Watson, 2018-10-20 Swathed in mist surrounded by the secretive sea wind wailing like the lost souls of sailors around its shores Prince Edward Island is the ideal setting for these strange and incredible tales Adopting Eldar: Joy, Tragedy and Red Tape RANDALL BAKER, 2005-04-07 At its simplest this is the story of an adoption Simple stops there This is a book that takes you to Europe's highest mountain to Moscow in chaos to the streets and valleys of Bulgaria and the palaces of Vienna all part of the unimaginable tangle that begins when a 13 year old Russian sends a fax to America Anyone who has been involved with adoption or has contemplated adoption will feel the twists and turns the emotional peaks and valleys Normally international adoptions involve infants who in effect start an entirely new life before they are old enough to remember anything about their pre adoption days On the other hand a 13 year old Is already formed has a culture and a language which isn't yours Has parents who have raised him so why would they let him go He still loves his birth parents and they have raised him well So what is going on In this case has had more than his fair share of tragedy dislocation and trauma and is in for a lot more before the book is done The story truly has all the elements of a suspense novel and it teaches you never to take anything for granted never to give up and never to think that anything is hopeless There is deep deep sadness in this book as well as the miracle of two families fusing into one There is a lot of laughter too and many many wonderful characters some of whom could have stepped out of the pages of Dickens Furthermore what happened next well that is even more remarkable But that is another story Do Dogs Dream?: Nearly Everything Your Dog Wants You to Know Stanley Coren, 2012-07-16 In a conversational Q A format a leading dog expert answers the most commonly asked questions about how dogs think and act Do dogs dream Can they recognize themselves in the mirror or understand what they're seeing on television Are they more intelligent than cats People have a great curiosity and many misunderstandings about how dogs think act and perceive the world They also wonder about the social and emotional lives of dogs Stanley Coren brings decades of scientific research on dogs to bear in his unprecedented foray into the inner lives of our canine companions dispelling many common myths in the process Coren answers the questions dog
