## **Ernst Troeltsch And Liberal Theology:**

Ernst Troeltsch and Liberal Theology Mark Chapman, 2001-11-09 This is the first discussion in English of the ethical implications of German liberal theology in the early years of the twentieth century It avoids pejorative interpretative categories such as culture protestantism seeking instead to understand a much neglected period on its own terms The leading figure Ernst Troeltsch 1865 1923 is treated as a public theologian engaging at many different levels with his social and political context and trying to ensure that religion could continue to shape the future course of history To understand his context he made use of the tools of the emergent discipline of sociology and also entered into dialogue with philosophers and historians Troeltsch s public theology is contrasted with other liberal models of theology particularly those of the New Testament scholar Wilhelm Bousset and the systematic theologian Wilhelm Herrmann who were far more reluctant to engage seriously with their context and as a result isolated religion from its wider social and intellectual setting Troeltsch s theological solution is also compared with Max Weber s sociological response to the problems of modernity Troeltsch s ideas of cultural synthesis are seen as both constructive and critical and as having much to contribute to contemporary social and political theology *Ernst Troeltsch and Liberal Theology* Mark David Chapman, 2001 Chapman assesses the German liberal theological tradition in the early years of the 20th century concentrating in particular on the work of Ernst Troeltsch

*Studies in the Theological Ethics of Ernst Troeltsch* Max A. Myers, Michael R. LaChat, 1991 Is there a future for liberal theology That was a question which Ernst Troeltsch asked in print overtly or indirectly in almost every piece on theology that he wrote This study explores the doubts Troeltsch had about the study of religion the religious life about science as applied to culture and the future of civilization *Ernst Troeltsch and Comparative Theology* Echol Lee Nix, 2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of liberal Protestantism Troeltsch insists that theology s method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch s methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age The Christian Faith Ernst Troeltsch, 1991-01-01 The first English translation of Troeltsch s Glaubenslehre The first attempt to do systematic theology

from a deep Christian commitment with full awareness of Christianity's social and historical relativity

**Troeltsch's Eschatological Absolute** Evan F. Kuehn, 2020-04-01 Ernst Troeltsch is widely recognized as having played an important role in the development of modern Protestant theology but his contribution is usually understood as largely critical of traditional modes of theological inquiry. He is best known for his historicist critique of dogmatic theology and seen either as the closing chapter of nineteenth-century liberalism or as a proto-postmodernist. Central to this pivotal period in modern theology stands the problem: how can we articulate a doctrine of ultimate reality such that a meaningful and coherent account of the world is available without our understanding of God thereby becoming conditioned by the world itself? Evan Kuehn demonstrates that historiographical assumptions about twentieth-century religious thought have obscured the coherence and relevance of Troeltsch's understanding of God, history, and eschatology. An eschatological understanding of the Absolute, Kuehn contends, stands at the heart of Troeltsch's theology and the problem of historicism with which it is faced. Troeltsch's eschatological Absolute must be understood in the context of questions that were being raised at the turn of the twentieth century both by research on New Testament apocalypticism and by modern critical methodologies in the historical sciences. His theory of the Absolute is central to his views on religion and religious ethics and provides practitioners of constructive studies in religion with important resources for engaging with sociological and historical studies where Troeltsch's status as a classical figure is widely recognized.

**Reinventing Liberal Christianity** Theo Hobson, 2013-10-16 In past years, liberal Christianity challenged centuries of authoritarian tradition and had great political influence. Today it is widely dismissed as a watering down of the faith, and more conservative forms of Christianity are increasingly dominant. Can the liberal Christian tradition recover its influence? Hobson argues that a simple revival is not possible because liberal Christianity consists of two traditions. He aims to transform liberal Christianity through the rediscovery of faith and ritual.

