## Es Hayyim:

**World Soul** James Wilberding, 2021-05-18 Many philosophers and scientists over the course of history have held that the world is alive. It has a soul which governs it and binds it together. This suggestion once so wide spread may strike many of us today as strange and antiquated. In fact there are few other concepts that so capture the sheer distance between us and our philosophical inheritance. But the idea of a world soul has held so strong a grip upon philosophers' imaginations for over 2 000 years that it continues to underpin and even structure how we conceive of time and space. The concept of the world soul is difficult to understand in large part because over the course of history it has been invoked to very different ends and within the frameworks of very different ontologies and philosophical systems with varying concepts of the world soul emerging as a result. This volume brings together eleven chapters by leading philosophers in their respective fields that collectively explore the various ways in which this concept has been understood and employed covering the following philosophical areas: Platonism, Stoicism, Medieval Indian or Vedantic Kabbalah, Renaissance, Early Modern German Romanticism, German Idealism, American Transcendentalism and contemporary quantum mechanics and panpsychism theories. In addition, short reflections illuminate the impact the concept of the world soul has had on a small selection of areas outside of philosophy such as harmony, the biological concept of spontaneous generation, Henry Purcell, psychoanalysis and Gaia theories.

*From Christianity to Judaism* Yosef Kaplan, 1989-01-01 Isaac Orobio de Castro a crypto Jew from Portugal was one of the most prominent intellectual figures of the Sephardi Diaspora in the seventeenth century. After studying medicine and theology in Spain and having pursued a distinguished medical career he was arrested by the Spanish Inquisition for practising Judaism, tortured, tired and imprisoned. He subsequently emigrated to France and became a professor of medicine at the University of Toulouse before openly professing his Judaism and going to Amsterdam where he joined the thriving Portuguese Jewish community. Amsterdam was then a city of great cultural creativity and religious pluralism where Orobio found open to him the world of religious thinkers and learned scholars. In this atmosphere he flourished and became an outstanding spokesman and apologist for the Jewish community. He engaged in controversy with Juan de Prado and Baruch Spinoza who were both excommunicated by the Portuguese Jewish community as well as with Christian theologians of various sects and denominations including Philip van Limborch.
