Masterbuilder Solness Strindberg's Captain in *The Father* Kafka's K and Joyce's autobiographical hero Stephen Dedalus. The all-encompassing conspiracy very much in its original Rousseauvian cast has become almost the normal way of representing society and its institutions since World War Two, giving impetus to heroic plots and counter plots in a hundred films and in the novels of Burroughs, Heller, Ellison, Pynchon, Kesey, Mailer, DeLillo and others. From Paranoia and Modernity, Paranoia, suspicion and control have preoccupied key Western intellectuals since the sixteenth century. Paranoia is a dominant concern in modern literature and its peculiar constellation of symptoms—grandiosity, suspicion, unfounded hostility, delusions of persecution and conspiracy—are nearly obligatory psychological components of the modern hero. How did paranoia come to the center of modern moral and intellectual consciousness? In *Paranoia and Modernity*, John Farrell brings literary criticism, psychology and intellectual history to the attempt at an answer. He demonstrates the connection between paranoia and the long history of struggles over the question of agency: the extent to which we are free to act and responsible for our actions. He addresses a wide range of major authors from the late Middle Ages to the eighteenth century, among them Luther, Bacon, Cervantes, Descartes, Hobbes, Pascal, La Rochefoucauld, Swift and Rousseau. Farrell shows how differently paranoid psychology looks at different historical junctures with different models of agency, and in the epilogue *Paranoia and Postmodernism* he draws the implications for recent critical debates in the humanities.
