Historical Dictionary of Judaism Norman Solomon, 2024-10-15 What we now call Judaism is the religion of the rabbis it is rooted in scripture the Hebrew Scriptures but it is not to be identified with Old Testament theology Judaism in its many manifestations has continued to evolve rereading its ancient texts and extracting new meaning while addressing contemporary issues such as the status of women and attitudes to sexual orientation History or rather our perception of it has changed substantially Previously unknown documents and artefacts have surfaced while scholars have proposed far reaching changes to the way we read and evaluate ancient texts Nowadays we have a more nuanced understanding of how to evaluate statements in the Talmud and other rabbinic writings and we are better able to contextualize them not only in Greco Roman antiquity but also in the Sasanian environment in which the Babylonian Talmud was formed Historical Dictionary of Judaism Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries on important personalities in Jewish religious history including biblical personalities with an emphasis on how they are understood in Jewish Christian and Islamic tradition This book is an excellent access point for students researchers and anyone wanting to know more about Judaism

Judaism in Late Antiquity Jacob Neusner, Alan Jeffery Avery-Peck, Bruce D. Chilton, 2001 Jacob Neusner vols 1 2 and 3 and his colleagues Alan Avery Peck vol 2 and Bruce Chilton vol 3 have assembled a stellar team of scholars in producing what has already become an essential reference work for the

study of Judaism in Late Antiquity Originally written in nine separate volumes Judaism in Late Antiquity now appears unabridged in three The entire work seeks to offer readers both a broad perspective on the shape of Judaism while also opening the way to understanding unique issues Editors Neusner Avery Peck and Chilton must be commended for this generous gift both to the scholarly guild and to the general reader looking for a thought provoking overview of the central academic conversations Judaism in Late Antiquity I II III is also available in hardback **The A to Z of Judaism** Norman Solomon,2009 This book includes a chronology and an introduction that presents an overview of all aspects of Judaism Numerous cross referenced dictionary entries detail important people writings institutions concepts Hebrew words philosophy theology and religious law and an extensive bibliography provides access for further study Jacket **Toleration within Judaism** Martin Goodman,Joseph E. David,Corinna R. Kaiser,Simon Levis Sullam,2013-05-30 Although Jews sometimes attempt to impose constraints on those with whom they disagree on religious matters or relate to them as if they were not Jews at all at other times they have recognized differences of practice and belief and developed ways of handling them The evidence presented in this book of such toleration over the centuries has important implications for writing both the history of Judaism and the history of religions more generally *The A to Z of Judaism* Norman Solomon,2009-08-13 Judaism the religion of the Jewish people is one of the first recorded monotheistic religions and as such is one of the oldest religious traditions still practiced today While its influences can be seen in the religions of both Christianity and Islam many of its beliefs traditions and practices are unknown The second edition of The A to Z of Judaism doesn't just present religious beliefs in a traditional sense but investigates the complex intermingling of religion devotion lifestyle and culture as it is found in diverse Jewish populations around the world and as it has evolved over the course of recent human history Judaism like many other cultural institutions has rarely remained static instead continually investigating and questioning itself metamorphosing in relation to the world By means of a chronology an introductory essay a bibliography and numerous cross referenced dictionary entries on important persons writings institutions concepts Hebrew words philosophy theology and religious law author Norman Solomon provides an important reference source for the study of Judaism **Must a Jew Believe Anything?** Menachem Kellner,2022-03-09 The crucial question for today's Jewish world Kellner argues is not whether Jews will have Jewish grandchildren but how many different sorts of mutually exclusive Judaisms those grandchildren will face This accessible book examines how the split that threatens the Jewish future can be avoided For this second edition the author has added a substantial Afterword reviewing his thinking on the subject and addressing the reactions to the original edition [Alternative Conceptions of Civil Society](#) Simone Chambers,Will Kymlicka,2002 This text considers how a host of ethical traditions define civil society It considers a range of traditions including libertarianism critical theory Islam and Judaism and to the extent which they agree or disagree on how to define civil society's limits and evaluate its benefits and harms **Studies in Contemporary Jewry: XI: Values, Interests, and Identity** Peter Y. Medding,1995

