**Envy** Helmut Schoeck, 1969 Envy was first published in German in 1966 then in an English translation in 1970 This classic study is one of the few books to explore extensively the many facets of envy a drive which lies at the core of man's life as a social being Ranging widely over literature philosophy psychology and the social sciences Professor Schoeck a distinguished sociologist and anthropologist elucidates both the constructive and destructive consequences of envy in social life Perhaps most importantly he demonstrates that not only the impetus toward a totalitarian regime but also the egalitarian impulse in democratic societies are alike in being rooted in envy Envy Helmut Schoeck, Michael Glenny, Betty Ross, 1969

**A Theory of Justice** John Rawls, 1999 In this work the author argues that the correct principles of justice are those that would be agreed to by free and rational persons placed in the original position behind a veil of ignorance not knowing their own place in society their class race or sex their abilities intelligence or strengths or even their conception of the good Accordingly he derives two principles of justice to regulate the distribution of liberties and of social and economic goods In this new edition the work is presented as Rawls himself wishes it to be transmitted to posterity with numerous minor revisions and amendments and a new Preface in which Rawls reflects on his presentation of his thesis and explains how and why he has revised it The Oxford Handbook of Economic Conflict Resolution Gary E. Bolton, Rachel T. A.

A General Theory of Emotions and Social Life Warren D. TenHouten, 2006-11-22 Founded upon the psychoevolutionary theories of Darwin Plutchik and Izard a general socioevolutionary theory of the emotions affect spectrum theory classifies a wide spectrum of the emotions and analyzes them on the sociological psychological and neurobiological levels This neurocognitive sociology of the emotions supersedes the major theoretical perspectives developed in the sociology of emotions by showing primary emotions to be adaptive reactions to fundamental problems of life which have evolved into elementary social relationships and which can predict occurrences of the entire spectrum of primary complex secondary and tertiary emotions Written by leading social theorist Warren D TenHouten this book presents an encyclopaedic classification of the emotions describing forty six emotions in detail and presenting a general multilevel theory of emotions and social life The scope of coverage of this key work is highly topical and comprehensive and includes the development of emotions in childhood symbolic elaboration of complex emotions emotions management violence and cultural and gender differences While primary emotions have clearly defined valences this theory shows that complex emotions obey no algebraic law and that all emotions have both creative and destructive potentialities American Cool Peter N. cigarettes and the Peanuts cartoon s Joe Cool to West Side Story Keep cool boy and urban slang Be cool Chill out the idea of cool in its many manifestations has seized a central place in our vocabulary Where did this preoccupation with cool come from How was Victorian culture seemingly so ensconced replaced with the current emotional status quo From whence came American Cool These are the questions Peter Stearns seeks to answer in this timely and engaging volume American Cool focuses extensively on the transition decades from the erosion of Victorianism in the 1920s to the solidification of a cool culture in the 1960s Beyond describing the characteristics of the new directions and how they altered or amended earlier standards the book seeks to explain why the change occurred It then assesses some of the outcomes and longer range consequences of this transformation      *Encyclopedia of Ethics* Lawrence C.
