Gaming Empire in Children's British Board Games, 1836-1860 Megan A. Norcia, 2019-03-25 Over a century before Monopoly invited child players to bankrupt one another with merry ruthlessness a lively and profitable board game industry thrived in Britain from the 1750s onward thanks to publishers like John Wallis John Betts and William Spooner As part of the new wave of materials catering to the developing mass market of child consumers the games steadily acquainted future upper and middle class empire builders even the royal family themselves with the strategies of imperial rule cultivating trading engaging in conflict displaying and competing In their parlors these players learned the techniques of successful colonial management by playing games such as Spooner's A Voyage of Discovery or Betts A Tour of the British Colonies and Foreign Possessions These games shaped ideologies about nation race and imperial duty challenging the portrait of Britons as absent minded imperialists Considered on a continuum with children's geography primers and adventure tales these games offer a new way to historicize the Victorians Britain and Empire itself The archival research conducted here illustrates the changing disciplinary landscape of children's literature culture studies as well as nineteenth century imperial studies by situating the games at the intersection of material and literary culture *Present Day Political Organization of China* H.S. Brunnert, V.V. Hagelstrom, 2013-04-15 Originally published in 1910 this work presents a fascinating insight into the government and administration of the China of the day The period was one of immense change as China's leaders turned the nation towards modernity As student interpreters to the Imperial Russian Legation the authors had privileged access to the corridors of power and found themselves very much at the heart of the republican ferment that gripped the country

Mangan, 2013-11-05 This is more than a description of the imperial spread of public school games it considers hegemony and patronage ideals and idealism educational values and aspirations cultural assimilation and adaptation and the dissemination of the moralistic ideology of athleticism **Empire, War & Cricket in South Africa** Dean Allen, 2015-04-08 Cecil John Rhodes once said he had only met two creators in South Africa himself and James Douglas Logan the Scottish born founder of Matjiesfontein Logan immigrated to South Africa in 1877 at the age of nineteen and almost immediately began amassing a fortune through business politics and his high profile association with that most favoured of imperial pastimes cricket Empire War explore the controversial 1901 South African cricket tour to England in the midst of the Anglo Boer War read the amazing story of how Logan once had the captain and manager of England s cricket team arrested as they boarded their ship home and discover Logan s close relationship with Rhodes and how their shady dealings brought down the premier s first government Illustrated throughout with rare photographs and documents Empire War a well researched and fascinating biography of the man who gave us Matjiesfontein and an entertaining and at times unbelievable story of cricket s origins in South Africa Cricket's Changing Ethos Jon Gemmell, 2018-04-28 This book examines historically how cricket was codified out of its variant folk forms and then marketed with certain lessons sought to reinforce the values of a declining landed interest It goes on to show how such values were

then adapted as part of the imperial experiment and were eventually rejected and replaced with an ethos that better reflected the interests of new dominant elites The work examines the impact of globalisation and marketization on cricket and analyses the shift from an English dominance on a sport that is ever increasingly being shaped by Asian forces The book's distinctiveness lies in trying to decode the spirit of the game outlining a set of actual characteristics rather than a vague sense of values An historical analysis shows how imperialism nationalism commercialism and globalisation have shaped and adapted these characteristics As such it will be of interest to students and scholars of sport sociology post colonialism globalisation as well as those with an interest in the game of cricket and sport more generally *Sport, Culture and History* Brian Stoddart, 2013-09-13 In addition to being an internationally recognised pioneer of sports history Brian Stoddart has also been a leading thinker and influence in the field That influence has crossed several areas of history sociology business politics and media aspects of sports studies and has drawn deeply upon his own training in Asian studies His work has been characterised by cross disciplinary work from the outset and has encompassed some very different geographical areas as well as crossing from academic outlets to media commentary As a result his influential work has appeared in many different locations and it has been difficult for a wide variety of readers to access it fully and easily This volume draws together in the one place for the first time some of his most important academic and journalistic work Importantly the pieces are drawn together by an intellectual autobiographical commentary that locates each piece in a wider social and cultural framework This book was previously published as a special issue of *Sport in Society* *The History of Chinese Board Games* Zhi Dao, The book provides highlights on the key concepts and trends of evolution in *The History of Chinese Board Games* as one of the series of books of *China Classified Histories* **Locating the English Diaspora, 1500-2010** Tanja Bueltmann, David T. Gleeson, Donald M. MacRaild, 2012-01-01 This collection of essays is the first serious attempt to conceptualise the transplantation of English migrants and culture in the New World as a diaspora *Militarism, Hunting, Imperialism* J.A. Mangan, Callum McKenzie, 2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a sound preparation for imperial warfare For the imperial officer in the making the bloody hunting ritual was a visible hallmark of stirring martial masculinity Sir Henry Newbolt the period poet of subaltern self sacrifice typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre ordained hierarchical order of superordinate and subordinate breeds *Militarism Hunting Imperialism* examines these ideas under the following five sections martial imperialism the self sacrificial subaltern bloodying the middle class martial male the imperial officer hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a special issue of the *International Journal of the History of Sport* **Postmodern Imperialism** Eric Walberg, 2011-06-09 Eric Walberg's *POSTMODERN IMPERIALISM Geopolitics and the Great Game* is a riveting and radically new analysis of the

