Become Effective Communicator at All Levels David A. Osei, 2019-11-27 Effective communication is a very important skill which you must learn if you want to move ahead in your career No matter what you do and what your intentions are but if you cannot communicate effectively then your whole idea of progressing will fail You cannot tell your plans and goals without an effective communication technique If you are confused while explaining something then people will think that will also be confused while attempting that thing This is natural gesture which every normal person will give you You would have seen around that there are some people with a very confident and alert tone and these people always tend to be more successful and managed in their lives than those who lack self confidence and effective communication skills This is not because the second types of people do not have the working capabilities but it is just that they cannot motivate people to work for them and they can never convince people effectively to team up with them There are certain techniques which can help you out in enhancing your effective communication skills and these techniques will tell you exactly what you lack in being a good speaker as well as a very good listener Some people think that just speaking and expressing is communication but you should know that listening is another very important part of the communication When you listen then you can express yourself and these expressions encourage or discourage the speaker to continue his talks In this EBook I will try to demonstrate all the important techniques which can help you in improving your effective communication and making it more and more effective for yourself **Effective Communication Skills** Angelina Zork, 2020-12-19 **Effective Communication Skills**
