The Oxford Handbook of American

Economic History Volume 1 Edited by Louis P. Cain,Edited by Price V. Fishback,Edited by Paul W. Rhode,2018-06-15

American economic history describes the transition of a handful of struggling settlements on the Atlantic seaboard into the nation with the most successful economy in the world today As the economy has developed so have the methods used by economic historians to analyze the process Interest in economic history has sharply increased in recent years among the public policy makers and in the academy The current economic turmoil calling forth comparisons with the Great Depression of the 1930s is in part responsible for the surge in interest among the public and in policy circles It has also stimulated greater scholarly research into past financial crises the multiplier effects of fiscal and monetary policy the dynamics of the housing market and international economic cooperation and conflict Other pressing policy issues including the impending retirement of the Baby Boom generation the ongoing expansion of the healthcare sector and the environmental challenges imposed by global climate change have further increased demand for the long run perspective given by economic history

Confronting this need The Oxford Handbook of American Economic History affords access to the latest research on the crucial events themes and legacies of America s economic history from colonial America to the Civil War up to present day More than fifty contributors address topics as wide ranging as immigration agriculture and urbanization Over its two volumes this handbook gives readers not only a comprehensive look at where the field of American economic history currently stands but where it is headed in the years to come

The Discourse of Repatriation in Britain, 1845-2016 Daniel Renshaw,2021-03-04 Examining responses to migration and settlement in Britain from the Irish Famine up to Brexit The Discourse of Repatriation looks at how concepts of removal evolved in this period and the varied protagonists who have articulated these ideas in different contexts Analysing the relationship between discourse and action Renshaw explores how ideas and language originating on the peripheries of debate on migration and belonging can permeate the mainstream and transform both discussion and policy The book sheds light both on how the migrant other has been viewed in Britain historically and contemporaneously and more broadly how the relationship between state press and populace has developed from the early Victorian period onwards It identifies key junctures where the concept of the removal of othered groups has crossed over from the rhetorical to the actual and considers why this was the case Based on extensive original archival research the book reassesses modern British history through the lens of the most polarised attitudes to immigration and demographic change This book will be of use to readers with an interest in migration diaspora the development of populism and political extremes and more broadly the history of modern Britain

Labor Literature United States. Department of Labor. Library,1977

The Minds of the West Jon Gjerde,2000-11-09 In the century preceding World War I the American Middle West drew thousands of migrants both from Europe and from the northeastern United States In the American mind the region represented a place where social differences could be muted and a distinctly American culture created Many of the European groups however viewed the Midwest as an area of opportunity because it allowed them to retain cultural and religious traditions from their homelands Jon Gjerde examines the cultural patterns or minds that those settling the Middle West carried with them He argues that such cultural transplantation could occur because patterns of migration tended to reunite people of similar pasts and because the rural Midwest was a vast region where cultural groups could sequester themselves in tight knit settlements built

around familial and community institutions Gjerde compares patterns of development and acculturation across immigrant groups exploring the frictions and fissures experienced within and between communities Finally he examines the means by which individual ethnic groups built themselves a representative voice joining the political and social debate on both a regional and national level *Essays on American Antebellum Politics, 1840-1860* William E. Gienapp, 1982 Writing on such subjects as voter partisanship the road to recovery and the surge of Republican power these historians reach different conclusions but essentially agree on the centrality of the party system and the importance of ethnocultural issues in the sectional conflict Besides using traditional historiographic techniques some of the authors draw upon the findings and methods of the New political history to illuminate a variety of hitherto ignored or misunderstood aspects of antebellum American politics In the process they offer a new look at some old problems and many new provocative insights into these crucial two decades of American history **Voices of the Nation** Caroline Field Levander, 1998-01-13 Studies the relationship between women s speech and nineteenth century American literary culture **Report on Crime and the Foreign Born** United States. Wickersham Commission, Edith Abbott, 1931 **Conflict and Compromise** Roger L. Ransom, 1989-09-29 In this book Professor Roger Ransom examines the economic and political factors that led to the attempt by Southerners to dissolve the Union in 1860 and the equally determined effort of Northerners to preserve it Ransom argues that the system of capitalist slavery in the South not only caused the Civil War by producing tensions that could not be resolved by compromise it also played a crucial role in the outcome of that war by crippling the southern war effort at the same time that emancipation became a unifying issue for the North Ransom also carefully examines the impact that four years of war and the emancipation of slaves had both on the defeated South and the victorious North From publisher s description
