standard for modern writers Meanwhile he used his celebrity to create a persona like the stoic macho heroes of his fiction After a decline during the 1930s and 1940s he came roaring back with *The Old Man and the Sea* in 1952 Two years later he received the Nobel Prize While his popularity waxed and waned during his lifetime Hemingway's reputation among scholars remained strong as long as traditional scholarship dominated New approaches beginning in the 1960s brought a sea change however finding grave fault with his work and making him a figure ripe for vilification Yet during this time scholarship on him continued to appear His works still sell well and several are staples on high school and college syllabi A new scholarly edition of his letters is drawing prominent attention and there is a resurgence in scholarly attention to and approbation for his work *Tracing Hemingway's critical fortunes* tells us something about what we value in literature and why reputations rise and fall as scholars find new ways to examine and interpret creative work Laurence W Mazzeno is President Emeritus of Alvernia University Among other books he has written volumes on Austen Dickens Tennyson Updike and Matthew Arnold for Camden House's *Literary Criticism in Perspective* series

Hauhart, 2024-07-01 *Significant Food* is a collaborative work of textual analysis and criticism that chews on the role and prominence of food in American literature The volume offers close readings of many well known and some less well known examples of American writing as studied through the food culture sensibilities of a well stocked cupboard of contributors who offer their analyses for public consumption Editors Jeff Birkenstein and Robert C Hauhart find that literary criticism has focused on the role food plays in literary production to a greater extent than recognized at first glance and that its role has become increasingly common only in the last two decades Still while there is critical commentary regarding authors use of food across the expanse of American literature there has been a lack of a unifying critical theory to guide these analyses Birkenstein and Hauhart offer the theory of significant food a method that asks literary critics to evaluate and assess the extent nature and role that food plays in literary production When food and food moments are used intensively and significantly within the drama memoir poem novel short story or other writing then one can say that it has achieved a status that makes it indispensable to the work at hand

Brett Ashley Harold Bloom, 1991 *John Steinbeck* Harold Bloom, 2003 Examines the life and work of twentieth century American author John Steinbeck featuring a biographical profile critical analysis of the themes symbols and ideas in his writing a selection of critical essays a chronology and references
