# Jewish Philosophy A Historical Introduction

**Robert Eisen**

## **Jewish Philosophy A Historical Introduction:**

**Jewish Philosophy** Norbert Samuelson, 2006-09-19 Surveys the history of Jewish philosophy from the formation of the Hebrew Scriptures This book is intended for courses in Jewish philosophy as well as for more general courses in religious thought Judaism and philosophy It highlights the Hebrew Scriptures the Midrash medieval rabbinic commentaries and modern works of Jewish theology

Jewish Philosophy in the Middle Ages T. M. Rudavsky, 2018-06-28 T M Rudavsky presents a new account of the development of Jewish philosophy from the tenth century to Spinoza in the seventeenth viewed as part of an ongoing dialogue with medieval Christian and Islamic thought Her aim is to provide a broad historical survey of major figures and schools within the medieval Jewish tradition focusing on the tensions between Judaism and rational thought This is reflected in particular philosophical controversies across a wide range of issues in metaphysics language cosmology and philosophical theology The book illuminates our understanding of medieval thought by offering a much richer view of the Jewish philosophical tradition informed by the considerable recent research that has been done in this area

*A History of Modern Jewish Religious Philosophy* Eliezer Schweid, 2022-11-07 The last generation of German Jewish philosophers brought the long tragic history of German Jewish creative thought to a close in a blaze of glory while transitioning to the new Jewish creative centers in Israel and America The best known Buber Rosenzweig Baeck Strauss Scholem and the less known Breuer Birnbaum Klatzkin Aviad Wolfsberg Guttman are thoroughly explicated here with generous primary text citations appearing in English for the first time making this a rich sourcebook and reference for the thinkers presented

*Jewish Philosophy: The Basics* T.M. Rudavsky, 2025-09-05 This book introduces students and interested readers to two thousand years of Jewish philosophy from its earliest inception to the current era Fourteen chapters cover major figures in the medieval modern and contemporary periods as well as important themes and topics that have been part of Jewish thought for centuries Questions and topics covered include What is Jewish philosophy At what point does the introduction of secular knowledge dilute destroy or strengthen the basic teachings found in Jewish sources Is it possible to harmonize the domains of science and religion How can philosophy be married to a particular religious tradition Containing a comprehensive list of authors as well as suggestions for further reading at the end of each chapter Jewish Philosophy The Basics offers an excellent starting point for anyone seeking an engaging and accessible introduction to the rich content of Jewish philosophy

**Key Features and Benefits** Covers traditional topics in Jewish philosophy with an emphasis on philosophers struggles to reconcile faith and reason These topics include the existence and nature of God prophecy miracles and divine providence the problem of evil nationalism Jewish mysticism and the status of women Clearly explains the important contributions from historical and contemporary thinkers like Judah Halevi Moses Maimonides Baruch Spinoza Moses Mendelssohn Martin Buber Joseph Soloveitchik and many others Emphasizes the interactions with the secular intellectual world upon Jewish philosophy ranging from the rediscovery of Aristotle in the medieval world to the rise of

modern science as well as the importance of modern thinkers including Descartes Kant Hegel Heidegger and others Provides an overview of contemporary issues in Jewish philosophy including Zionism and the status of women in Judaism **New**

**Directions in Jewish Philosophy** Aaron W. Hughes, Elliot R. Wolfson, 2010 Breaking with strictly historical or textual perspectives this book explores Jewish philosophy as philosophy Often regarded as too technical for Judaic studies and too religious for philosophy departments Jewish philosophy has had an ambiguous position in the academy These provocative essays propose new models for the study of Jewish philosophy that embrace wider intellectual arenas including linguistics poetics aesthetics and visual culture as a path toward understanding the particular philosophic concerns of Judaism As they reread classic Jewish texts the essays articulate a new set of questions and demonstrate the vitality and originality of Jewish philosophy **Norbert M. Samuelson: Reasoned Faith** Hava Tirosh-Samuelson, Aaron W. Hughes, 2015-08-25 Norbert M Samuelson is Harold and Jean Grossman Chair of Jewish Studies and Professor of Religious Studies at Arizona State University in Tempe Arizona Trained as an analytic philosopher he went on to establish the Academy of Jewish Philosophy in 1980 which contributed greatly to the professionalization of Jewish philosophy in America An ordained Reform rabbi a constructive theologian and a public intellectual Samuelson has insisted that philosophy is the very heart of Judaism and that in order to survive in the 21st century Judaism must rethink itself in light of contemporary science Through his scholarship and organizational work he has brought a Jewish voice to the dialogue of religion and science Viewing Jewish philosophy as central to the understanding of the Jewish past Samuelson has explicated the philosophical dimension of Judaism from the Bible to the present **The Discipline of Philosophy and the Invention of Modern Jewish Thought** Willi

