**David W. Weiss**

## **Immunological Parameters Of Host Tumor Relationships:**

**Immunological Parameters of Host-tumor Relationships** David W. Weiss,1971 *Immunological Parameters of Host-tumor Relationships* David W. Weiss,1971 Immunological parameters of host tumor relationships. 5 David Walter Weiss,[Anonymus AC02414025],1979 *Conference on Spontaneous Regression of Cancer, Held at the Johns Hopkins Medical Institutions, Baltimore, Maryland, May 9 and 10, 1974* Edward F. Lewison,1976 *Immunological Parameters of Host-tumor Relationships* ,1978 **Conference on Immunology of Carcinogenesis** ,1972 Current Topics in Microbiology and Immunology / Ergebnisse der Microbiologie und Immunitätsforschung W. Arber,W. Henle,P. H. Hofschneider,J. H. Humphrey,N. K. Jerne,P. Koldovský,H. Koprowski,O. Maaløe,R. Rott,H. G. Schweiger,M. Sela,L. Syru?ek,P. K. Vogt,2012-12-06 Expression of an immune response is the net result of complex synergistic and antagonistic activities performed by a variety of cell types It includes macrophages T and B populations which may interact in performance of a response and suppressor cells interfering with it Accordingly a lack of response may not necessarily indicate absence of immunocompetent cells but rather nonexpression of competence Thus one should consider two possible situations which are by no means mutually exclusive to account for immunologic unresponsiveness a one or more of the cell populations composing the synergistic unit is absent or immature and b an antagonistic unit which interferes with the response is dominating In view of this an approach to development of immune reactivity necessitates parallel surveys of development of cells with the potential to perform as well as of cells which can suppress the response Classification of the various cell types has been based so far on their phenotypic properties e g membrane antigen markers cell receptors production and secretion of immunoglobulins etc Genotypically T and B cells may represent either separate independent cell lines or different stages of development within the same cell lineage *Cumulated Index Medicus* ,1970 **A Stochastic Model for Immunological Feedback in Carcinogenesis: Analysis and Approximations** N. Dubin,2013-03-13 Stochastic processes often pose the difficulty that as soon as a model deviates from the simplest kinds of assumptions the differential equations obtained for the density and the generating functions become mathematically formidable Worse still one is very often led to equations which have no known solution and don't yield to standard analytical methods for differential equations In the model considered here one for tumor growth with an immunological response from the normal tissue a nonlinear term in the transition probability for the death of a tumor cell leads to the above mentioned complications Despite the mathematical disadvantages of this nonlinearity we are able to consider a more sophisticated model biologically Ultimately in order to achieve a more realistic representation of a complicated phenomenon it is necessary to examine mechanisms which allow the model to deviate from the more mathematically tractable linear format Thus far stochastic models for tumor growth have almost exclusively considered linear transition probabilities The Immunologic Revolution Andor Szentivanyi,Herman Friedman,2024-11-15 This unique volume contains reviews by some of the most prominent immunologists in the world The

authors present vital facts for each of their areas of expertise and provide individual perspectives on how their own contributions were developed and how these contributions influenced general immunological thinking and development This impressive collection of personal reviews by these internationally renowned immunologists makes The Immunologic Revolution an important and lasting contribution to the entire biomedical community     **Etiology** National Cancer Institute (U.S.),1972     *Journal of the National Cancer Institute* ,1981     **Conference on Spontaneous Regression of Cancer** Edward F. Lewison,1976     **Conference on the Use of BCG in Therapy of Cancer** Tibor Borsos,Herbert J. Rapp,1974     *The Ambivalence of Cytostatic Therapy* Ekkehard Grundmann,R. Gross,2012-12-06 Gesellschaft zur Bek mpfung der Krebskrankheiten Nordrhein Westfalen e V and European Organization for Research on Treatment of Cancer 5 Symposium in D sseldorf November 8 9 1973     **Conference on the Use of BCG in Therapy of Cancer** ,1974     **Advances in Pharmacology and Chemotherapy** ,1977-07-14 Advances in Pharmacology and Chemotherapy     **Medical Research in the Veterans' Administration** United States.
