Effective Mainstreaming Spencer J. Salend, 1994 Effective Mainstreaming Spencer J. Salend, 1990 Special Educational Needs and Inclusive Education: Effective practices David R. Mitchell, 2004 Demonstrates how the fields of special education and inclusive education have evolved philosophically and technically over the past 30 years *Inclusive Education For Children With Cognitive Impairment At Elementary Level* Dr.K.S.Swapana, The role of evidence in developing effective educational inclusion Joseph Mintz, Brahm Norwich, 2023-12-13 There has been considerable interest internationally in how research can be effectively translated to have an impact on practice in schools The application of evidence informed approaches in the field of education is contested and debated Such debates are intensified in relation to the issue of how best to include children with diverse learning needs in the classroom The role of knowledge science and evidence in how we both conceptualize and best support children with special educational needs and other forms of diversity in the classroom remains an open question in terms of both policy and practice Although there is a considerable and growing body of literature on evidence informed practice in education in general there has been less attention paid to its implications for the domain of educational inclusion specifically However tensions between differing conceptualisations of difference and the role of categorisation present questions as yet not fully answered as to the ways in which evidence can and should articulate with practice in this specific domain For example issues of what is inclusion the place of norms and values that define inclusion how we conceptualize and think about difference across culture language and cognition are raised when we think about the application of evidence to practice in the area of educational inclusion **Disability Studies and the Inclusive Classroom** Susan Baglieri, 2017-04-21 Disability Studies and the Inclusive Classroom is a core textbook that integrates knowledge and practice from the fields of disability studies and special education The second edition has been fully revised and updated throughout to include stronger connections between race class sexual orientation gender and disability to emphasize intersecting identities and experiences stronger emphasis on curriculum and teaching rather than on attitudes toward disability and updates to current events cultural references resources research literature laws and policies *Inclusive Schools in Action* James McLeskey, Nancy L.
