In the last decades Audi's work has deeply influenced different important philosophical discussions ranging from epistemology theory of action and philosophy of rationality to ethics philosophy of religion and political philosophy. The critical examinations collected in this book reflect the breadth of Audi's contributions in discussing topics as diverse as epistemological foundationalism and the theory of testimony ethical intuitionism the problem of evil and religion's public place within a liberal democracy. Besides his replies to each critical engagement the volume contains an extensive essay on the problems of perception and cognition written by Audi himself. This volume will be of enormous use to all scholars interested in the younger history of American philosophy and one of its leading figures. It will also appeal to philosophers and curious readers with an interest in the endeavor of designing a comprehensive theory of rationality and human reasoning.

**Orientalia** F. Young, Mark J. Edwards, Paul M. Parvis, 2006. Papers presented at the Fourteenth International Conference on Patristic Studies held in Oxford 2003; see also *Studia Patristica* 39, 40, 42 and 43. The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford; they are held under the aegis of the Theology Faculty of the University. Members of these conferences come from all over the world and most offer papers. These range over the whole field both East and West from the second century to a section on the *Nachleben* of the Fathers. The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts. The smaller number of longer papers put such matters into context and indicate wider trends. The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject.
