Computational Modeling and Data Analysis in COVID-19 Research Chhabi Rani Panigrahi,Bibudhendu Pati,Mamata Rath,Rajkumar Buyya,2021-05-09 This book covers recent research on the COVID 19 pandemic It includes the analysis implementation usage and proposed ideas and models with architecture to handle the COVID 19 outbreak Using advanced

technologies such as artificial intelligence AI and machine learning ML techniques for data analysis this book will be helpful to mitigate exposure and ensure public health We know prevention is better than cure so by using several ML techniques researchers can try to predict the disease in its early stage and develop more effective medications and treatments Computational technologies in areas like AI ML Internet of Things IoT and drone technologies underlie a range of applications that can be developed and utilized for this purpose Because in most cases there is no one solution to stop the spreading of pandemic diseases and the integration of several tools and tactics are needed Many successful applications of AI ML IoT and drone technologies already exist including systems that analyze past data to predict and conclude some useful information for controlling the spread of COVID 19 infections using minimum resources The AI and ML approach can be helpful to design different models to give a predictive solution for mitigating infection and preventing larger outbreaks This book Examines the use of artificial intelligence AI machine learning ML Internet of Things IoT and drone technologies as a helpful predictive solution for controlling infection of COVID 19 Covers recent research related to the COVID 19 pandemic and includes the analysis implementation usage and proposed ideas and models with architecture to handle a pandemic outbreak Examines the performance implementation architecture and techniques of different analytical and statistical models related to COVID 19 Includes different case studies on COVID 19 Dr Chhabi Rani Panigrahi is Assistant Professor in the Department of Computer Science at Rama Devi Women s University Bhubaneswar India Dr Bibudhendu Pati is Associate Professor and Head of the Department of Computer Science at Rama Devi Women s University Bhubaneswar India Dr Mamata Rath is Assistant Professor in the School of Management Information Technology at Birla Global University Bhubaneswar India Prof Rajkumar Buyya is a Redmond Barry Distinguished Professor and Director of the Cloud Computing and Distributed Systems CLOUDS Laboratory at the University of Melbourne Australia
