The Church in the Early Modern Age C. Scott Dixon, 2016-03-24 The years 1450 1650 were a momentous period for the development of Christianity They witnessed the age of Reformation and Counter Reformation perhaps the most important era for the shaping of the faith since its foundation C Scott Dixon explores how the ideas that went into the making of early modern Christianity re oriented the Church to such an extent that they gave rise to new versions of the religion He shows how the varieties and ambivalences of late medieval theology were now replaced by dogmatic certainties where the institutions of Christian churches became more effective and modern staffed by well trained clergy Tracing these changes from the fall of Constantinople to the end of the Thirty Years War and treating the High Renaissance and the Reformation as part of the same overall narrative the author offers an integrated approach to widely different national social and cultural histories Moving beyond Protestant and Catholic conflicts he contrasts Western Christianity with Eastern Orthodoxy and examines the Church s response to fears of Ottoman domination

[The Authentic Paul](#) Gregory Fewster, 2025-04-01 Written in the first century and compiled in the New Testament the letters of the Apostle Paul have served as a reservoir of divine authority for Christians Yet from the time of their writing experts have claimed that some letters were altered or forged Even after centuries and generations of critical scholarship an authentic book of Paul s letters lacks consensus The Authentic Paul traces the efforts of scholars from antiquity to the modern period who endeavoured to make an authoritative book of Paul s letters free from textual variation and forgery Engaging recent trends in the study of religion and book history it challenges one of philologists fundamental assumptions that authenticity is an inherent property of literature that can be recovered or destroyed Gregory Fewster draws the philology of Paul in both its ancient and modern forms into the wider world of critical philology and its dynamic traditions of practice Through analyses of ancient papyri and literary texts early print journals and critical editions he shows how the

value of authenticity is entangled with the ways that scholars assess Paul's legitimacy and their own amid dense literary landscapes and intellectual debates. The Authentic Paul illustrates in vibrant detail what it means in a world full of texts to make the letters of Paul authentic and why practices of authentication are always culturally determined.

The Reformation of the Literal Erik Lundeen, 2025-01-23 What does it mean to read the Bible literally? Recent debates on the Protestant reformers have focused on whether they were stridently literal interpreters or maintained a place for allegorical readings. However, in this nuanced book, Lundeen argues that the question of what in fact constituted the Bible's literal sense was also a key question in early modern debates. There is no clean binary of literal versus allegorical; instead, reformers subtly produced a variety of competing literalisms. There was not one literal sense in the Reformation but many. To make this case, Lundeen comparatively analyzes Reformation era commentaries on the prophet Isaiah. He further highlights the little-known but influential works of the Basel reformer Johannes Oecolampadius, who was the first Christian to publish commentaries on most of the biblical prophets in the sixteenth century. By placing Oecolampadius in conversation with a host of his better-known Christian and Jewish predecessors and contemporaries, this book reframes a central aspect of Reformation era biblical exegesis while also providing a constructive resource for those who seek to read the Bible's ancient prophets as Christian scripture today.

The Oxford Dictionary of the Christian Church Andrew Louth, 2022-02-17 Uniquely authoritative and wide-ranging in its scope, The Oxford Dictionary of the Christian Church is the indispensable reference work on all aspects of the Christian Church. It contains over 6,500 cross-referenced A-Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject, from theology, churches, and denominations, patristic scholarship, and the Bible to the church calendar and its organization, popes, archbishops, other church leaders, saints, and mystics. In this new edition, great efforts have been made to increase and strengthen coverage of non-Anglican denominations, for example, non-Western European Christianity, as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe. In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the increasingly important area of moral and pastoral theology, among many others. Since its first appearance in 1957, the ODC has established itself as an essential resource for ordinands, clergy, and members of religious orders, and an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

