Imperial Idea Its Enemies:

The Imperial Idea and its Enemies A P Thornton, 1985-06-03 **The Imperial Idea and Its Enemies**, 1963 The Imperial Idea and Its Enemies Archibald Paton Thornton, 1963 *The Imperial Idea and Its Enemies* James Gordon Herbert Olle, 1959 **Decolonisation and the British Empire, 1775-1997** George Boyce, 1999-09-20 This book combines an analysis of the ideas and policies that governed the British experience of decolonization It shows how the British perhaps more correctly the English political tradition with its emphasis on experience over abstract theory was integral to the way in which the empire was regarded as being transformed rather than lost This was a significant aspect of the relatively painless British loss of empire It places the process of decolonization in its wider context tracing the twentieth century domestic and international conditions that hastened decolonization and through a close analysis of not only the policy choices but also the language of British imperialism it throws new light on the British way of managing both the expansion and contraction of empire **Empire** Trevor Lloyd, 2006-08-24 For almost two hundred years Britain dominated the world its naval supremacy enabling it to acquire a vast empire including India Canada Australia New Zealand and much of Africa Although it could not prevent its American colonies from becoming independent its industrial and commercial power helped it to keep its scattered possessions under control while a small army was sufficient to put down native rebellions in the absence of the involvement of other European states A dwindling economy and the cost of two world wars saw this once mighty empire crumble giving in the process independence to nearly all of its dominions in the years after 1945 Empire is a succinct and highly readable account of this extraordinary rise and fall **Science, race relations and resistance** Douglas A. Lorimer, 2015-11-01 By exploring the dimensions of race race relations and resistance this book offers a new account of the British Empire's greatest failure and its most disturbing legacy Using a wide range of published and archival sources this study of racial discourse from 1870 to 1914 argues that race then as now was a contested territory within the metropolitan culture Based on a wide range of published and archival sources this book uncovers the conflicting opinions that characterised late Victorian and Edwardian discourse on the colour question It offers a revisionist account of race in science and provides original studies of the invention of the language of race relations and of resistance to race thinking led by radical abolitionists and persons of Asian and African descent living in the United Kingdom The book will be of interest to students and scholars of race colonialism and culture and to a readership interested in the history of science and race anti slavery and humanitarian movements and the roots of anti racist resistance *Between Europe and America* Andrew Gamble, 2017-03-14 British politics has been crucially shaped by England's role as pioneer of capitalism by the experience of Empire and by the particular form of its union with Scotland Ireland and Wales With the decline of Empire the attempt to bridge Europe and America has become ever more central to Britain's identity political economy and ideology In this major new book Andrew Gamble assesses the major transformations of British politics under Thatcher and Blair and the stark choices for the future at

the start of the 21st century Winner of the W J M Mackenzie Prize for best book published in political science in 2003

Hegemonic Peace and Empire Ali Parchami, 2009-03-04 This book examines the language and the ideology of the Pax Romana the Pax Britannica and the Pax Americana within the broader contexts of hegemony and empire It addresses three main themes a conceptual examination of the way in which hegemony has been justified a linguistic study of how the notion of pax usually translated as peace has been used in ancient and modern times and a study of the international orders created by Rome and Britain Using an historiographical approach the book draws upon texts from Greco Roman antiquity and sources from the nineteenth twentieth and twenty first centuries to show how the pax ideology has served as a justification for hegemonic foreign policy and as an intellectual exercise in power projection From Tacitus condemnation of what he described as creating a wilderness and calling it peace to debates about the establishment of a Pax Americana in post Saddam Hussein s Iraq the book shows not only how the governing elite in each of the three hegemonic orders prescribed to a loose interpretation of the pax ideology but also how their internal disagreements and different conceptualisations of pax have affected the process of empire building This book will be of interest to students of international history empire and International Relations in general

Canada and Colonialism Jim Reynolds, 2024-05-15 Colonialism endures in Canada today Dismantling it requires an understanding of how colonialism operated across the British Empire and why Canada s colonial experience was unique Whereas colonies such as India were ruled through despotism and violence Canada s white settler population governed itself while oppressing the Indigenous peoples whose lands they were on Canada and Colonialism shows that Canadians support for colonial rule both at home and abroad is the reason colonialism remains entrenched in Canadian law and society today Author Jim Reynolds presents a truly compelling account of Canada s colonial coming of age and its impacts on Indigenous peoples including the settler led internal colonialism behind the Indian Act and those who enforced it As one of the nation s leading experts in Aboriginal law Reynolds provides a vital accounting of the historical underpinnings and contemporary challenges the nation must address to reconcile with Indigenous peoples and move toward decolonization

The Lion's Share Bernard Porter, 2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain s strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy

The European Right Hans Rogger, 1965 **The Pacific Historical Review** Anna Marie Hager, 1976 *Professional Journal of the United States Army*, 1982 **William**

