literature **Edward MacDowell - His Work and Ideals** Elizabeth Fry Page,2007-03 PREFACE THE Author of this very
practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have
written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way
of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The
writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew
that the perusal of it would create any bond of sympathy between himself and the angling community in general This section
is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case
of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject
Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked
upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been
written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns
will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch
fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm
prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a
good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout

stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing **The**

Boyhood of Edward MacDowell Abbie Farwell Brown,1924 Edward MacDowell, an American Master Alan Howard Levy,1998 Edward MacDowell was one of the finest composers of nineteenth century America In his lifetime MacDowell s fame was widespread throughout Europe and the United States his music was praised by none other than Franz Liszt Jules Massenet and Edvard Grieg While his fame was extensive MacDowell s place in music began to fade after his untimely and tragic death in 1908 and his music and reputation has since suffered a certain neglect Alan Levy s biography is the first full length work on MacDowell and draws extensively on personal papers and letters largely closed from public access until recently Levy challenges the omission of MacDowell from most musical histories and returns the spotlight to this long overlooked composer Levy covers MacDowell s early life and schooling in New York his musical studies in France and Germany and his emergence as a keyboard artist and composer From there the biography moves on to MacDowell s successful career in Boston and in Peterboro New Hampshire Levy concludes with MacDowell s tenure as the first Professor of Music at Columbia University and his untimely decline and death There is also discussion of Marian MacDowell s successful establishment of the MacDowell Colony for Artists which continues to the present day Alan Levy elegantly captures the story of this composer who enjoyed musical talent and relative popular success during his lifetime He brings together a great deal of otherwise inaccessible information and material on a somewhat muted voice in American Music History Edward MacDowell; a Great American Tone Poet, His Life and Music George Anson Wedge,John Fielder Porte,2013-04-07 MacDowell E. Edward MacDowell and His Music Marian MacDowell, 1950

MacDowell E. Douglas Bomberger, 2013-07-09

Edward MacDowell was born on the eve of the Civil War into a Quaker family in lower Manhattan where music was a forbidden pleasure. With the help of Latin American migrant teachers he became a formidable pianist and composer, spending twelve years in France and Germany establishing his career. Upon his return to the United States in 1888 he conquered American audiences with his dramatic Second Piano Concerto and won his way into their hearts with his poetic Woodland Sketches. Columbia University tapped him as their first professor of music in 1896 but a scandalous row with powerful university president Nicholas Murray Butler spelled the end of his career. MacDowell died a broken man four years later but his widow Marian kept his spirit alive through the MacDowell Colony which she founded in 1907 in their New Hampshire home and which is today the oldest and one of the most influential thriving artist colonies in the United States. Drawing on private letters that were sealed for fifty years after his death, this biography traces MacDowell's compelling life story with new revelations about his Quaker childhood, his efforts to succeed in the insular German music world, his mysterious death, and his lifelong struggle with Seasonal Affective Disorder. Edward MacDowell's story is a timeless tale of human strength and weakness set in one of the most vibrant periods of American musical history when optimism about the country's artistic future made anything seem possible.

American E. Douglas Bomberger, 2017 This collection of essays explores topics of relevance to understanding Edward MacDowell, 1860-1908, and his music. At the height of his career, MacDowell was widely recognized as America's leading composer. He had come of age during an era when the infrastructure of concert music in the United States was expanding rapidly, as outlined in Javier Albo's description of historical concerts in New York during his childhood. MacDowell came from an unusual background that resulted from the interaction between his father's Quaker roots, described in Douglas Bomberger's essay, and his mother's ambitious goals. He benefited from the early advocacy of his mother's best friend, the Venezuelan pianist Teresa Carreño, whose support of MacDowell is explored in Laura Pita's essay. He studied for two years in Paris and then spent a decade in Germany studying with Liszt's pupil Raff and establishing his career. The crucial influences of Wagner and Liszt on MacDowell's style are explored in essays by Francis Brancialeone and John Graziano. He lived in Boston from 1888 to 1896, during which time he was in close contact with George Whitefield Chadwick, an American contemporary whose career as an organist is examined in an essay by Marianne Betz. MacDowell's growing body of works for piano and orchestra earned him the reputation of America's most important young composer, which led to his appointment as first professor of

music at Columbia University in 1896 His contributions as a teacher were ended after eight years by a public dispute with President Nicholas Murray Butler explored in Michael Joiner s essay Columbia continued to feel the tension of the issues raised by MacDowell and Butler for generations as demonstrated in Mark Radice s discussion of Chou Wen chung s experience on the faculty from the 1960s through the 1990s After MacDowell s death at the age of forty seven his widow Marian developed their Peterborough NH farm into an artists colony that is still prominent today Robin Rausch s essay richly illustrated with photos from the Library of Congress shows how she gained support for her efforts through summer pageants
