**Humor, Satire, and Identity** Jill Twark, 2012-02-14 This is the first book in English to survey the Eastern German literary trend of employing humor and satire to come to terms with experiences in the German Democratic Republic and after the fall of the Berlin Wall As sophisticated attempts to make sense of socialism's failure and a difficult unification process these contemporary texts help define Germany today from a specific Eastern German perspective Grounded in politics and history ten humorous and satirical novels are analyzed for their literary aesthetics and language cultural critiques and socio political insights The texts include popular novels such as Thomas Brussig's *Helden wie wir* Ingo Schulze's *Simple Stories* and Jens Sparschuh's *Der Zimmerspringbrunnen* as well as lesser known but equally relevant works like *Schlehwins Giraffe* by Bernd Schirmer and *Katerfrucht* by Erich Loest A broad spectrum of humor and satire theories is applied to probe texts from various angles and suggest multi layered answers to the question of how these literary modes function in postwall Germany to construct a specifically Eastern German identity Interviews the author conducted with five of the satirists are appended as primary sources and contribute to the interpretation of the texts *Humor, Satire, and Identity* Jill E.

**Poet's Role** Ruth J. Owen, 2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification Literaturstreit The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989 Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes motifs and techniques The volume strikes a balance between giving a general overview of poetry written in 1989 1996 and focusing on individual poets whose work is particularly compelling After identifying broad trends across a wide range of individual poems collections and anthologies single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein The concluding chapter addresses the issue of a separate GDR literature Finally an extensive structured bibliography is provided covering the poetry literary criticism and cultural history of the period

Klocke, 2018-11-07 Literatur die sich in gesellschaftlichen und politischen Prozessen kritisch zu Wort meldet ist seit 1989 auch in Deutschland wieder deutlicher zu vernehmen Sie nimmt Stellung zu den dringend anstehenden Problemen wie Im Migration Re Nationalisierung Rassismus Globalisierung bewachungsstaat Neoliberalismus Die Formen und Weisen der literarischen Stellungnahmen sind Gegenstand der in diesem Band versammelten Untersuchungen AutorInnen wie Ulrich Peltzer Juli Zeh Kerstin Hensel Navid Kermani Uwe Tellkamp Antje R. *Not So Plain as Black and White* Patricia M. Mazón, Reinhild Steingröver, 2005 After World War II brown babies were born to African American GIs stationed in Germany and German mothers Today there are 500 000 Afro Germans in Germany out of a population of 80 million Nevertheless German society still sees them as foreigners

assuming they are either African or African American but never German As editors Patricia Mazon and Reinhild Steingrover argue the experience of Afro Germans provides insight into contemporary Germany's transformation willing or not into a multicultural society Furthermore looking at Afro Germans allows us to see another dimension of the ideas of race that shaped the twentieth century and led to the Holocaust Jacket

**Twenty Years on** Renate Reichtien, Dennis Tate, 2011 New essays on the evolution of cultural memory of the former German Democratic Republic since 1989/90 and its importance for Germany's continuing unification process Twenty years on from the dramatic events that led to the opening of the Berlin Wall and the collapse of the GDR the subjective dimension of German unification is still far from complete The nature of the East German state remains a matter of cultural as well as political debate This volume of new research focuses on competing memories of the GDR and the ways they have evolved in the mass media literature and film since 1989/90 Taking as its point of departure the impact of iconic visual images of the fall of the Wall on our understanding of the historical GDR the volume first considers the decade of cultural conflict that followed unification and then the emergence of a more complex and diverse textual memory of the GDR since the Berlin Republic was established in 1999 It highlights competing generational perspectives on the GDR era and the unexpected afterlife of the GDR in recent publications The volume as a whole shows the vitality of eastern German culture two decades after the demise of the GDR and the centrality of these memory debates to the success of Germany's unification process Contributors Daniel Argel's Stephen Brockmann Arne De Winde Wolfgang Emmerich Andrea Geier Hilde Hoffmann Astrid Kähler Karen Leeder Andrew Plowman Gillian Pye Benjamin Robinson Catherine Smale Rosemary Stott Dennis Tate Frederik Van Dam Nadezda Zemanová Renate Reichtien is Lecturer in German Studies and Dennis Tate is Emeritus Professor of German Studies both at the University of Bath UK

*German Literature in a New Century* Katharina Gerstenberger, Patricia Herminhouse, 2008-10-01 While the first decade after the fall of the Berlin wall was marked by the challenges of unification and the often difficult process of reconciling East and West German experiences many Germans expected that the new century would achieve normalization The essays in this volume take a closer look at Germany's new normalcy and argue for a more nuanced picture that considers the ruptures as well as the continuities Germany's new generation of writers is more diverse than ever before and their texts often not only speak of a Germany that is multicultural but also take a more playful attitude toward notions of identity Written with an eye toward similar and dissimilar developments and traditions on both sides of the Atlantic this volume balances overviews of significant trends in present day cultural life with illustrative analyses of individual writers and texts