*A History of Christian Theology (Repack)* Gerald Bray, 2024-10-29 A Historical Examination of Christian Theology through a Trinitarian Framework. Theology is important. But so is the story behind the specific doctrines that have been debated, defined, and refined throughout church history. In this book, professor Gerald Bray introduces readers to the history of Christian theology: the Trinity, our doctrine of God, and the Bible, our knowledge of God. Unlike other books on the topic, Bray's volume is not organized primarily by time period or distinct doctrinal categories. Rather, it puts theology first and history second, following a Trinitarian pattern that begins with God the Father, moves on to God the Son, and ends with God the Holy Spirit. This unique approach offers readers a more holistic understanding of the development of theology, paralleling the order in which the church wrestled through challenging theological issues and controversies related to God, man, and salvation. Accessible. Aimed at non-specialists, not just the academic community. Unique Organization. Uses a Trinitarian framework to provide a more holistic understanding of the development of theology. Historical. Explores the Jewish background behind the development of Christian theology. Written by Gerald Bray, an internationally renowned historian and theologian. Replaces

ISBN 978 1 4335 2694 7      *Theology at the End of Culture* Russell Re Manning, 2005 This book is a reconsideration of Paul Tillich's 1886/1965 project of a theology of culture and art Concentrating on Tillich's widely neglected pre emigration writings 1910/1933 Re Manning reconstructs and defends Tillich's proposals for theology of culture as a philosophically sophisticated programme of theological engagement with culture and art On the boundary between the extremes of liberal Christian humanism and neo orthodox isolationism Tillich's project is shown to be a powerful continuation of the mediatory intentions of the Schleiermacher Troeltsch line of modern Protestant theology to overcome the intolerable gap between religion and culture Drawing heavily on Tillich's incorporation of Schelling's positive philosophy into the deep structure of this theology Re Manning argues that Tillich's Idealistic Romantic theology of mediation provides a way through the entrenched oppositions of the divided mind of twentieth century theology to a constructive theology of cultural engagement Further this book offers an assessment of the continued relevance of Tillich's project in the situation of contemporary philosophical theology Beyond the dominant antithetical types of postmodern theology Mark C Taylor's a theology and the radical orthodoxy of John Milbank Re Manning argues for the possibility of a Tillichian postmodern theology of culture able to engage with the spiritual situation at the end of culture      **From Dogmatics to Liberal Theology and**

**Religionswissenschaft** Richard Edward Harry, 2022 The present study revisits both historically and analytically the work of Ernst Troeltsch 1865/1923 centering its interpretive lens primarily around his various theoretical and methodological contributions to Religionswissenschaft Roughly analogous to what we today would call or recognize as the wide ranging and arguably loosely knit field of religious studies Troeltsch's approach to Religionswissenschaft was an expression of foundational epistemological debates that affected the entire disciplinary matrix of the emerging cultural Kultur or human sciences Geisteswissenschaften Troeltsch transcribed how the study of religion had reoccupied deep philosophical issues connected to the eighteenth century question of the relationship between the Enlightenment ideal of Reason and the traditional or premodern theistic self understanding of Western civilization The dissolution of the dogmatic Christian worldview and its adjoining conception of Church authority was the starting point for Troeltsch's multipronged justification of Religion as a viable category The autonomy of scientific socio historical inquiry meant that the operative theoretical horizon of the History of Religions School had turned comparative while being irreversibly expanded to include the totality of human religions Troeltsch's liberal theology would also have to forego conversation stopping appeals to supernatural revelation bernat rlichen Offenbarung 1991b 87/88 Troeltsch's framework for Religionswissenschaft matured during the late nineteenth century and through the First World War He was an early twentieth century heir of German Idealism suffering through a generational post Hegelian philosophical malaise that culminated in collective fears about civilizational anomie a crisis of values and meaning Troeltsch interpreted Nietzsche's madman prophecies about the death of God viz the onset of European Nihilismus and the overcoming berwindung of Christian metaphysics morality and culture by means of a