This collection of original articles addresses the often conflicting roles of values interests and identity in contemporary Jewish politics with its focus on Jews and contemporary politics particularly the interplay of politics and Jewish history this new work makes an outstanding contribution to the scholarly literature **Remix Judaism** Roberta Rosenthal Kwall, 2022-03-01 One of the most talked about books in the Jewish community when it originally appeared *Remix Judaism Preserving Tradition in a Diverse World* offers an eloquent and thoughtful new vision for all Jews seeking a sense of belonging in a changing world regardless of their current level of observance Roberta Kwall sets out a process of selection rejection and modification of rituals that allow for a focus on Jewish tradition rather than on the technicalities of Jewish law Her goal is not to sell her own religious practices to readers but rather to encourage them to find their own personal meaning in Judaism outside the dictates of Commandment by broadening their understanding of how law culture and tradition fit together She inspires readers to be intentional and mindful about the space they allocate for these elements in defining their individual Jewish journeys and identities The paperback edition includes a new preface addressing recently released findings including the Pew Report on the American Jewish Community exploring the challenges of practicing Judaism today Where We Stand : Issues and Debates in Ancient Jerusalem Jacob Neusner, Alan Jeffery Avery-Peck, 1995 This collection of systematic Auseinandersetzungen articulates difference and spells out what is at issue Learning atrophies when political consensus substitutes for criticism and when other than broadly accepted viewpoints approaches and readings find a hearing only with difficulty if at all The editors therefore have invited colleagues systematically to outline their views in an Auseinandersetzung with contrary ones The several participants explain how in broad and sweeping terms they see the state of learning in their areas of special interest The editors invited leading players in the USA Europe and the State of Israel in the study of ancient Judaism both in Second Temple Times and after 70 C E The work commences with a thoroughly fresh perspective of a theoretical question what in a religion so concerned with social norms and public policy can we possibly mean by law when we speak of law in Judaism It then proceeds with two chapters on Second Temple Judaism and two on the special subject of the Dead Sea library The two papers in the present part provide an overview of matters and a systematic critical account of the fading consensus respectively The next set of papers ought to stand as the definitive account of the diverse viewpoints on a basic question of method Because of the willingness of contending parties to meet one another in a single frame of discourse the work is able to portray with considerable breadth the presently contending viewpoints concerning the use of Rabbinic literature for historical purposes Then proceed a number of other accounts of how matters look from the perspective of major participants in scholarly debate At the sametime as the requirements of historical critical reading of the Rabbinic literature precipitated sustained and vigorous debate other problems have attracted attention Among these a critical issue emerges in the hermeneutics to govern the reading of the documents for the purposes of other than historical study feminist interests for example Contesting Inter-Religious Conversion in the Medieval World Yosi

Yisraeli, Yaniv Fox, 2016-12-08 The Mediterranean and its hinterlands were the scene of intensive and transformative contact between cultures in the Middle Ages From the seventh to the seventeenth century the three civilizations into which the region came to be divided geographically the Islamic Khalifate the Byzantine Empire and the Latin West were busily redefining themselves vis vis one another Interspersed throughout the region were communities of minorities such as Christians in Muslim lands Muslims in Christian lands heterodoxical sects pagans and of course Jews One of the most potent vectors of interaction and influence between these communities in the medieval world was inter religious conversion the process whereby groups or individuals formally embraced a new religion The chapters of this book explore this dynamic what did it mean to convert to Christianity in seventh century Ireland What did it mean to embrace Islam in tenth century Egypt Are the two phenomena comparable on a social cultural and legal level The chapters of the book also ask what we are able to learn from our sources which at times provide a very culturally charged and specific conversion rhetoric Taken as a whole the compositions in this volume set out to argue that inter religious conversion was a process that was recognizable and comparable throughout its geographical and chronological purview