of the Church of England For Cranmer the glory of God was his love for the unworthy the heart of theology was proclaiming this truth through word and sacrament Hence the focus of both was on the life of on going repentance remembering God s gracious love inspired grateful human love *The Oxford Handbook of the Bible and the Reformation* Jennifer Powell McNutt,Herman J. Translating Investments Judith H. Anderson, 2005 The title *Translating Investments* a manifold pun refers to metaphor and clothing authority and interest and trading and finance Translation Latin *translatio* is historically a name for metaphor and investment etymologically a reference to clothing participates both in the complex symbolism of early modern dress and in the cloth trade of the period In this original and wide ranging book Judith Anderson studies the functioning of metaphor as a constructive force within language religious doctrine and politics literature rhetoric and economics during the reigns of the Tudors and early Stuarts Invoking a provocative metaphorical concept from Andy Clark's version of cognitive science she construes metaphor itself as a form of scaffolding fundamental to human culture A more traditional and controversial conception of such scaffolding is known as sublation Hegel's *Aufhebung* or raising as the philosophers Jacques Derrida and Paul Ricoeur have understood this term Metaphor is the agent of raising or sublation and sublation is inseparable from the productive life of metaphor as distinct in its death in code or cliché At the same time metaphor embodies the sense both of partial loss and of continuity or preservation also conveyed by the term *Aufhebung* Anderson's study is simultaneously critical and historical History and the theory are shown to be mutually enlightening as are a wide variety of early modern texts and their specific cultural contexts From beginning to end this study touches the present engaging questions about language rhetoric and reading within post structuralism and neo cognitivism It highlights connections between intellectual problems active in our own culture and those evident in the earlier texts controversies and crises Anderson analyzes In this way the study is bifocal like metaphor itself While Anderson's overarching concern is with metaphor as a creative exchange a source of code breaking conceptual power each of her chapters focuses on a different but related issue and cultural sector Foci include the basic conditions of linguistic meaning in the early modern period instantiated by Shakespeare's plays and related to modern theories of metaphor the role of metaphor in the words of eucharistic institution under Archbishop Cranmer the play of metaphor and

metonymy in the writings of Luther Zwingli and Calvin and in John Donne's Devotions the manipulation of these two tropes in the politics of the controversy over ecclesiastical vestments and in its treatment by John Foxe the abuse of figuration in the house of Edmund Spenser's *Busirane* where catachresis an extreme form of metaphor is the trope du jour the conception of metaphor in the Roman rhetorics and their legacy in the sixteenth century and the concept of exchange in the economic writing of Gerrard de Malynes merchant and metaphorist in the reigns of Elizabeth and James What emerges at the end of this book is a heightened critical sense of the dynamic of metaphor in cultural history

Biblical Interpretation from the Church Fathers to the Reformation Karlfried Froehlich, 2024-10-28 The history of biblical interpretation has attracted considerable attention in recent decades This is particularly true in the field of medieval exegesis where much effort has been spent on making primary materials available and advancing their interpretation One area of research in which even the most basic questions are still under debate is the phenomenon of the biblical Glossa Ordinaria the standard Bible commentary used by Christian theologians from the twelfth century to the Reformation Part I of the present collection unites the author's major contributions to Glossa studies its origin its false ascription to Walafrid Strabo its use among the preachers of the thirteenth and fourteenth century and the Reformers both Catholic and Protestant of the sixteenth A central concern here is the fascinating history of the printed Gloss which began with the Strasbourg edition of 1480 81 Part II concentrates on the image of two central New Testament figures the Apostles Peter and Paul in biblical exegesis The studies illuminate the pivotal role in the history of the church played by certain shifts in the understanding of Petrine texts and trace conflicting tendencies in the interpretation of Paul down to the Reformation of the sixteenth century Three of the thirteen essays have not been published before

Biblical Scholarship in Louvain in the 'Golden' Sixteenth Century Antonio Gerace, 2019-07-15 Antonio Gerace dealt with the development of biblical scholarship in Louvain by analysing with seven authors who worked in the first part of the Sixteenth century and who are strictly linked to the Louvain milieu In chronological order they include Nicholas Tacitus Zegers c 1495 1559 John Henten 1499 1566 Cornelius

Jansenius of Ghent Adam Sasbout John Hessels 1522 1566 Thomas Stapleton and Francis Lucas of Bruges Each author offered key contributions that can effectively show the development of Catholic biblical scholarship in that period This can be divided into three main thematic areas 1 Text criticism of the Latin Vulgate 2 Exegesis of the Scriptures and 3 Preaching of the Bible Somehow these three areas represent the study flow of the Scriptures the emendation of the Vulgate aimed at restoring the text to a hypothetical original and the philological approach to the Greek and Hebrew sources allowing for a better comprehension of the Bible Such comprehension becomes the basis of commentaries made with the intention of explaining the meaning of the Scriptures to the faithful in the light of the Tradition Furthermore the Church needed to preach the Scriptures and their contents to the Catholic flock in order to safeguard them from any heretical influence Therefore several homiletic works appeared so that priests could prepare their sermons appropriately Therefore Gerace divided his work into three parts each devoted to one of the three research areas following the study flow of the Scriptures
