The Individual and the Group Malcolm Pines, 2012-12-06 Malcolm Pines and Lise Rafaelsen The Seventh International Congress of Group Psychotherapy organized in Copenhagen by the International Association of Group Psychotherapy was one of the largest and most representative congresses on this subject that has yet been held Probably for the first time we achieved the declared aim of the International Association that of bringing together representatives of the different approaches to group psychotherapy in the same forum to allow for communication exchange and development of our relationships Previous congresses have been less representative and it seems to augur well for the future of the Association and of its congresses that there was this strong force and wish for unification and for exchange within the field of group psychotherapy The Congress theme The Individual and the Group Boundaries and Interrelations in Theory and Practice was chosen because it gave an opportunity once again to examine the very basis for group psychotherapy as theory and as practice The basic theme stated in the opening papers by Professor Marie Jahoda and Professor James Anthony was replayed daily with new developments and variations according to the theoretical position of each subsequent speaker

Political Solidarity Sally J. Scholz, 2008-07-23 Experiences of solidarity have figured prominently in the politics of the modern era from the rallying cry of liberation theology for solidarity with the poor and oppressed through feminist calls for sisterhood to such political movements as Solidarity in Poland Yet very little academic writing has focused on solidarity in conceptual rather than empirical terms Sally Scholz takes on this critical task here She lays the groundwork for a theory of political solidarity asking what solidarity means and how it differs fundamentally from other social and political concepts like camaraderie association or community Scholz distinguishes a variety of types and levels of solidarity by their social ontologies moral relations and corresponding obligations Political solidarity in contrast to social solidarity and civic solidarity aims to bring about social change by uniting individuals in their response to particular situations of injustice oppression or tyranny The book explores the moral relation of political solidarity in detail with chapters on the nature of the solidary group obligations within solidarity the paradox of the privileged the goals of solidarity movements and the prospects for global solidarity

Self-Identity and Everyday Life Harvie Ferguson, 2009-04-08 Identity and selfhood are terms routinely used throughout the human sciences that seek to analyze and describe the character of everyday life and experience Yet these terms are seldom defined or used with any precision and scant regard is paid to the historical and cultural context in which they arose or to which they are applied This innovative book provides fresh historical insights in terms of the emergence development and interrelationship of specific and varied notions of identity and selfhood and outlines a new sociological framework for analyzing it This is the first historical sociological framework for discussion of issues which have until now generally been treated as philosophy or psychology and as such it is essential reading for those undergraduates and postgraduates of sociology philosophy and history and cultural studies interested in the concepts of identity and self It covers a broader range of material than is usual in this style of text and includes a survey of relevant literature and precise analysis

Biennial Meeting of the National Assembly of Civil Service Commissions National Assembly of Civil Service Commissions (U.S.), Meeting, 1908 *Adolescent Identity Treatment* Pamela A. Foelsch, Susanne Schlüter-Müller, Anna E. Odom, Helen T. Arena, Andrés Borzutzky H., Klaus Schmeck, 2014-07-29
 Adolescent Identity Treatment: An Integrative Approach for Personality Pathology is a groundbreaking title that provides general and specific clinical strategies to help adolescents who lack an integrated identity. The authors have developed a treatment based on the integration of object relations theory, family systems, attachment, developmental neurobiology, and cognitive behavioral approaches that focuses on clearing blockages to normal identity development and adaptive functioning. While most adolescents build satisfying interpersonal relationships, are successful in school and work, and begin romantic relationships, there is a minority of adolescents who do not succeed in this and are at a high risk of developing problems in school, work, and relationships, problems with affect regulation, as well as engaging in a wide range of self-destructive behaviors. In addition to a description of the disorder and assessment, this manual offers extensive clinical examples and concrete interventions with phase-specific treatment components, including a clear treatment frame, psychoeducation, environmental interventions with a Home Plan that addresses self-care behaviors, responsibilities, and improved boundaries that fosters the development of better relationships between the adolescent and family, and parenting strategies, all in the service of creating a space for the individual work with the adolescent.

Identity Politics in Deconstruction Dr Carolyn D'Cruz, 2012-10-01
 Identity politics dominates the organization of liberation movements today. This is the case whether fighting over one's birthright to a nation, such as in the Palestinian-Israeli conflict, lobbying for civil rights, such as in gay and lesbian campaigns for marriage, or struggling for citizenry recognition, as currently experienced by asylum seekers. In this book, Carolyn D'Cruz investigates the nexus between what David Birch describes as the seemingly impossible of high theory and the seemingly accessible possibilities of popular discourse as encountered in liberation movements. Based on identity, D'Cruz reworks the logic of such movements through the unique combination of Derridean deconstruction, Foucauldian discourse, and Levinasian ethics. Moving both within and between the domains of philosophy, politics, and postmodern culture, this book offers both a clear explication of complex philosophical issues and an understanding of how they relate to the political practicalities of everyday life.
