Boundaries and Secession in Africa and International Law Dirdeiry M. Ahmed,2015-12-11 This book challenges a central assumption of the international law of territory The author argues that contrary to the finding in the Frontier Dispute case uti possidetis is not a general principle of law enjoining states to preserve pre existing boundaries on state succession It demonstrates that African state practice and opinio juris gave rise to customary rules that govern sovereign territory transfer in Africa It explains that those rules changed international law as it relates to Africa in many respects leading chiefly to creating norms of African jus cogens prohibiting secession and the redrawing of boundaries The book examines in depth the singularity of secession in Africa exploring extensive state practice and case law Finally it advances a daring argument for a right to egalitarian self determination addressing people to people domination in multi ethnic African states to serve as an exception to the fast special customary rule against secession

Biopolitics, Militarism, and Development David O'Kane,Tricia Redeker Hepner,2009-03-01 Bringing together original contemporary ethnographic research on the Northeast African state of Eritrea this book shows how biopolitics the state led deployment of disciplinary technologies on individuals and population groups is assuming particular forms in the twenty first century Once hailed as the African country that works Eritrea s apparently successful post independence development has since lapsed into economic crisis and severe human rights violations This is due not only to the border war with Ethiopia that began in 1998 but is also the result of discernible tendencies in the high modernist style of social mobilization for development first adopted by the Eritrean government during the liberation struggle 1961 1991 and later carried into the post independence era The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions policies and discourses Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted This insightful comparative volume places the Eritrean case in a broader global and transnational context

Destabilising Interventions in Somalia Debora Valentina Malito,2019-11-05 This book is a critical reading of contemporary interventionism exploring how interventions shape the course of conflicts and reconciliation processes in Somalia In a critical departure from the state capacity consensus that has dominated the debate on terrorism and state failure this book argues that conflict and sovereignty transformations in Somalia cannot be understood as the result of a gap in state capacity as multiple interventions have compromised the autonomy of the target state and society to act as sovereign Destabilising Interventions in Somalia focuses on the humanitarian intervention of the mid 1990s the Ethiopia Eritrean regional proxy war in the late 1990s and the Global War on Terror in the 2000s Examining the politics and mechanisms of multiple interventions this book shows how interveners complicate and amplify existing conflicts how they reiterate the international dimension of the conflict itself and how they orient the target state towards the outsourcing of sovereignty functions Key to this process has been the violent and exclusionary nature of interventions grounded in the aspiration of transforming existing political orders Destabilising Interventions in Somalia will be of interest to students of African peace and conflict studies international intervention and International Relations

Failed Imagination? Andrew Williams,2013-01-18 The main purpose of this book is to explain how mainly American but also British and other Western policy makers have planned and largely managed to create an international order in their own image the so called New World Order It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty first centuries It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order one that both reflects the American national interest but also can be said to have established the major security economic organisational and normative pillars of our epoch In addition it provides excellent background reading for the current debate about American foreign policy and the origins of neo conservatism in international relations This edition updates a very successful first edition of the title with additional material to take into account changes in the global order since 2001 and the beginning of the War on Terror

Theatre, Globalization and the Cold War Christopher B. Balme,Berenika Szymanski-Düll,2017-06-05 This book examines how the Cold War had a far

reaching impact on theatre by presenting a range of current scholarship on the topic from scholars from a dozen countries. They represent in turn a variety of perspectives, methodologies, and theatrical genres including not only Bertolt Brecht, Jerzy Grotowski, and Peter Brook, but also Polish folk dancing, documentary theatre, and opera production. The contributions demonstrate that there was much more at stake and a much larger investment of ideological and economic capital than a simple dichotomy between East versus West or socialism versus capitalism might suggest. Culture and theatrical culture, in particular, with its high degree of representational power, was recognized as an important medium in the ideological struggles that characterize this epoch. Most importantly, the volume explores how theatre can be reconceptualized in terms of transnational or even global processes, which it will be argued were an integral part of Cold War rivalries.

Modern African Conflicts Timothy J. Stapleton, 2022-06-30. An essential resource for students or general readers interested in post-colonial Africa, this encyclopedia provides coverage of different regions, countries, wars, battles, factions, leaders, and foreign powers. Armed conflict represents a substantial part of African history since around 1960, yet this history is either insufficiently taught or overshadowed by negative stereotypes about African tribal warfare. This encyclopedia provides concise historical information on conflicts that occurred in post-colonial Africa. The entries cover all the regions of Africa: North, West, Central, East, and Southern. The Cold War and post-Cold War periods feature a range of important leaders, various types of conflicts (from civil wars and insurgencies to conventional military engagements), involvement of foreign powers, and such themes as airpower, women and war, and genocide.

Secession and Conflict Zheger Hassan, 2023-02-15. The overthrow of Saddam Hussein in 2003 in Iraq opened the door for Kurdish nationalists to move toward outright independence. Despite the recent visibility of the Kurds in the international media, little is known about their political aspirations as citizens of an autonomous region. In *Secession and Conflict*, Zheger Hassan employs a comparative analysis to explore why Iraqi Kurdistan, despite being better positioned institutionally and economically than the similar cases of South Sudan and Kosovo, has not declared independence. In rebuilding Iraq and fighting against the Islamic State, the Kurds have cultivated important political alliances with the US and Europe, which have garnered them international economic, military, and political support. Though now well positioned to function as an independent state, Iraqi Kurdistan has vacillated in seizing this golden opportunity to declare independence. The apparent Kurdish willingness to forgo independence runs counter to the prevailing narratives about the Kurds in the Middle East. Hassan draws not only on the history of the Kurds but also on first-hand interviews with high-ranking officials, journalists, and nationalists to provide a new window into the calculations of Kurdish leaders as they navigate the complicated politics of Iraq. *Secession and Conflict* offers a new model for understanding the Kurdish question in Iraq.

The Making of Elite Women Tanja Müller, 2021-11-29. This book is a thorough study about the upbringing of elite women in Eritrea, encompassing the time of the armed struggle for liberation as well as its aftermath up to the tenth anniversary of Eritrean independence in 2001 and beyond. It is a multi-disciplinary study combining a comprehensive analysis

of Eritrean history society and political developments with extensive case study research into the lives of different groups of elite women Modernisation processes created by the Eritrean revolution fostered an environment in which women are regarded as equal and encouraged to occupy positions of leadership At the same time the revolution s hegemonic ideology does not envisage women opting out of its version of modernity thus new avenues open up only for those who subscribe to the revolution s narrative of progress Furthermore it is argued that while the Eritrean revolution played a decisive role in opening up possibilities for women s emancipation a failure to implement democratic structures of governance puts the revolution s societal achievements at risk its legacy might well rest with possibilities of personal liberation in individual lives
