Episcopal Ordination And Ecclesial Consensus:

Episcopal Ordination and Ecclesial Consensus Sharon L. McMillan, 2005 This study provides the historical and liturgical foundations for the election of bishops Provided by publisher *A Theology of the Church for the Third Millennium* Kenan Osborne, 2009-11-01 At the beginning of the new millennium the Christian Churches are in a process of renewal The Roman Catholic Church since Vatican II has been in a major stage of renewal Contemporary globalization multi cultural interrelationships and inter religious dialogues have presented serious challenges to these renewal efforts In this volume I want to offer to the Catholic Renewal and from there to other denominational renewals a view of the church from the rich tradition of Franciscan philosophy and theology To date there are only a few books which include small essays on this theme This volume presents an in depth Franciscan approach to ecclesiology **Rites of Ordination** Paul F.

Bradshaw, 2013 A Pueblo book Includes index Includes bibliographical references and index Table of Contents Historical and typological background Ministry in the earliest Christian communities Ministry and ordination in the third and fourth centuries Early ordination rites Ordination rites in the churches of the East Ordination rites in the medieval West The theology of ordination in the Middle Ages Orders and ministry in the churches of the Reformation The Roman Catholic Church from the Council of Trent to the present Other modern ordination rites *The Sacraments and Consumer Culture* Timothy Brunk, 2020 What does consumerism have to do with the sacraments We live in cultures where our senses of meaning identity and purpose are often found in what we purchase Apart from the question of hedonism there is the question of how we orient ourselves in an environment in which we end up marketing our very selves In this book Timothy Brunk examines how this consumer culture has had a corrosive effect on the seven sacraments of the Catholic Church He also assesses how sacramental worship can provide resources for responsible Christian discipleship in today's consumer culture

Papers Presented at the Fifteenth International Conference on Patristic Studies Held in Oxford 2007 Jane Baun, 2010 **A Companion to Priesthood and Holy Orders in the Middle Ages** Greg Peters, C. Colt

Anderson, 2015-11-02 In *A Companion to Priesthood and Holy Orders in the Middle Ages* a select group of scholars explain the rise and function of priests and deacons in the Middle Ages Though priests were sometimes viewed through the lens of function the medieval priesthood was also defined ontologically those marked by God who performed the sacraments and consecrated the Eucharist While their role grew in importance medieval priests continued to fulfil the role of preacher confessor and provider of pastoral care As the concept of ordination changed theologically the practices and status of bishops priests and deacons continued to be refined with many of these medieval discussions continuing to the present day

Ritual Meanings in the Fifteenth-Century Motet Robert Michael Nosow, 2012-02-02 The first large scale study of how fifteenth century motets were used across Western Europe dispelling the mysteries surrounding these outstanding works **Electing Our Bishops** Joseph O'Callaghan, 2007-03-09 How does one become a bishop in the Catholic Church

Electing our Bishops How the Catholic Church Should Choose Its Leaders explains how history politics and religious tradition converge to produce the episcopacy The book gives an historical overview from the earliest times when bishops were elected by the clergy and people of the diocese to the present day where they are normally appointed by the pope In light of the current clergy sexual abuse scandal many distinguished theologians canonists and church historians have called for greater popular participation in the selection of bishops and Electing our Bishops discusses ideas for new forms of election that involve both clergy and laity This book is an important tool for Catholics who want to understand the history and process of the election of bishops as well as how the process might change in the future

Understanding Medieval Liturgy Helen Gittos, Sarah Hamilton, 2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period

Dressing Judeans and Christians in Antiquity Kristi Upson-Saia, Carly Daniel-Hughes, Alicia J. Batten, 2016-05-13 The past two decades have witnessed a proliferation of scholarship on dress in the ancient world These recent studies have established the extent to which Greece and Rome were vestimentary cultures and they have demonstrated the critical role dress played in communicating individuals identities status and authority Despite this emerging interest in ancient dress little work has been done to understand religious aspects and uses of dress This volume aims to fill this gap by examining a diverse range of religious sources including literature art performance coinage economic markets and memories Employing theoretical frames from a range of disciplines contributors to the volume demonstrate how dress developed as a topos within Judean and Christian rhetoric symbolism and performance from the first century BCE to the fifth century CE Specifically they demonstrate how religious meanings were entangled with other social logics revealing the many layers of meaning attached to ancient dress as well as the extent to which dress was implicated in numerous domains of ancient religious life

Bishops and the Politics of Patronage in Merovingian Gaul

Gregory I. Halfond, 2019-09-15 Following the dissolution of the Western Roman Empire local Christian leaders were confronted with the problem of how to conceptualize and administer their regional churches As Gregory Halfond shows the bishops of post Roman Gaul oversaw a transformation in the relationship between church and state He shows that by constituting themselves as a corporate body the Gallic episcopate was able to wield significant political influence on local regional and kingdom wide scales Gallo Frankish bishops were conscious of their corporate membership in an exclusive order the rights and responsibilities of which were consistently being redefined and subsequently expressed through liturgy dress physical space preaching and association with cults of sanctity But as Halfond demonstrates individual bishops motivated by the promise of royal patronage to provide various forms of service to the court often struggled sometimes unsuccessfully to balance their competing loyalties However even the resulting conflicts between individual bishops did not he shows fundamentally undermine the Gallo Frankish episcopate s corporate identity or integrity Ultimately Halfond provides a far more subtle and sophisticated understanding of church state relations across the early medieval period

