Kenealy Thetichborne Cause A Study In:

Kenealy and the Tichborne Cause Michael Roe, 1974 In 1852 Roger Charles Doughty Tichborne abandoned the army and sailed for South America toured Chile crossed the Andes and was last sighted alive on a ship called the Bella which left Rio de Janeiro on 20 April 1854 bound for Kingston Jamaica it was never seen again in 1865 a butcher calling himself Tomas Castro from Wagga Wagga Australia came forward claiming to be Sir Roger in Paris Lady Tichborne recognized him as her son on 10 January 1867 most of the Tichborne family insisted that the new arrival was an impostor The Claimant looked nothing like Roger he was also unable to speak French in which Roger had been fluent and he had scant knowledge of Roger's past enquiries in Australia and South America then began to connect the Claimant with Arthur Orton b Mar 20 1834 a former sweetheart of Orton's identified the Claimant as Orton d Apr 1 1898 *Cultivating Victorians* David Wayne Thomas, 2004-01-21 This volume makes a bold and highly sophisticated contribution to Victorian cultural studies as it explores the historical interrelations between Victorian aestheticism and liberalism Extremely ambitious *Feminism and Feminists After Suffrage* Julie V. Gottlieb, 2017-10-02 What happened in women's history after the vote was won Was the suffragette spirit quashed by the advent of the First World War and due to the achievement of women's partial 1918 and then equal 1928 suffrage thereafter by having to wait to be reclaimed by the Women's Liberation Movement only in the late 1960s This collection explores how individual feminists and the feminist movement as a whole responded to the achievement of the central goal of votes for women For many the post suffrage years were anti climactic and there is no disputing that the movement was in numerical decline struggling to appeal to a younger generation of women who knew nothing of the sacrifices that had been made to secure their citizenship rights and new freedoms However feminists went in new and different directions identifying pressing issues from pacifism to religious reform from local activism to party politics Women also organised around causes that were not explicitly feminist or were even anti feminist and this book makes the important distinction between women in politics and women's feminist activism The range of feminist activism in the aftermath of suffrage speaks for the successes and mainstreaming of feminism and contributors to this volume contest the narrative of a terminal feminist decline between the wars This book was originally published as a special issue of *Women's History Review*

Currents of Radicalism Eugenio F. Biagini, Alastair J. Reid, 1991-06-28 Those who were originally called radicals and afterwards reformers are called Chartists declared Thomas Duncombe before Parliament in 1842 a comment which can be adapted for a later period and as a description of this collection of papers those who were originally called Chartists were afterwards called Liberal and Labour activists In other words the central argument of this book is that there was a substantial continuity in popular radicalism throughout the nineteenth and into the twentieth century The papers stress both the popular elements in Gladstonian Liberalism and the radical liberal elements in the early Labour party The first part of the book focuses on the continuity of popular attitudes across the commonly assumed mid century divide with studies of

significant personalities and movements as well as a local case study The second part examines the strong links between Gladstonian Liberalism and the working classes looking in particular at labour law taxation and the Irish crisis The final part assesses the impact of radical traditions on early Labour politics in Parliament the unions and local government The same attitudes towards liberty the rule of law and local democracy are highlighted throughout and new questions are therefore posed about the major transitions in the popular politics of the period

Who's Who? Maggie Nolan, Carrie Dawson, 2004 Brings together for the first time essays that consider a range of high profile cases of literary hoaxing identity crisis or imposture in Australian literature Critics explore the history of hoaxing and imposture and consider the cultural and political issues at stake Nolan at Australian Catholic University

The Tichborne Claimant Rohan McWilliam, 2007-05-22 The extraordinary case in 1874 of the Tichborne Claimant generated the longest trial to that point in British legal history The case divided the nation along political religious and social lines and the campaign for justice for the Claimant proved a focus for political activism between the defeat of the Chartists and rise of the Labour Party

