Eritrea And Ethiopia The Federal Experience:

Eritrea and Ethiopia Tekeste Negash,1997 This book examines the rise and fall of the Ethio Eritrean federation which existed from 1952 to 1962 The author argues that the federation was abolished by Eritrean social and political forces rather than by Ethiopia The UN imposed federation and its constitution was doomed to fail as these were foreign to Eritrean and Ethiopian conceptions of power **Unity in Diversity** Christophe van der Beken,2012 This book argues that the development of federalism in Ethiopia fits in with a global trend towards increased attention to ethnic minority rights and to federalism as a mechanism for ethnic conflict prevention and management The Ethiopian federation is designed as a framework within which the Ethiopian ethnic groups can protect their rights and within which they are stimulated to develop a cooperative relationship To put it differently the constitutional objective of the federal structure is the creation of unity in diversity The book evaluates the capacity of Ethiopian federalism to achieve this objective by investigating the relevant historical political and legal aspects Series Recht und Politik in Afrika Law and Politics in Africa Vol 10 Understanding Eritrea Martin Plaut,2017-02-01 The most secretive repressive state in Africa is hemorrhaging its citizens In some months as many Eritreans as Syrians arrive on European shores yet the country is not convulsed by civil war Young men and women risk all to escape Many do not survive their bones littering the Sahara their bodies floating in the Mediterranean Still they flee to avoid permanent military service and a future without hope As the United Nations reported Thousands of conscripts are subjected to forced labor that effectively abuses exploits and enslaves them for years Eritreans fought for their freedom from Ethiopia for thirty years only to have their revered leader turn on his own people Independent since 1993 the country has no constitution and no parliament No budget has ever been published Elections have never been held and opponents languish in jail International organizations find it next to impossible to work in the country Nor is it just a domestic issue By supporting armed insurrection in neighboring states it has destabilized the Horn of Africa Eritrea is involved in the Yemeni civil war while the regime backs rebel movements in Somalia Ethiopia and Djibouti This book tells the untold story of how this tiny nation became a world pariah Thinking Outside the Box Eva Poluha,2016-01-28 This book sets out with the question why Ethiopia a country with one of the oldest still existing state formations in the world and a farming population that has domesticated a number of indigenous food products including coffee oilseeds and Eragrostis teff remains one of the poorest in the world To answer this question the authors review the history of Ethiopia from the earliest centuries A D until the 21st century dispelling a number of prevalent myths in the process The book covers topics such as ethnicity a hot issue in todays Ethiopian politics international relations with especially Britain and Italy and the countrys lack of technical and economic progress A survey of the current situation in Ethiopia sets the scene for comparisons with other countries An examination of the history of the West illustrates how the autonomy of intellectual inquiry could promote a spiral of knowledge pave the way for the Industrial Revolution and allow western countries to attain the highest standard of living in

the world A review of some East Asian countries Japan South Korea and Taiwan exemplifies how they could catch up with the West Against the backdrop of these studies the authors find the basic causes for Ethiopias poverty to be missed or messed up opportunities to adopt available scientific knowledge and technology Premising that a decent living standard a catch up should be the only reasonable goal also for Ethiopian citizens the authors propose that the country must emphasize promotion of a knowledge and information rather than focusing numbers of school children and schools and of b entrepreneurship in all economic sectors To boost these requirements successfully the authors argue that all involved in the present development agenda need to think outside the box and reassess at least two common assumptions about Ethiopias future namely that only heavy handed state guidance can bring about rapid development and that peasants and pastoralists are ignorant and must be told what to do **Kordafan Invaded** Endre Stiansen,Michael Kevane,1998 The book will be of interest to scholars of Africa and Islam because of its novel focus on regional institutions and their relation to state structures

by territorial gains and losses counter intuitively territorial stalemate tends to promote rebel cohesion and is a critical basis for cooperation in war As a rare effort to examine these issues in the context of the Horn of Africa region based upon extensive fieldwork this book will interest both scholarly and non scholarly audiences interested in insurgent groups and conflict dynamics Italian Colonialism R. Nonviolence Senthil Ram,Ralph Summy,2008 The so called war on terror has gone badly for the West playing directly into the strategy of al Qa ida and the rest of the terrorist network Why did this happen Were

there other approaches that might have been implemented with better prospects of success This edited collection of perspectives on the non violent counter to terrorism opens the topic to serious consideration The development of a non violent paradigm brings into sharp focus the deficiencies of present thinking and paves the way for comprehending how non violence might overcome those deficiencies and introduce viable alternatives Since there is a general ignorance about the history theory and operational dynamics of non violence these aspects are featured throughout the book and related to the special case of terrorism To understand empathetically the background and mind set of the opponent without condoning his actions to study his culture to avoid the strategic trap he has set to examine the different gender reactions of a Muslim Society to differentiate between non violent Islam and Islamic Terrorism to jettison the misinformed baggage we carry about violence to appreciate the positive role education and aesthetics can play and to investigate ways in which a non violent counter to terrorism might be staged including a Gandhian response These are just some of the tasks that the contributors have collectively pursued Their ideas excitingly open up a whole new set of possibilities for a more peaceful world
