility he contends provides a philosophical basis for liberal democratic politics that is superior to utilitarian and deontological accounts Harper's Magazine Henry Mills Alden, Thomas Bucklin Wells, Lee Foster Hartman, Frederick Lewis Allen, 1916 Important American periodical dating back to 1850 *The Congressional Globe* United States.