Sex Scandal William A. Cohen, 1996 Never has the Victorian novel appeared so perverse as it does in these pages and never has its perversity seemed so fundamental to its accomplishment By viewing this fiction alongside the most alarming public scandals of the day Cohen exposes both the scandalousness of this literature and its sexiness In narratives ranging from *Great Expectations* to the Boulton and Park sodomy scandal of 1870 71 from Eliot's and Trollope's novels about scandalous women to Oscar Wilde's writing and his trials for homosexuality Cohen shows how in each instance sexuality appears couched in coded terms He identifies an assortment of cunning narrative techniques used to insinuate sex into Victorian writing demonstrating that even as such narratives air the scandalous subject they emphasize its unspeakable nature Written with an eye toward the sex scandals that still whet the appetites of consumers of news and novels this work is suggestive about our own modes of imagining sexuality today and how we arrived at them

Lawyers' Empire W. Wesley Pue, 2016-07-28 Approaching the legal profession through the lens of cultural history Wes Pue explores the social roles lawyers imagined for themselves in England and its expanding empire from the late eighteenth to the mid twentieth century Each chapter focuses on a critical moment when lawyers whether leaders or rebels sought to reshape their profession In the process they often fancied they were also shaping the culture and politics of both nation and empire as they struggled to develop or adapt professional structures represent clients or engage in advocacy As an exploration of the relationship between legal professionals and liberalism at home or in the Empire this work draws attention to recurrent disagreements as to how lawyers have best assured their own economic well being while simultaneously advancing the causes of liberty cultural authority stability and continuity

The Difficulties of My Position John Buckley Castieau, 2004 A career in the Victorian penal system might not seem to be a source of excitement or even great interest but for John Buckley

Castieau it was the trigger for nearly three decades of diaries that reveal not only what went on behind prison walls but also much about the colony's early history J B Castieau was the governor of both Beechworth and Melbourne gaols as well as somewhat disastrously the Inspector General of Penal Establishments Page 4 of cover *Documenting the World* Gregg Mitman, Kelley Wilder, 2016-12-20 Imagine the twentieth century without photography and film Its history would be absent of images that define historical moments and generations the death camps of Auschwitz the assassination of John F Kennedy the Apollo lunar landing It would be a history in other words of just artists renderings and the spoken and written word To inhabitants of the twenty first century deeply immersed in visual culture such a history seems insubstantial imprecise and even perhaps unscientific *Documenting the World* is about the material and social life of photographs and film made in the scientific quest to document the world Drawing on scholars from the fields of art history visual anthropology and science and technology studies the chapters in this book explore how this documentation from the initial recording of images to their acquisition and storage to their circulation has altered our lives our ways of knowing our social and economic relationships and even our surroundings Far beyond mere illustration photography and film have become an integral transformative part of the world they seek to show us Citizenship and Community Eugenio F. Biagini, 2002-06-20 In 1883 the radical journalist W E Adams described community self government as the essence of all political liberalism that is worthy of the name This collaborative volume of essays enlarges upon Adams thesis applying it to the study of various currents of radicalism in Britain and Ireland and ranging from Victorian advanced liberals to Irish and Welsh socialists in the 1920s *Citizenship and Community* explores the links between liberalism social democracy and nationalism within the framework of classical republican ideals of civic virtue and active citizenship Its strong comparative emphasis breaks down conventional views of the state and focuses attention on the regions of Britain revealing how different forms of collective identity interacted in popular attitudes to political and social debates at a national level Radical Underworld Iain McCalman, 1988-03-03 This highly acclaimed study draws on information from spy reports and contemporary literature to look at English popular radicalism during the period between the anti Jacobin government Terror of the 1790s and the beginnings of Chartism The book traces for the first time the history of the underground revolutionary republican grouping founded by the agrarian reformer Thomas Spence Challenging conventional distinctions between high and low culture McCalman illuminates the darker more populist sides of Romanticism *Radical Underworld* broadens the conventional boundaries of popular politics and culture by exploring a political underworld connected with poverty crime prophetic religion and literary culture British Jacobin Politics, Desires, and Aftermaths James Epstein, David Karr, 2021-01-31 This book explores the hopes desires and imagined futures that characterized British radicalism in the 1790s and the resurfacing of this sense of possibility in the following decades The articulation of Jacobin sentiments reflected the emotional investments of men and women inspired by the French Revolution and committed to political transformation The authors emphasize the

