Retha M. Warnicke, 1983-04-28 Warnicke has written an excellent monograph dealing with an inordinately neglected topic the education of English women during the Tudor and early Stuart eras Her approach a generational one is both perceptive and insightful She carefully identifies the women and discusses the reasons and nature of their education as well as their accomplishments Equally masterful is her successful integration of the subject with the major historical ecclesiastical political and social currents of the time **Convention, 1500-1750** Lawrence Manley, 1980 A major reinterpretation of the development of European literary theory this wide ranging study offers a new approach to ways of thinking about man s work in general This book is a history of the idea of convention the roles it played in the formative

stages of English and Continental literary theory and in the development of modern thought In the Lion's Court Derek Wilson, 2014-12-02 The fates of Henry VIII's six Thomases Wolsey More Cromwell Howard Wriothesley and Cranmer a brilliant series of parallel portraits Library Journal The story of Henry VIII and his six wives is a well known example of the caprice and violence that dominated that king's reign Now Derek Wilson examines a set of relationships that more vividly illustrate just how dangerous life was in the court of the Tudor lion He tells the interlocking stories of six men all curiously enough called Thomas whose ambitions and principles brought them face to face with violent death as recorded in a simple mnemonic Died beheaded beheaded Self slaughtered burned survived Thomas Wolsey was an accused traitor on his way to the block when a kinder death intervened Thomas More and Thomas Cromwell whose convictions and policies could scarcely have been more different both perished beneath the headman's axe Thomas Howard Duke of Norfolk would have met the same end had the king's own death not brought him an eleventh hour reprieve Thomas Wriothesley Earl of Southampton and Thomas Cranmer Archbishop of Canterbury though outliving the monarch perished as a result of that war of ambitions and ideologies which rumbled on after 1547 Wriothesley succumbed to poison of either body or mind in the aftermath of a failed coup Cranmer went to the stake as a heretic at the insistence of Mary Tudor who was very much the daughter of the father she hated By showing how events shaped and were shaped by relationships and personal destinies Derek Wilson offers a fresh approach to the political narrative of a tumultuous reign Dualisms Ricardo J. Quinones, 2007-01-01 Dualism is a motif that runs through literature of all genres and historical contexts inspiring argumentation at the highest level and showing the formation of ideas in association as a creative exchange It arises with special pertinence in western literature since the Renaissance and Reformation In Dualisms noted scholar Ricardo J Quinones considers four major intellectual encounters Erasmus and Luther Voltaire and Rousseau Turgenev and Dostoevsky and Sartre and Camus These four instances Quinones argues are important for what they are and what they represent major intellectual contests that created the modern era and remain the agons of our time Through in depth analysis this study looks at the clarifications that emerged from four famous polemics Discerning an itinerary of their encounters Quinones suggests a shared paradigm of development that is true for each of the examples of dualism In all four cases the two participants represented the vanguard of their time and all of the debates started from shared intellectual positions until subsequent events revealed substantially different temperaments It is the inescapable tension and connection between prior affinities and the discord of debate that continue to intrigue us Dualisms is a tour de force encompassing intellectual history philosophy theology and literary criticism It provides fresh perspectives on some of the most famous intellectual debates in all of literature and considers the implications that they continue to have for the study of the humanities in the modern world Twynne's World Authors Series, 1975 *The Reformation Era, 1500-1650* Harold J. Grimm, 1973 Studies the causes character and consequences of the rise of Protestantism and the Catholic reforms within the context of European history *Freedom of speech, 1500-1850* Robert G.

Ingram,Jason Peacey,Alex W. Barber,2020-04-27 This collection brings together historians political theorists and literary scholars to provide historical perspectives on the modern debate over freedom of speech particularly the question of whether limitations might be necessary given religious pluralism and concerns about hate speech It integrates religion into the history of free speech and rethinks what is sometimes regarded as a coherent tradition of more or less absolutist justifications for free expression Contributors examine the aims and effectiveness of government policies the sometimes contingent ways in which freedom of speech became a reality and a wide range of canonical and non canonical texts in which contemporaries outlined their ideas and ideals Overall the book argues that while the period from 1500 to 1850 witnessed considerable change in terms of both ideas and practices these were more or less distinct from those that characterise modern debates
