Jews in European History Saul Friedländer, Wolfgang Beck, 1994-01-01 The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today A History of East European Jews Heiko Haumann, 2002 Presents a history of East European Jewry from its beginnings to the period after the Holocaust It gives an overview of the demographic political socio economic religious and cultural conditions of Jewish communities in Poland Russia Bohemia and Moravia Interesting themes include the story of early settlers the Golden Age the influence of the Kabbalah and Hasidism Vivid portraits of Jewish family life and religious customs make the book enjoyable to read **The European Jews, Patriotism and the Liberal State, 1789-1939** David Aberbach, 2013 This book uses historical sociological theological social psychological and especially literary insights to depict various forms of European Jewish patriotism from the French Revolution until the Holocaust combining scrutiny of long term socio historical and religious forces with more recent factors deriving from the rise of secular enlightenment emancipation and nationalism Studies in European History Johann Joseph Ignaz von Döllinger, 1890 Decolonizing German and European History at the Museum Katrin Sieg, 2021-12-06 How do museums confront the violence of European colonialism conquest dispossession enslavement and genocide *Mastering Modern European History* Stuart Miller, 2016-01-09 Mastering Modern European History traces the development of Europe from the French Revolution to the present day Political diplomatic and socio economic strands are woven together and supported by a wide range of pictures maps graphs and questions Documentary extracts are included throughout to encourage the reader to question the nature and value of various types of historical evidence The second edition brings us fully up to the present day Chapters on European Decolonisation Communist Europe 1985-9 and European Unity and Discord have been added and others have been substantially rewritten An even wider range of illustrations and documentary source questions are included The book is presented in a readable and well ordered format

and is an ideal reference text for students **Jewish Thought and Scientific Discovery in Early Modern Europe** David B. Ruderman, 2001 A study on the scientific dimension of Jewish intellectual history in the early modern world *Virtual and Real-Life Spaces of Jewish Europe in the 21st Century* Maja Hultman, Joachim Schlör, 2025-10-06 The first decades of the 21st century have presented numerous challenges for European Jewry far right movements and a rise of antisemitism a global pandemic and a war on European soil At the same time heritage sites commemorating the Jewish past and the use of digital platforms to create new forms of communication and cultural co construction are growing Using a variety of spaces heritage sites museums digital practices urban topography and communal activities as case studies this collective volume analyses whether they might serve as a reminder that despite moments of crisis Jewish life in Europe persists The spatial analysis offered by the volume uses the concept of virtuality as a starting point thereby engaging anew with spatial concepts laid out by scholars in the 1990s Now 30 years later prompted by today's political social and cultural European landscape as well as the increasing role of digitization the authors discuss the meaning of virtuality and how it relates to notions of authenticity and reality in Jewish culture and in Jewish non Jewish relations As such the book provides a fresh take on and a new way forward for the conceptualizations and applications of space which together offer particularly useful avenues to access power relations identity re constructions and performative aspects of the European Jewish experience Antisemitism in Eastern Europe Hans-Christian Petersen, Samuel Salzborn, 2010 Europe is expanding and therewith remembers its historical basis which was hidden beneath the shadow of the Cold War for a long time This return of a common history which is mostly narrated as a history of success today however contains the perception of transnational traditions at the same time which by contrast should give reason for a critical self reflection This volume gives an impulse through a comparative examination of the still highly actual forms of antisemitism in Europe The focus will be on the developments in the countries from the Baltic States to South Eastern Europe which usually are little known in Western Europe At the same time the specificities of antisemitism in Eastern Europe are incorporated in the theoretical insights of antisemitism research thus filling a gap that has existed until now **Jewish Soldiers in the Collective Memory of Central Europe** Gerald Lamprecht, Eleonore Lappin-Eppel, Ulrich Wyrwa, 2019-04-15 World War I marks a huge break in Central European Jewish history Not only had the violent wartime events destroyed Jewish life and especially the living space of Eastern European Jews but the impacts of war the geopolitical change and a radicalization of anti-Semitism also led to a crisis of Jewish identity Furthermore during the process of national self discovery and the establishing of new states the societal position of the Jews and their relationship to the state had to be redefined These partially violent processes which were always accompanied by anti-Semitism evoked Jewish and Gentile debates in which questions about Jewish loyalty to the old and or new states as well as concepts of Jewish identity under the new political circumstances were negotiated This volume collects articles dealing with these Jewish and gentile debates about military service and war memory in Central Europe **The Myth of the Medieval Jewish**

Moneylender Julie L. Mell, 2017-10-14 This book challenges a common historical narrative which portrays medieval Jews as moneylenders who filled an essential economic role in Europe It traces how and why this narrative was constructed as a philosemitic narrative in the nineteenth and twentieth centuries in response to the rise of political antisemitism This book also documents why it is a myth for medieval Europe and illuminates how changes in Jewish history change our understanding of European history Each chapter offers a novel interpretation of central topics such as the usury debate commercial contracts and moral literature on money and value to demonstrate how the revision of Jewish history leads to new insights in European history

Jewish Medicine and Healthcare in Central Eastern Europe Marcin Moskalewicz, Ute Caumanns, Fritz Dross, 2018-09-12 Is Jewish medicine a valid historical category Does it represent a collective constituted by the interplay of medical ethnic and religious cultures Integrating academic disciplines from medical history to philology and Jewish studies this book aims at answering this question historically by presenting comprehensive coverage of Jewish medical traditions in Central Eastern Europe mostly on what is today Poland and Germany and the former Russian Prussian and Austro Hungarian Empires In this significant zone of ethnic religious and cultural interaction Jewish Polish and German traditions and communities were more entangled and identities were shared to an extent greater than anywhere else Starting with early modern times and the Enlightenment through the 19th century up until the horrors of medicine in the ghettos and concentration camps the book collects a variety of perspectives on the question of how Judaism and Jewish culture were dynamically related to medicine and healthcare It discusses the Halachic traditions hygiene related stereotypes the organization of healthcare within specified communities academic careers hybrid medical identities and diversified medical practices
