Imagining Serengeti Jan Bender Shetler, 2007-06-15 Many students come to African history with a host of stereotypes that are not always easy to dislodge One of the most common is that of Africa as safari grounds as the land of expansive unpopulated game reserves untouched by civilization and preserved in their original pristine state by the tireless efforts of contemporary conservationists With prose that is elegant in its simplicity and analysis that is forceful and compelling Jan Bender Shetler brings the landscape memory of the Serengeti to life She demonstrates how the social identities of western Serengeti peoples are embedded in specific spaces and in their collective memories of those spaces Using a new methodology to analyze precolonial oral traditions Shetler identifies core spatial images and reevaluates them in their historical context through the use of archaeological linguistic ethnographic ecological and archival evidence *Imagining Serengeti* is a lively environmental history that will ensure that we never look at images of the African landscape in quite the same way