Goetschel, 2015-06-01 Exploring the subject of Jewish philosophy as a controversial construction site of the project of modernity this book examines the implications of the different and often conflicting notions that drive the debate on the question of what Jewish philosophy is or could be The idea of Jewish philosophy begs the question of philosophy as such But Jewish philosophy does not just reflect what philosophy lacks Rather it challenges the project of philosophy itself Examining the thought of Spinoza Moses Mendelssohn Heinrich Heine Hermann Cohen Franz Rosenzweig Martin Buber Margarete Susman Hermann Levin Goldschmidt and others the book highlights how the most philosophic moments of their works are those in which specific concerns of their Jewish questions inform the rethinking of philosophy's disciplinarity in principal terms The long overdue recognition of the modernity that informs the critical trajectories of Jewish philosophers from Spinoza and Mendelssohn to the present emancipates not just Jewish philosophy from an infelicitous pigeonhole these philosophers so pointedly sought to reject but more important emancipates philosophy from its false claims to universalism

"The Star" for Beginners Francesco Paolo Ciglia, 2021-10-18 In *The Star of Redemption* written at the end and after World War I and published in 1921 Franz Rosenzweig presented an epoch making Jewish inspired philosophy of religion In three steps each with three chapters or books Rosenzweig unfolds in it his view of God the world and man their

interrelationship and their contribution and role in the redemption of the world In this introduction young and old Rosenzweig scholars take readers by the hand chapter by chapter book by book They lead safely through Rosenzweig's argumentation making sometimes difficult lines of thought comprehensible and plausible The chapter introductions open up reliable access for interested readers and new perspectives for connoisseurs [The Routledge Companion to Jewish Philosophy](#) Daniel Rynhold, Tyron Goldschmidt, 2025-05-02 The Routledge Companion to Jewish Philosophy is a deep and broad reference that brings diverse perspectives to bear on the key topics problems and debates in Jewish philosophy and philosophical theology The 37 chapters were written by an international team of experts from different traditions in philosophy and beyond and appear in print for the first time in this Companion The chapters are divided into ten major sections God Humanity From God to Us From Us to God Jewish Mysticism Faith and Reason Judaism and Normativity Judaism and Politics Judaism and Other Faiths Times and Trends A list of Related Topics at the end of each chapter and a comprehensive index at the back of the volume help readers navigate the Companion and Further Reading sections at the end of each chapter identify the best avenues for future research The volume is essential reading for students and scholars interested in Jewish philosophy theology religious studies and related subjects [Essays in Jewish Philosophy](#) David Neumark, 1929 **The Cambridge Companion to Medieval Jewish Philosophy** Daniel H. Frank, Oliver Leaman, 2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism Jewish philosophers and scientists reflected on the nature of language about God the scope and limits of human understanding the eternity or createdness of the world prophecy and divine providence the possibility of human freedom and the relationship between divine and human law Though many viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history **The Wiley-Blackwell History of Jews and Judaism** Alan T. Levenson, 2012-03-12 The Wiley Blackwell History of Jews and Judaism presents a panoramic and comprehensive overview of the major aspects of Jewish life and culture from the biblical period through to contemporary times A collection of outstanding contributions from leading experts presents the latest scholarship on a range of questions relating to Jews Jewish history Judaism folk practices politics economic structure the relationship of Judaism to Christianity and the manifold participation of Jews in general culture through various times and geographical locales In addition the book explores Jewish historiography and the lives of ordinary people the achievements of Jewish women and the sustained interaction of Jews within the environments they inhabited In exploring the major periods and themes of Jewish history and the history of Judaism the volume features a wide

range of contemporary approaches that demonstrate the maturation of Jewish studies Special attention is accorded to underrepresented eras including the early modern and post 1945 periods of Jewish history in all their major dimensions More contentious scholarly issues such as the relationship of Ancient Israel and the Hebrew Bible or the nature of Zionism diaspora and its implications for contemporary Israel feature multiple essays that reveal varied points of view Lively and informative this essential single volume reference reflects our current state of knowledge on the evolution of Jewish life and culture from its ancient origins to the modern age

#### **The Hebrew Bible and Philosophy of Religion** Jaco

Gericke,2012-11-01 This study pioneers the use of philosophy of religion in the study of the Hebrew Bible After identifying the need for a legitimate philosophical approach to Israelite religion the volume traces the history of interdisciplinary relations and shows how descriptive varieties of philosophy of religion can aid the clarification of the Hebrew Bible s own metaphysical epistemological and moral assumptions Two new interpretative methodologies are developed and subsequently applied through an introduction to what the biblical texts took for granted about the nature of religious language the concept of deity the properties of Yhwh the existence of gods religious epistemology and the relation between religion and morality