The Catholic Periodical and Literature Index ,2006 **Art, Power, and Resistance in the Middle Ages** Pamela A. Patton, 2025-01-07 This volume addresses a vital point of intersection between images in the Middle Ages and those in the modern world the potential of medieval works of art to convey messages of power and resistance Provoked by the misuse of medieval imagery in modern discussions the contributors to this volume assess how medieval images connect to discourses of power in both the past and the present The contributors each began with a single question In the eyes of their makers and viewers how were medieval images understood to assert or to resist forces of power Their case studies come from a wide range of cultural geographic and historical contexts the Byzantine Ottonian and Valois courts the Umayyad and Castilian regimes of the Iberian Peninsula the pluralistic military and commercial zones of the eastern Mediterranean and the metaphorical as well as personal battlegrounds linked to medieval courtly love culture Over eight chapters the authors highlight patterns of visual rhetoric still evident in art today They invite readers to contemplate how modern priorities and sensibilities might amplify mute or transform the discourses related to power and resistance that were threaded through the visual culture of the Middle Ages This insightful book should be of value to anyone interested in medieval art history and art s relationship to power and authority in society In addition to the editor the contributors include Heather A Badamo Elena N Boeck Thomas E A Dale Martha Easton Eliza Garrison Anne D Hedeman Tom Nickson and Avinoam Shalem **Synodality in Europe - Theological Reflections on the Church on Synodal Paths in Europe** Margit Eckholt, The publication of the ESCT European Society for Catholic Theology with the title Synodality in Europe reflects on the synodal process in Europe and challenges of theological work in view of the learning process to become a synodal church The different articles lay theological foundations of synodality they present regional and world church perspectives they show tensions and processes of pluralisation which are understood as a laboratory of synodality related to the liberating and healing Gospel of Jesus Christ

Most of the authors are members of different sections of ESCT in Belgium Croatia Czech Republic France Germany Ireland Lithuania Portugal Slovakia and Spain Integrated are also a protestant and two world church contributions

Understanding the Religious Priesthood Christian, OSB Raab, Brian E., SJ Daley, 2020-10-14 Most contemporary theologies of Holy Orders consider priesthood mainly in its diocesan context and most contemporary theologies of religious life do not consider how ordained ministry functions when it is internal rather than external to religious life *Understanding the Religious Priesthood* provides a history and theology of religious priesthood that contributes to our understanding of this vocation s identity and mission It uncovers what religious priesthood shares with diocesan priesthood and non ordained religious life and what makes it different from both those other vocations Christian Raab begins by tracing the history of religious priesthood from its origins in the early Church to the eve of the Second Vatican Council He demonstrates that religious priests often faced questions about how to reconcile their two callings but that they also provided answers in their theologies and spiritualities of priesthood and religious life Meanwhile they made key contributions to the Church s life and mission Raab then investigates the teachings of the Second Vatican Council on priesthood and religious life Observing that the Council presented priesthood according to a diocesan typology and presented religious life without sacerdotal associations he argues that the lack of imagery of religious priesthood contributed to a post conciliar vocational identity crisis among religious priests He then seeks to remedy this lacuna by appealing to the biblical images for religious priesthood Hans Urs von Balthasar offered in his theology of vocations Raab argues that Balthasar s imagery is a promising way forward for understanding the identity and mission of religious priesthood In a final part Raab provides a substantial theological articulation of religious priesthood which illuminates its liturgical signification ecclesial mediation and mission and ministerial identity Here he draws not only from Balthasar but also from Pope John Paul II Yves Congar Jean Marie Tillard Brian Daley and Guy Mansini to construct his profile **American Ecclesiastical Review** ,1967 **The Harvard Theological Review** ,1913 **Piety and Plurality** Glenn Thomas Miller, 2014-06-09 I began studying American theological education in the 1970s and *Piety and Plurality* is the third of three studies In *Piety and Intellect* I examined the colonial and nineteenth century search for a form of theological education that was true to the church s confessional traditions and responsible to the intellectual demands of the age In *Piety and Profession* I described how that model was modified under the impact of the new biblical criticism and by the American belief in professionalism In this volume I have tried to bring the story up to date Unfortunately I did not find one unifying theme for the period Rather theological education seemed to move forward on a number of different levels each with its own story Here I have tried to capture some of the dynamics of this movement and to indicate how theological educators have struggled with the plurality in their midst In the process theological education has learned to live with its contradictions and problems As important as the stories are however there is also the story of the schools struggles to live in the midst of a constant financial crisis that checked development at every

stage