Gladstone Dr Roland Quinault, Dr Ruth Clayton Windscheffel, Mr Roger Swift, 2013-07-28 William Ewart Gladstone 1809-98 was the outstanding statesman of the Victorian age He was an MP for over sixty years a long serving and exceptional Chancellor of the Exchequer and four times Prime Minister As the leader of the Liberal party over three decades he personified the values and policies of later Victorian Liberalism Gladstone however was always more than just a politician He

was also a considerable scholar a dedicated Churchman and had a range of interests and connections that made him in many respects the quintessential Victorian Yet important aspects of Gladstone s life have received relatively little recent attention from historians This study reappraises Gladstone by focusing on five themes his reputation his representation in visual and material culture his personal life his role as an official and the ethical and political basis of his international policies This collection of original often multidisciplinary studies provides new perspectives on Gladstone s public and private life As such it illustrates the many sided nature of his career and the complexities of his personality **Benefits Bestowed? J.**

Mangan,2012-05-04 This volume concentrates on the processes and practices of formal education which shaped and were shaped by imperial values attitudes and behaviour It is concerned with The myths and visions of imperialism The nature and extent of ethnocentric attitudes declared and undeclared The use of education as a means of disseminating and reinforcing imperial images The changing concept of imperialism as reflected in the emphases of educational literature The different perceptions of imperialism in the various social and ethnic strata of metropolitan and overseas communities and education systems The assimilation adaptation and rejection of metropolitan educational models The issue of imperial education as enlightenment hegemony and control The book features chapters by educationalists historians and sociologists on education as a cornerstone in the construction of imperial control *Routledge Library Editions: Education Mini-Set H History of Education 24 vol set*

Various,2021-07-14 Mini set H History of Education re issues 24 volumes which span a century of publishing 1900 1995 The volumes cover Education in Ancient Rome Irish education in the 19th century schools in Victorian Britain changing patterns in higher education secondary education in post war Britain education and the British colonial experience and the history of educational theory and reform The Round Table Movement and the Fall of the 'Second' British Empire (1909-1919)

Andrea Bosco,2017-01-06 In spite of the general phobia of federalism there is a strong federalist trend within British political culture In three very different historical contexts federalism inspired the action of political movements such as the Imperial Federation League the Round Table and the Federal Union Indeed it was regarded as the solution to problems arising from the first signs of the possible collapse of Great Britain and its Empire The Round Table Movement played a particularly interesting role in this regard attempting to reverse the rapid and inexorable decline of the British Empire It was a political organisation with roots in all the major peripheries of the Empire and almost unlimited financial resources This volume discusses the strategies and means employed by the group in order to maintain the British Empire s global prominence The book s main argument is that we did not have a British century the nineteenth and an American century the twentieth but rather four centuries of Anglo Saxon supremacy which witnessed the affirmation of the national principle expression of the Continental political tradition and its overcoming through its opposite the federal principle the expression of the insular political tradition The Ruling Passion Christopher Lane,1995 In The Ruling Passion Christopher Lane examines the relationship between masculinity homosexual desire and empire in British colonialist and

imperialist fictions at the turn of the twentieth century Questioning the popular assumption that Britain's empire functioned with symbolic efficiency on sublimated desire this book presents a counterhistory of the empire's many layers of conflict and ambivalence Through attentive readings of sexual and political allegory in the work of Kipling Forster James Beerbohm Firbank and others and deft use of psychoanalytic theory *The Ruling Passion* interprets turbulent scenes of masculine identification and pleasure power and mastery intimacy and antagonism By foregrounding the shattering effects of male homosexuality and interracial desire and by insisting on the centrality of unconscious fantasy and the death drive *The Ruling Passion* examines the startling recurrence of colonial failure in narratives of symbolic doubt and ontological crisis Lane argues compellingly that Britain can progress culturally and politically only when it has relinquished its residual fantasies of global mastery

India and the Commonwealth 1885-1929 S. R. Mehrotra, 2021-12-19 The story of the transformation of the old British Empire into the modern Commonwealth had often been told from the point of view of Great Britain and the white dominions No attempt had so far been made to describe the decisive role of India in the shaping of the multi racial Commonwealth of today Originally published in 1965 the main theme of this work by an Indian author is the growth of the idea of Commonwealth in India from 1885 the year in which the Indian National Congress was organized to 1929 when Congress declared complete independence to be its goal What did the British Empire mean to early Indian nationalists How did the ideal of self government of India on the Dominion model grow What was India's continued association with the Commonwealth valued in India and in Britain Answers to these and similar questions are attempted in this book Despite its great importance the role of India in the Commonwealth in the nineteenth and early twentieth centuries had received little attention from scholars Dr Mehrotra's clear incisive informed and balanced study was therefore the more welcome not only for its source but because it lent a new dimension to our understanding of India's part in defining and enlarging the idea of Commonwealth It is an important contribution to Commonwealth and to modern Indian history

Enjoying the Track of Term: An Emotional Symphony within **Imperial Idea Its Enemies**

In a world taken by displays and the ceaseless chatter of fast connection, the melodic beauty and psychological symphony produced by the prepared term often diminish into the background, eclipsed by the constant sound and disruptions that permeate our lives. Nevertheless, nestled within the pages of **Imperial Idea Its Enemies** an enchanting literary treasure full of organic feelings, lies an immersive symphony waiting to be embraced. Crafted by a masterful musician of language, this captivating masterpiece conducts visitors on an emotional trip, skillfully unraveling the concealed songs and profound influence resonating within each cautiously constructed phrase. Within the depths of this touching review, we will discover the book is central harmonies, analyze their enthralling publishing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
