and potential obstacles of the institution Welcoming Young Children into the Museum will be essential reading for professionals working in museums large and small regardless of type It will be useful to those who are considering setting up new programmes for early years audiences and those with existing programmes who would like to improve their offering

Nature Education with Young Children Daniel R. Meier, Stephanie Sisk-Hilton, 2013-05-29 Nature Education with Young Children is a thoughtful sophisticated teacher resource that blends theory and practice on nature education children s inquiry based learning and reflective teaching The book s guiding conceptual framework is founded upon the integration of four key ideas for effective and transformative nature education The power and value of equity and access to nature education Effective teaching encompasses child development domains and integrates ECE curriculum Children learn best through inquiry based and child centered teaching Powerful teaching is founded upon teacher inquiry and reflection Implementing nature study is one critical way that educators can integrate more science learning across the ECE curriculum and do so in an active discovery based manner Nature Education with Young Children strives for an American version of what the Reggio Emilia educators do so well creating a seamless integration of science concepts into the daily intellectual investigations that occur in classrooms everywhere

**Contemporary Perspectives on Social Learning in Early Childhood Education** Olivia Saracho, Bernard Spodek, 2007-06-01 Social epistemology is a broad set of approaches to the study of knowledge and to gain information about the social dimensions This intellectual movement of wide cross disciplinary sources reconstructs the problems of epistemology when knowledge is considered to be intrinsically social In the first chapter Social Epistemology and Social Learning Olivia Saracho and Bernard Spodek discuss the social and historical contexts in which different forms of knowledge are formulated based on the perspective of social epistemology They also discuss the emergence of social epistemology which guides researchers to investigate social phenomena in laboratory and field settings Social factors external to the appropriate business of science have a major impact in the social studies researchers historical case studies Thus social studies researchers may be considered social epistemologists because a they focus on knowledge of social influences and b they infer epistemologically significant conclusions from their sociological or anthropological research In addition analyses indicate that studies of scientific paradigms are basically a struggle for political power rather than reflecting reliable epistemic merit Social studies researchers focus on knowledge of social influences on knowledge which is analogous to the knowledge of the social epistemologists They also use their sociological or anthropological research to infer epistemologically significant conclusions