triumphant will to power as a condensed symbol and direct assault on both Enlightenment rationalism and Western religious consciousness. Haunted by Relativismus both ethical and epistemological, Troeltsch's socio-cultural writings on the conflict-ridden modern spirit (*Geist*) had a taste for melodramatic mandarin themes of spiritual bankruptcy and cultural collapse. Sadly, the tragic course of historical events would prove that he was no alarmist. Troeltsch presciently foresaw that this profound irrationalist deformation in German philosophy was linked to a budding propensity for post-truth barbaric statolatry. Troeltsch retraced these cultural anxieties which were aggravated by the dizzying pace of accelerated social change to the modern scientific disenchantment of the cosmos and its heightened sense of historical consciousness (*historische Bewußtsein*), defined loosely as a deepening insight into the plurality of worldviews and the contingency of religious reasons, cultural values, and practical forms of rationality. Troeltsch wrote seriously about *Die Krisis des Historismus* (1922) as an epistemological and cultural problem, and he fully integrated this concern into his thinking about *Religionswissenschaft*, *Kulturgeschichte*, and the post-WWI future of Europe. Troeltsch finalized his career in Berlin as a prestigious philosopher of culture dedicated to building a democratic Weimar Republic, critiquing nationalist power politics and situating Christian liberal theology and ethics within the broader socio-historical discourse of comparative *Weltreligionen*. Analytic respect for the content of Troeltsch's constructive project reveals systematicity and coherence. Regarding the nature of historical consciousness and its relationship to religious consciousness, the foundational concerns of *Religionswissenschaft* steered Troeltsch headlong into many longstanding and definitive problems within the Western philosophical tradition. The systematic study of religion, Troeltsch summarized in 1922, exhibits its greatest depth and power in the way it summons the mind to confront the antinomy of metaphysics and history, placing both sets of problems in intimate cross-fertilization. 1991b: 366. The constructive portion of Troeltsch's *Religionswissenschaft* settled on critical idealism, a Baden Neo-Kantian conception of transcendental freedom and rationality that made ample room for faith while limiting philosophy's traditional metaphysical ambitions. Hegel's ontological excesses and theological oversteps rendered his teleological philosophy of history into a crude self-glorification fantasy, but Troeltsch found it important not to throw the idealist baby out with the Absolutist bathwater. Functioning as a Neo-Kantian value theory (*Werttheorie*), Troeltsch's *Religionswissenschaft* offered an epistemology and philosophy of culture which presupposed a normative conception of rationality that seeks out universal validity in its basic ends or value orientations. Moreover, Troeltsch's philosophy of religion reincorporated Schleiermacher's mystical notion of religious consciousness (*religiöse Bewußtsein*) right into the very heart of Kant's tripartite economy of practical reason that is operative within and underlying rationality in its self-legislating theoretical, moral, and aesthetic forms. Troeltsch believed it was necessary to be suspicious and critical toward all concrete claims of Absoluteness, but idealism's obsession with the problem of normative rationality and its relation to *das Absolute* could not be completely vanquished or pragmatically deflated. Troeltsch's *Werttheorie* operates formally as a species of epistemological transcendentalism, holding that

autonomous and valid ideals provide some sort of a priori bulwark against historicist relativism in its many guises 1999 45 Troeltsch ultimately endorsed Platonismus an ontologically grounded metaphysics of value and theistic Personalismus These overbeliefs carried him beyond the sphere of Religionswissenschaft proper but Troeltsch nevertheless saw the scientific discipline as being compatible with a liberal and non dogmatic Christian lifeworld Lebenswelt and faith Glaubenslehre

