Keep Looking Ace Remas,2018-03-05 Hector Feck found gold for the first time at age sixty six It was a transforming experience As he pinched the single gold nugget from the black sand collected on the ridges of his pan he was astounded he felt no satisfaction in this discovery even after twenty years of occasional gold panning dredging and metal detector searches Instead he was disappointed Not because the nugget was too small It was not When washed and cleaned the nugget would fetch at least 1 500 money he sorely needed He realized as he inspected the nugget carefully all he had accomplished was to increase his desire for more gold which meant more searching for it and even when he found more he would not be satisfied He realized he would never be satisfied Nothing in this world would satisfy Except he remembered as if inspired by a vision the looking for gold He was satisfied with the activity So why continue to look for gold he asked himself If it was for the money then gold hunting was just another job
