Queerness in Pop Music Stan Hawkins, 2015-12-07 This book investigates the phenomenon of queering in popular music and video interpreting the music of numerous pop artists styles and idioms The focus falls on artists such as Lady Gaga Madonna Boy George Diana Ross Rufus Wainwright David Bowie Azealia Banks Zebra Katz Freddie Mercury the Pet Shop Boys George Michael and many others Hawkins builds his concept of queerness upon existing theories of opacity and temporality which involves a creative interdisciplinary approach to musical interpretation He advocates a model of analysis that involves both temporal specific listening and biographic oriented viewing Music analysis is woven into this illuminating aspects of parody nostalgia camp naivety masquerade irony and mimesis in pop music One of the principal aims is to uncover the subversive strategies of pop artists through a wide range of audiovisual texts that situate the debates on gender and sexuality within an aesthetic context that is highly stylized and ritualized *Queerness in Pop Music* also addresses the playfulness of much pop music offering insights into how discourses of resistance are mediated through pleasure Given that pop artists songwriters producers directors choreographers and engineers all contribute to the final composite of the pop recording it is argued that the staging of any pop act is a collective project The implications of this are addressed through structures of gender ethnicity nationality class and sexuality Ultimately Hawkins contends that queerness is a performative force that connotes futurity and utopian promise

Dignified Retreat Robert A. Schneider, 2019-10-31 *Dignified Retreat* is a panoramic study of the vibrant literary and intellectual culture that emerged in early seventeenth century France following the devastating Wars of Religion This was a period that not only witnessed the recovery of the country following these wars and the emergence of a strong absolutist monarchy under the Bourbons but also the rise and refinement of the French language and the development of a literary culture that would soon be known as French classicism Casting his net over a wide range of writers and intellectuals Robert A Schneider has

assembled a roster of more than 100 men and women of letters those constituting what he calls the generation of 1630 While diverse and indeed divided between those who hewed to traditional humanism and others more attuned to modern linguistic and literary developments this cohort largely shared a commitment to a cultural renewal of France its rise to prominence in the geopolitical arena of Europe and the emergence of a strong centralized monarchy They depended on both the traditional aristocracy and the king's powerful minister Cardinal Richelieu But despite this dependency these writers and intellectuals maintained a degree of independence and more significantly were the prime movers in crucial cultural developments that are too often identified with royal initiatives For example the Académie française founded in 1635 by Richelieu often considered formative in French cultural history was actually more the result of the creative initiatives of these men of letters which the savvy Cardinal only managed to co-opt and turn to the purposes of the crown