performative aspects of political culture and the spaces in which mobilization and expression occurred including the club room tavern coffeehouse street outdoor meeting theater chapel courtroom prison and convict ship America imagined as a site of republican citizenship and New South Wales experienced as a space of political exile widened the scope of radical dreaming Part 1 focuses on the political culture forged under the shifting influence of the French Revolution Part 2 explores the afterlives of British Jacobinism in the year 1817 in early Chartist memorialization of the Scottish martyrs of 1794 and in the writings of E P Thompson The relationship between popular radicals and the Romantics is a theme pursued in several chapters a dialogue is sustained across the disciplinary boundaries of British history and literary studies The volume captures the revolutionary decade s effervescent yearning and its unruly persistence in later years **Britain and the Muslim**

World Gerald MacLean, 2010-10-12 Based on papers presented at an international three day conference sponsored by the British Academy and held at the Institute for Arab and Islamic Studies at the University of Exeter in April 2009 this collection of essays provides a comprehensive and accessible synthesis of the most advanced specialist and scholarly knowledge to date concerning historical perspectives on relations between Britain and the Muslim World Ranging from the early modern period to the present day the essays collected here represent work by leading writers and scholars from relevant fields history international relations economics religion law art history and design film studies and sociology as well as literary and cultural studies These essays explore the historical impacts of cross cultural encounters between Islam and Britain by variously addressing the question of how relations between Britain and the Muslim world in the past have brought us to our current situation and in some cases by proposing directions for necessary further consideration and research *Popular Politics in Nineteenth Century England* Rohan McWilliam, 2012-11-12

Popular Politics in Nineteenth Century England provides an accessible introduction to the culture of English popular politics between 1815 and 1900 the period from Luddism to the New Liberalism This is an area that has attracted great historical interest and has undergone fundamental revision in the last two decades Did the industrial revolution create the working class movement or was liberalism which transcended class divisions the key mode of political argument Rohan McWilliam brings this central debate up to date for students of Nineteenth Century British History He assesses popular ideology in relation to the state the nation gender and the nature of party formation and reveals a much richer social history emerging in the light of recent historiographical developments **Public Speech and**

the Culture of Public Life in the Age of Gladstone Joseph S. Meisel, 2001-12-06 By the last decades of the nineteenth century more people were making more speeches to greater numbers in a wider variety of venues than at any previous time This book argues that a recognizably modern public life was created in Victorian Britain largely through the instrumentality of public speech Shedding new light on the careers of many of the most important figures of the Victorian era and beyond including Gladstone Disraeli Sir Robert Peel John Bright Joseph Chamberlain Winston Churchill Lloyd George Charles Haddon Spurgeon and Canon Liddon the book traces the ways in which oratory came to occupy a central position in the

conception and practice of Victorian public life Not a study of rhetoric or a celebration of great oratory the book stresses the social developments that led to the production and consumption of these speeches **Victorian Labour History** John Host,2002-11-01 First Published in 2004 In Victorian Labour History Experience Identity and the Politics of Representation John Host addresses liberal Marxist and postmodernist historiography on Victorian working people to question the special status of historical knowledge The central focus of this study is a debate about mid Victorian social stability a condition conventionally equated with popular acceptance of the social order Host does not join the debate but takes it as his object of analysis deconstructing the notion of stability and the analyses that purport to explain it In particular he takes issue with historical evidence noting the different possibilities for meaning that it allows and the speculative character of the narratives to which it is adduced Host examines an extensive range of archival material to illustrate the ambiguity of the historical field the rhetorical strategies through which the illusion of its unity is created and the ultimately fictive quality of historical narrative He then explores the political contingency of the works he addresses and the political consequences of representing them as true **Antipodal England** ,2000 **Revolt and Revolution: Reaching for the Possible** Amal Treacher Kabesh,James Arvanitakis,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume explores the complexities involved in understanding and elucidating revolutionary activity and provides nuanced analysis of political activity This collection provides case studies of socio political activity from across a variety of countries
