

A photograph of a winding dirt road through a dense forest of trees with vibrant red leaves. The road curves through the center of the frame, leading towards a distant mountain range under a cloudy sky. The overall mood is serene and romantic.

I want her with a ferocity that must
be equal to the desire to live. The
passion I feel for life matches the
passion with which I desire her.

Equal In Desire:

Equal in Desire Clive Matson,1982 **Courage Equal to Desire** Chibuzo Udealor,2012 **Classics in Austrian Economics, Volume 1** Israel M Kirzner,2024-10-28 This collection presents the key developments in the 120 year history of the Austrian School of Economics from the 1870s to the writings of Mises and Hayek **The Ethics of Abortion** Christopher Kaczor,2022-09-30 The overturning of Roe v Wade makes the ethical consideration of abortion more important than ever Appealing to reason rather than religious belief this book is the most comprehensive case against the choice of abortion yet published This third edition of The Ethics of Abortion critically evaluates all the major grounds for denying basic rights to fetal human beings including the views of those who defend not only abortion but also post birth abortion It also provides several non theological justifications for the conclusion that all human beings including those in utero should be respected as persons This book also critiques the view that abortion is not wrong even if the human fetus is a person The Ethics of Abortion examines hard cases for those who are prolife such as abortion in cases of rape or in order to save the woman s life as well as hard cases for defenders of abortion such as sex selection abortion and the rationale for being personally opposed but publicly supportive of abortion It concludes with a discussion of whether artificial wombs might end the abortion debate Answering the arguments of defenders of abortion this book provides reasoned justification for the view that all intentional abortions are ethically wrong and that doctors and nurses who object to abortion should not be forced to act against their consciences Updates and Revisions to the Third Edition Include Discusses Ahas Burin s 2014 essay Beyond Pragmatism Defending the Bright Line of Birth in chapter 3 Incorporates into chapter 8 David Boonin s cogently argued 2019 book Beyond Roe Why Abortion Should be Legal Even if the Fetus is a Person Expands chapter 9 to examine tragic cases in which prenatal diagnosis determines with certainty that a fetus will die shortly after birth Includes an updated and expanded section in chapter 11 on recent debates about conscience protections Considers in chapter 12 recent arguments that parents have a right to kill if the product of conception is in an artificial womb Updates statistics on numbers of abortions in the United States including corrections to statistics that were once thought true but are now known as erroneous Updated bibliography **Desire** G. F. Schueler,1995 Does action always arise out of desire G F Schueler examines this hotly debated topic in philosophy of action and moral philosophy arguing that once two senses of desire are distinguished roughly genuine desires and pro attitudes apparently plausible explanations of action in terms of the agent s desires can be seen to be mistaken Desire probes a fundamental issue in philosophy of mind the nature of desires and how if at all they motivate and justify our actions At least since Hume argued that reason is and of right ought to be the slave of the passions many philosophers have held that desires play an essential role both in practical reason and in the explanation of intentional action G F Schueler looks at contemporary accounts of both roles in various belief desire models of reasons and explanation and argues that the usual belief desire accounts need to be replaced Schueler contends that the plausibility of the standard belief

desire accounts rests largely on a failure to distinguish desires proper like a craving for sushi from so called pro attitudes which may take the form of beliefs and other cognitive states as well as desires proper Schueler's deliberative model of practical reasoning suggests a different view of the place of desire in practical reason and the explanation of action He holds that we can arrive at an intention to act by weighing the relevant considerations and that these may not include desires proper at all A Bradford Book

C B Macpherson Jules Townshend, 2019-08-08 In this sympathetic restatement of C B Macpherson's ideas Townshend provides an overview of Macpherson's theory of possessive individualism and critique of liberal democracy He suggests that criticism of Macpherson has been misplaced and asks whether his theories should now be given more prominence by political theorists This is the first book to deal comprehensively with the issues surrounding Macpherson's work previous studies have used him as a point of departure rather than the focus of detailed analysis and none have included an overall assessment of his thought Key Features Examination of Macpherson's project in its totality Defence of Macpherson against his liberal feminist Marxist and ecological critics Defence of his interpretation of Hobbes and Locke Demonstration of his continuing relevance for contemporary political philosophy and for the study of politics generally