**Christ Without Absolutes** Sarah Coakley, 1988 Can Christians continue to worship Jesus Christ as the full final and absolute revelation of God in an age of historical relativism an expanding universe and the impinging of other world faiths on Western culture This bold and penetrating study goes to the heart of the debate between traditionalists and liberals such as Ernst Troeltsch who would answer no Coakley argues that a liberal approach to Christology in fact opens up many new and liberating possibilities for the future of Christianity Kierkegaard's Influence on Theology: German Protestant theology Jon Bartley Stewart, 2012 Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be instrumental for Kierkegaard's breakthrough internationally shortly after the turn of the twentieth century Leading figures of the movement of dialectical theology such as Karl Barth Emil Brunner Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard's thought among generations of German theology students Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of Kierkegaard's published works Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times Faith and Modern Thought Timothy Hull, 2020-10-29 Get the full picture Understand the whole story Faith and Modern Thought is a jargon busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern world especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired Tim Hull provides the wider intellectual picture the fuller philosophical story in which modern theology was forged After an engaging introduction to the European Enlightenment and the cultural crisis it triggered the stage is set to understand the essence of modern theology From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored exposing a deep rooted indebtedness to the Enlightenment tradition

Stackhouse Jr Tite Ti nou and Kevin J Vanhoozer      Volume 10, Tome I: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be instrumental for Kierkegaard s breakthrough internationally shortly after the turn of the twentieth century Leading figures of the movement of dialectical theology such as Karl Barth Emil Brunner Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard s thought among generations of German theology students Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of Kierkegaard s published works Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times      The Anthem Companion to Ernst Troeltsch Christopher Adair-Totef, 2017-12-15 The Anthem Companion to Ernst Troeltsch is the first collection of essays in English devoted to the thinking of Ernst Troeltsch The eight essays are written by scholars who have been recognized as major contributors to works on Troeltsch many of them have published books on his theology These essays are devoted to exploring Troeltsch s ethical sociological and political ideas in addition to his theological concepts The collection aims to depict Troeltsch as a major sociologist and important philosopher in addition to being one of the most significant German theologians of the late nineteenth and early twentieth centuries      **Critical Theory and Political Theology** Paul S. Chung, 2019-05-02 This book deals with the aftermath of the enlightenment and its legacy in the political social and racial context It discusses the incomplete project of modernity in terms of social contract theory racial justice issues and political theology in the postcolonial context Hermeneutical realism and cultural linguistic inquiry become substantial features in elaborating postcolonial political theology and its ethical stance against the colonization of lifeworld and its pathologies A study of critical theory and political theology is of a reconstructive character in seeking to relocate critical theory and political ethics in the context of alternative modernities at the level of postcolonial theory      **Exploring Lost Dimensions in Christian Mysticism** Louise Nelstrop, Simon D. Podmore, 2016-04-15 Mystical theology has developed through a range of meanings from the hidden dimensions of divine significance in the community s interpretation of its scriptures to the much later science of the soul s ascent into communion with God The thinkers and questions addressed in this book draws us into the

heart of a complicated beautiful and often tantalisingly unfinished conversation continuing over centuries and often brushing allusively into parallel concerns in other religions Raising fundamental matters of epistemology representation metaphysics and divine reality contributors approach the mystical from postmodern feminist sociological and historical perspectives through thinkers such as Meister Eckhart Thomas Aquinas Catherine of Siena Ignatius of Loyola William James Evelyn Underhill Ernst Troeltsch Rudolf Otto Jacques Derrida Jean Luc Marion and Jean Louis Chr tien Medieval and early modern radical prophetic approaches are also explored This book includes new essays by Sarah Apetrei Tina Beattie Raphael Cadenhead Oliver Davies Philip Endean Brian FitzGerald Ann Loades George Pattison Simon D Podmore Joel D S Rasmussen and Johannes Zachhuber *The Encyclopedica of Christianity, Vol. 5* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth **To See History Doxologically** J. Alexander Sider, 2011-04-12 In the minds of many Christians today the church is not holy it is difficult Yet J Alexander Sider argues that it is precisely when the church acknowledges its many faults and frailties when it patiently confronts its own capacity to betray the gospel that its true holiness is made manifest In *To See History Doxologically* Sider probingly examines John Howard Yoder s eschatology and ecclesiology in conversation with Oliver O Donovan Ernst Troeltsch Miroslav Volf and others Sider shows how Yoder s thought redefines the church s holiness not as something earned or possessed by its own virtue but as the ceaseless and ever new gift of God throughout all time
