**The Urban Department Store in America, 1850-1930** Dr Louisa Iarocci, 2014-12-28 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Iarocci reaches beyond the analysis of the brick and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces

Twice as Hard Jasmine Brown, 2023-01-24 Black women physicians stories have gone untold for far too long leaving gaping holes in American medical history in women's history and in black history It's time to set the record straight No real account of black women physicians in the US exists and what little mention is made of these women in existing histories is often insubstantial or altogether incorrect In this work of extensive research Jasmine Brown offers a rich new perspective penning the long erased stories of nine pioneering black women physicians beginning in 1860 when a black woman first entered medical school Brown champions these black women physicians including the stories of Dr Rebecca Lee Crumpler who graduated from medical school only fourteen months after the Emancipation Proclamation was signed and provided medical care for the newly freed slaves who had been neglected and exploited by the medical system Dr Edith Irby Jones the first African American to attend a previously white only medical school in the Jim Crow South where she was not allowed to eat lunch with her classmates or use the women's bathroom Still Dr Irby Jones persisted and graduated from medical school going on to directly inspire other black women to pursue medicine such as Dr Joycelyn Elders who after meeting Dr Irby Jones changed her career ambitions from becoming a Dillard's salesclerk to becoming a doctor In 1993 President Bill Clinton appointed Dr Elders as the US surgeon general making her the first African American and second woman to hold this position Brown tells the stories of these doctors from the perspective of a black woman in medicine Her journey as a medical student already has parallels to those of black women who entered medicine generations before her What she uncovers about these women's struggles their need to work twice as hard and be twice as good and their ultimate success serves as instruction and inspiration for new generations considering a career in medicine or science

*Paths of Glory* Stephen Brumwell, 2006-01-01 Ugly gangling and tormented by agonising illness Major General James Wolfe was an unlikely hero Yet in 1759 on the Plains of Abraham before Quebec he won a battle with momentous consequences Wolfe's victory bought at the cost of his life ensured that English not French would become the dominant language in North America Ironically by crippling French ambitions on that continent Wolfe paved the way for American independence from Britain Just thirty two years old when he was killed in action Wolfe had served in the British army since his mid teens fighting against the French in Flanders and Germany and the Jacobites in Scotland Already renowned for bold leadership Wolfe's death at the very moment of his victory at Quebec cemented his heroic status on both sides of the Atlantic Epic paintings of Wolfe's dying moments transformed him

into an icon of patriotic self sacrifice and a role model for Horatio Nelson Once venerated as the very embodiment of military genius and soldierly modesty Wolfe s reputation has recently undergone sustained assault by revisionist historians who instead see him as a bloodthirsty and priggish young man a general who owned his name and fame to one singularly lucky though crucial victory But was there more to James Wolfe than a celebrated death In *Paths of Glory* the first full length biography of Wolfe to appear in almost half a century Stephen Brumwell seeks to answer that question drawing upon extensive research to offer a reassessment of a soldier whose short but dramatic life unquestionably altered the course of world history

*The Limits of Auteurism* Nicholas Godfrey, 2018-05-10 The New Hollywood era of the late 1960s and early 1970s has become one of the most romanticized periods in motion picture history celebrated for its stylistic boldness thematic complexity and the unshackling of directorial ambition *The Limits of Auteurism* aims to challenge many of these assumptions Beginning with the commercial success of *Easy Rider* in 1969 and ending two years later with the critical and commercial failure of that film s twin progeny *The Last Movie* and *The Hired Hand* Nicholas Godfrey surveys a key moment that defined the subsequent aesthetic parameters of American commercial art cinema The book explores the role that contemporary critics played in determining how the movies of this period were understood and how in turn strategies of distribution influenced critical responses and dictated the conditions of entry into the rapidly codifying New Hollywood canon Focusing on a small number of industrially significant films this new history advances our understanding of this important moment of transition from Classical to contemporary modes of production