**What Remains** Gerald Fetz, Patricia Herminhouse, 2025-11-01 Arguably the most important and influential German woman writer of the last century Christa Wolf was long heralded as die gesamtdeutsche Autorin an author for all of Germany but after 1989 in unified Germany Wolf found herself suddenly embroiled in controversies that challenged her integrity and consigned her to an ideologically suspect identity as DDR Schriftstellerin GDR writer or Staatsdichterin state poet What Remains Responses to

the Legacy of Christa Wolf asks the question of what truly remains of her legacy in the annals of contemporary German culture and history Unlike most of what appeared in the wake of Wolf's death however the contributions to this international volume seek neither to monumentalize her nor to dismantle her stature but to employ a range of methodologies comparative intertextual psychoanalytic historical transcultural to offer sensitive assessments of Wolf's major literary texts as well as of her lesser known work in genres such as film and essay

Monsters, Monstrosities, and the Monstrous in Culture and Society Diego Compagna, Stefanie Steinhart, 2020-01-28 Existing research on monsters acknowledges the deep impact monsters have especially on Politics Gender Life Sciences Aesthetics and Philosophy From Sigmund Freud's essay The Uncanny to Scott Poole's *Monsters in America* previous studies offer detailed insights about uncanny and immoral monsters However our anthology wants to overcome these restrictions by bringing together multidisciplinary authors with very different approaches to monsters and setting up variety and increasing diversification of thought as guiding patterns Existing research hints that monsters are embedded in social and scientific exclusionary relationships but very seldom copes with them in detail Erving Goffman's doesn't explicitly talk about monsters in his book *Stigma* but his study is an exceptional case which shows that monsters are stigmatized by society because of their deviations from norms but they can form groups with fellow monsters and develop techniques for handling their stigma Our book is to be understood as a complement and a further development of previous studies The essays of our anthology pay attention to mechanisms of inequality and exclusion concerning specific historical and present monsters based on their research materials within their specific frameworks in order to create engaging constructive critical and diverse approaches to monsters even utopian visions of a future of societies shared by monsters Our book proposes the usual view that humans look in a horrified way at monsters but adds that monsters can look in a critical and even likewise frightened way at the very societies which stigmatize them

Rereading East Germany Karen Leeder, 2016-01-14 This volume is the first to address the culture of the German Democratic Republic GDR as a historical entity but also to trace the afterlife of East Germany in the decades since the fall of the Berlin Wall An international team of outstanding scholars offers essential and thought provoking essays combining a chronological and genre based overview from the beginning of the GDR in 1949 to the unification in 1990 and beyond with in depth analysis of individual works A final chapter traces the resonance of the GDR in the years since its demise and analyses the fascination it engenders The volume provides a rereading of East Germany and its legacy as a cultural phenomenon free from the prejudices that prevailed while it existed offering English translations throughout a guide to further reading and a chronology

*Literary Communication from Consensus to Rupture* Colin Barr Grant, 2023-03-13 This study the first of its kind in English sets out to analyse literature as a form of social communication by considering developments in literary theory and practice in the German Democratic Republic in the Honecker era Attention focuses on the changes in the discourses of literary theory and literary practice in a semi public sphere controlled by an increasingly ossified political

discourse Key developments in the 1970s hailed by GDR theorists as the point of departure for a new kind of literary communication in society are carefully examined The study then contrasts these idealised views of literature as social communication with practice and theory in the late 1970s and 1980s In clear trends in practice and to a lesser extent in theory communication was perceived as being increasingly problematic and conflictual The development from this sense of destabilisation to the rupturing in communication between literature and society between literature and political authority and in literature itself became more salient in the 1980s as its forms and themes radically challenged the mounting stagnation of the discourse of political power These conflicts are illustrated and discussed with the aid of detailed analyses of key literary texts and previously unpublished interviews with leading theorists

**Tracing German Visions of Eastern Europe in the Twentieth Century** Jenny Watson, Michel Mallet, Hanna Schumacher, 2022

Reconsidering the German tendency to define itself vis vis an eastern Other in light of fresh debate regarding the Second World War this volume and the cultural products it considers expose and question Germany's relationship with its imagined East Germany has long defined itself in opposition to its eastern neighbors its ideas around cultural prestige and its expressions of xenophobia seem inevitably to return to an imagined eastern Other Central to the consideration of such projections is the legacy of the Second World War the subject of fresh debate since 1989 after four decades of political antagonism and cultural disjuncture the events of the war on the Eastern Front have been rediscovered by Western audiences and have come to occupy complex shifting positions in the memory culture of the postsocialist states However German ignorance of Eastern European experiences of war and genocide enduring stereotypes and prescriptive ideas about remembrance have been major stumbling blocks to the emergence of a transnational memory culture considered just by all parties Despite mass immigration to Germany from the east and intensive contact between German speakers and its cultures German language cultural production continues largely to represent Eastern Europe as unknown wild and inaccessible By contrast the writers and filmmakers under discussion in the present volume have worked with and against such tropes to put forward alternative perspectives Like their works the contributions to this volume place the conflicts and prejudices of the twentieth century into a wider historical perspective exposing and questioning the nature of Germany's relationship with its
