**Symbolism, Its Origins and Its Consequences** Rosina Neginsky, 2010-08-11 The notion of the symbol is at the root of the Symbolist movement but this symbol is different from the way it was used and understood in the Middle Ages and Renaissance In the Symbolist movement a symbol is not an allegory The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24 1887 in *L'Art moderne* He wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage instead of going from the abstract to the concrete Venus incarnated in the statue represents love it goes from the concrete to the abstract from what is seen heard felt tasted and sensed to the evocation of the idea This volume attempts to give a glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the evolution of art and literature of the twentieth century It records the studies of a group of scholars who met and discussed these topics together for the first time in 2009 While illuminating the specificity of Symbolism in art architecture and literature in different European countries these articles also demonstrate the crucial role of French Symbolism in the development of the international Symbolist movement The authors hope that an expanding group a society of Art Literature and Music in Symbolism and Decadence ALMSD born out of the first meeting will continue to further this discussion at future conferences and in the printed conference proceedings

Canning, 2022-10-20 *Vive la Sociale* This rousing revolutionary statement written on a bright red banner across the top of James Ensor's Christ's Entry into Brussels in 1889 served as a visual manifesto and call to action by the Belgian artist 1860 1949 one that announced with an insistent public voice the centrality of his art practice to the cultural discourse of modern Belgium This provocative declaration serves as the title for this new study of Ensor's art focusing on its social discourse and the artist's interaction with and at times satirical encounter with his contemporary milieu Rather than the alienated and traumatized Expressionist given preference in modern art history Ensor is presented here as an artist of agency and purpose whose art practice engaged the issues and concerns of middle class Belgian life society and politics and was informed by the values and class race and gendered perspectives of his time Ensor's radical vision and oppositional strategy of resistance self-fashioning and performance remains relevant This book