imperialist onslaught which first engulfed the world in successive waves in the 19th 20th centuries and is today hurtling into its endgame The term Great Game was coined in the nineteenth century reflecting the flippancy of statesmen and historians personally untouched by the havoc that they wreaked What it purported to describe was the rivalry between Russia and Britain over interests in India But Britain was playing its deadly game across all of Eurasia from the Balkans and Palestine to China and southeast Asia alternately undermining and carving up premodern states disrupting the lives of hundreds of millions with consequences that endure today With roots in the European enlightenment shaped by Christian and Jewish cultures and given economic rationale by industrial capitalism the inter imperialist competition turned the entire world into a conflict zone leaving no territory neutral The first game was brought to a close by the cataclysm of World War I But that did not mark the end of it Walberg resurrects the forbidden word to scrutinize an imperialism now in denial but following the same logic and with equally horrendous human costs What he terms Great Game II then began with America eventually uniting its former imperial rivals in an even more deadly game to destroy their common revolutionary antagonist and potential nemesis communism Having won this game America and the new player Israel offspring of the early games have sought to entrench what Walberg terms empire and a half on a now global playing field using a neoliberal agenda backed by shock and awe With swift sure strokes Walberg paints the struggle between domination and resistance on a global canvas as imperialism engages its two great challengers communism and Islam its secular and religious antidotes Paul Atwood War and Empire The American Way of Life calls it an epic corrective It is a carefully argued and most of all cliché smashing road map according to Pepe Escobar journalist Asia Times Rigorously documented it is a valuable resource for all those interested in how imperialism works and sure to spark discussion about the theory of imperialism according to John Bell Capitalism and the Dialectic

Women, Horse Sports and Liberation Erica Munkwitz, 2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women's involvement in equestrianism from the eighteenth through the twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women's participation in horse sports transcended limitations of class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women's involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women's history British history and imperial history as well as those interested in the

broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts

British culture and the end of empire Stuart Ward, 2017-03-01 This book is the first major attempt to examine the cultural manifestations of the demise of imperialism as a social and political ideology in post war Britain Far from being a matter of indifference or resigned acceptance as is often suggested the fall of the British Empire came as a profound shock to the British national imagination and resonated widely in British popular culture The sheer range of subjects discussed from the satire boom of the 1960s to the worlds of sport and the arts demonstrates how profoundly decolonisation was absorbed into the popular consciousness Offers an extremely novel and provocative interpretation of post war British cultural history and opens up a whole new field of enquiry in the history of decolonisation

Sport Past and Present in South Africa Scarlett Cornelissen, Albert Grundlingh, 2013-09-13 This book provides an interpretation of sport in contemporary South Africa through an historical account of the evolution and social ramifications of sport in the twentieth century It comprises chapters which trace the growth of sports such as football cricket surfing boxing and rugby and considers their relationship to aspects of racial identity masculinity femininity political and social development in the country The book also draws out the wider geo political significance of South African sport placing it in the context of the development of sport both elsewhere on the African continent and internationally The history of sport has seen significant international growth over the past few decades For the most part however the history of sport in Africa has remained largely

untraced By detailing the way in which sport's development in South Africa overlapped with major socio political processes on the wider African continent this volume seeks to narrow the gap This book was previously published as a special issue of the International Journal of the History of Sport **Performance, Memory, and Processions in Ancient Rome** Jacob A. Latham, 2016-08-16 The pompa circensis was a political pageant and a religious ritual that produced a republican imperial and even Christian image of the city In this book Jacob A Latham explores the play between performance and itinerary tracing the transformations of the circus procession from the late Republic to late antiquity
