Improbable Dangers:

Dangerous Times? Christopher J. Fettweis, 2010-10-27 What horrors will the twenty first century bring For many people a clash of civilizations and a perilous return to great power rivalries are the dominant visions of things to come Fueled by daily headlines overwhelming majorities of people from all walks of life consider the world to be a far more chaotic frightening and ultimately more dangerous place than ever before Christopher J Fettweis argues that these impressions however widespread are wrong *Dangerous Times* is an examination of international politics that reveals both theoretical logic and empirical data that support the vision of a future where wars between great powers are unlikely and transnational threats can be contained Despite popular perception today a far greater percentage of the world's population lives in peace than at any time in history and the number and intensity of all types of warfare have dropped steadily since the early 1990s Terrorism though reprehensible can be combated and can actually increase international cooperation among states fighting a common threat World wars like those of the twentieth century the true clash of civilizations are unlikely to be repeated in the close knit world of the twenty first century In this sharp and insightful book Fettweis discusses this revolution in human history and its ramifications for international relations theory He suggests a new vision for a more restrained U S grand strategy and foreign policy and reveals how despite pessimistic perceptions to the contrary the world is more likely entering a golden age of peace and security

A Dangerous World? Christopher A. Preble, John Mueller, 2014-10-14 In 2013 Chairman of the Joint Chiefs of Staff Gen Martin Dempsey stated that the world is more dangerous than it has ever been Is this accurate Do we live in a world that is uniquely dangerous Is it possible that the many threats and dangers promoted by policymakers and the media are exaggerated or overblown In this timely edited volume experts on international security assess and put into context the supposed dangers to American security The authors examine the most frequently referenced threats including wars between nations and civil wars within nations and discuss the impact of rising nations weapons proliferation general unrest terrorism transnational crime and state failures

The Works of Samuel Johnson Samuel Johnson, 1713

The End of Overkill Benjamin Friedman, Christopher Preble, Matt Fay, 2013-09-24 U S security does not require nearly 1 600 nuclear weapons deployed on a triad of systems bombers land based intercontinental ballistic missiles ICBMs and submarine launched ballistic missiles SLBMs to deliver them A new paper from Benjamin H Friedman Christopher A Preble and Matt Fay encourages abandonment of the triad and skepticism about the received wisdom justifying U S nuclear weapons policies The authors suggest that shifting to a submarine based monad would serve U S deterrent needs and eventually save taxpayers roughly 20 billion a year

Duty and Healing Benjamin Freedman, 2004-11-23 Duty and Healing positions ethical issues commonly encountered in clinical situations within Jewish law The concept of duty is significant in exploring bioethical issues and this book presents an authentic and non parochial Jewish approach to bioethics while it includes critiques of both current

secular and Jewish literatures Among the issues the book explores are the role of family in medical decision making the question of informed consent as a personal religious duty and the responsibilities of caretakers The exploration of contemporary ethical problems in healthcare through the lens of traditional sources in Jewish law is an indispensable guide of moral knowledge **Hypnotism, Its Facts, Theories and Related Phenomena** Carl Sextus,1893 The South Western Reporter ,1914 Includes the decisions of the Supreme Courts of Missouri Arkansas Tennessee and Texas and Court of Appeals of Kentucky Aug Dec 1886 May Aug 1892 Court of Appeals of Texas Aug 1892 Feb 1893 Jan Feb 1928 Courts of Civil and Criminal Appeals of Texas Apr June 1896 Aug Nov 1907 Court of Appeals of Indian Territory May June 1927 Jan Feb 1928 Courts of Appeals of Missouri and Commission of Appeals of Texas **Communicating Risk and Safety** Timothy L. Sellnow,Deanna D. Sellnow,2023-12-31 The world is wrought with risks that may harm people and cost lives The news is riddled with reports of natural disasters wildfires floods earthquakes hurricanes industrial disasters chemical spills water and air pollution and health pandemics e g SARS H1NI COVID19 Effective risk communication is critical to mitigating harms The body of research in this handbook reveals the challenges of communicating such messages affirms the need for dialogue embraces the role of instruction in proactively communicating risk acknowledges the function of competing risk messages investigates the growing influence of new media and constantly reconsiders the ethical imperative for communicating recommendations for enhanced safety **The Southwestern Reporter** ,1914 **Secret Diplomacy** George Eller,1912