#### The Cambridge History of Judaism: Volume 7, The Early Modern World, 1500–1815 Jonathan Karp,Adam

Sutcliffe,2017-11-30 This seventh volume of The Cambridge History of Judaism provides an authoritative and detailed overview of early modern Jewish history from 1500 to 1815 The essays written by an international team of scholars situate the Jewish experience in relation to the multiple political intellectual and cultural currents of the period They also explore and problematize the modernization of world Jewry over this period from a global perspective covering Jews in the Islamic world and in the Americas as well as in Europe with many chapters straddling the conventional lines of division between Sephardic Ashkenazic and Mizrahi history The most up to date comprehensive and authoritative work in this field currently available this volume will serve as an essential reference tool and ideal point of entry for advanced students and scholars of early modern Jewish history

#### **Jewish Faith and Modern Science** Norbert M. Samuelson,2008-10-17

In Jewish Faith and Modern Science renowned Jewish philosopher and rabbi Norbert Samuelson argues that modern Jewish philosophy has died\_ that it has failed to address the challenges to traditional beliefs posed by scientific advances and is therefore no longer relevant to Jews today Samuelson confronts these challenges head on critically reflecting on how all of the forms of contemporary Judaism from orthodox to liberal to secular to new age can address questions raised by the latest scientific advances Considering questions ranging from the existence of the soul to the relationship between God and particle physics to the debate over when life begins and ends Samuelson paves the way for a rebirth of Jewish philosophy applicable to life in the modern world

#### Jewish Philosophical Politics in Germany, 1789-1848 Sven-Erik Rose,2014-08-05

In this book Rose illuminates the extraordinary creativity of Jewish intellectuals as they reevaluated Judaism with the tools of a German philosophical tradition fast emerging as central to modern intellectual life While previous work emphasizes the subversive

dimensions of German Jewish thought or the inner antisemitism of the German philosophical tradition Rose shows convincingly the tremendous resources German philosophy offered contemporary Jews for thinking about the place of Jews in the wider polity Offering a fundamental reevaluation of seminal figures and key texts Rose emphasizes the productive encounter between Jewish intellectuals and German philosophy He brings to light both the complexity and the ambivalence of reflecting on Jewish identity and politics from within a German tradition that invested tremendous faith in the political efficacy of philosophical thought itself

**Remapping Memory** Jonathan Boyarin,1994 The essays in this book focus on contested memories in relation to time and space Within the context of several profound cultural and political conflicts in the contemporary world the contributors analyze historical self configurations of human groups and the construction by these groups of the spaces they shape and that shape them What emerges is a view of the state as a highly contingent artifact of groups vying for legitimacy whether through their own sense of insiderhood their control of positions within hierarchies or their control of geographical territories Boyarin s lead essay shows how the supposedly objective categories of space and time are in fact specific products of European modernity Each case study in turn addresses the re constitution of space time and memory in relation to an event either of historical significance like the dropping of the atomic bomb on Hiroshima or of cultural importance like the Indian preoccupation with reincarnation These ethnographic studies explore fundamental questions about the nature of memory the limits of politics and the complex links between them By focusing on personal and collective identity as the site where constructions of memory and dimensionality are tested shaped and effected the authors offer a new way of understanding how the politics of space time and memory are negotiated to bring people to terms with their history

**Reader's Guide to Judaism** Michael Terry,2013-12-02 The Reader s Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly

**Host Bibliographic Record for Boundwith Item Barcode 30112075926326 and Others** ,1907 **Jews, Judaism, and**

**Success** Robert Eisen,2023-06-23 In Jews Judaism and Success Robert Eisen attempts to solve a long standing mystery that has fascinated many How did Jews become such a remarkably successful minority in the modern Western world Eisen argues that Jews achieved such success because they were unusually well prepared for it by their religion in particular Rabbinic Judaism or the Judaism of the rabbis Rooted in the Talmud this form of Judaism instilled in Jews key values that paved the way for success in modern Western society autonomy freedom of thought worldliness and education The book carefully analyses the evolution of these four values over the past two thousand years in order to demonstrate that they had a longer and richer history in Jewish culture than in Western culture The book thus disputes the common assumption that Rabbinic

Judaism was always an obstacle to Jews becoming modernized. It demonstrates that while modern Jews rejected aspects of Rabbinic Judaism, they also retained some of its values, and these values in particular led to Jewish success. Written for a broad range of readers, *Jews, Judaism, and Success* provides unique insights on the meaning of success and how it is achieved in the modern world.
